## URIC ACID

Does **NOT** Cause Rheumatism! Furthermore, I claim that Uric Acid is a natural and necessary constituent of the blood—that it is found in the body of every newborn babe—that without it was could not live. Strange statements? Yes-to you, perhaps, because you have always been told differently.

But my book. The Inner Mysteries of Rheumatism, just published, tells you the real truth about Rheumatism. Tells what actually DOES cause it and how it is now being successfully treated in all its different forms and stages by entirely new, advanced, scientific methods.

The writing of this unusual book is the result of my twenty years' study, experimentation and research in this disease, and I want every sufferer of Rhumatism, Neuritis, Sciation, tout, etc., no matter in what form or how chronic, to read it. Therefore, although waluards, I will gladly send one complete copy only of the book absolutely free if you will send your address or that of any sufferer you may know to H. P. Clearwater, Ph.
