A Sonora Masterpiece

THERE are lower priced Sonoras and more expensive Sonoras. The former, made to satisfy popular demand, represent greater value than phonographs of other manufacturers of the same price. The latter, the costly art model Sonoras, are made for those who want something exclusive-extraordinary cabinet work and design, extra long running motors, expensive, though not essential conveniences.

Between these two is a Sonora Masterpiecethe Queen Anne-sharing the advantages of both; low enough in price for the modest income, fine enough to grace the most palatial home. Its tone is a startling revelation.
