U. S. Re-entry in Europe's Deals, Whether in League or on Other Basis, Advocated.

ST. LOUIS, Dec. 2.—(By the Associated Press.)—Recentry of America into European affairs, either as a member of the league of nations some other basis, was urged today by Georges Clemenceau, war premier of France, in the fourth of his series of addresses in this coun try, delivered at the Odeon before

In the midst of his discussion of militarism, he reiterated the statement that America showed certain signs of militarism herself and launched into a criticism of her

naval policy.

"I do not intend to interfere in your policy." he said. "However, I think I have the right to say that sometimes you were very much inclined toward the development of your military establishments.

The warmth with which the Tiger's message was received was in marked centrast to the reception he got in the long parade through downtown St. Louis on his way to the Odeon.

Demonstrations Are Sporadic.

Demonstrations Are Sporadic.

The crowds were large, but demonstrations were sporadic. This was due in part, perhaps, to the fact that the Tiger was so surrounded in his automobile by plain clothesmen that many failed to recognize him. Lavish police protection had been provided because of the receipt by local authorities of letters threatening his life. But the nearest approach to hostility that developed was when a curious fat urchin of it slipped through the police lines and trudged for some distance beside clemenceau's car. He carried a bundle under his arm, but instead of a bomb it turned out to contain only a pair of shees.

The plain clothesmen shooed him away, however, as soon as his presence was detected.

Clemenceau left shortly before unidnight on a special train for Baltimore.

Alleged Organizer Caught at Astoria Handing Out Literature.

ASTORIA, Or., Dec. 2.—(Special.) -Carl E. Goffin and Oscar Japp, two alleged I. W. W. organizers, the Tiger, summarizing what he thought he had accomplished so far on his tour of America, declared he heldeved he had convinced the country that France was not militaristic nor imperialistic and that she had every intention of paying her debt to the United States.

Arguments Are Repeated.

Just to make sure, however, he repeated arguments bearing on these points before he launched into the subject of American participation in old world affairs—the point, he said, that he has been most frequently advised he will not be able to get across.

Here in the national capital it is even more of an issue than any-two sheriff shusher and Deputy Dethridge, They were sled in the country. Prohibition Is Made Non-Partisan Question, With Both Parties Debating Stand.

BY JOHN EDWIN NEVIN. WASHINGTON, D. C., Dec. 2 --Special.)-The question of prohibition has pushed from the center of the stage in the nation's capital law.

Cari E. Goffin and Oscar Japp. is even more of an issue than anyor the taw as it stands, so it would seem that all of the anti and pro-organizations were agreed for the first time in our history, the first because they expect enforcement to compel revision, and the latter because they hold the law "O. Plunging then into his appeal for America to resume an active role in Europe. Clemenceau relterated the possibility of America's entrance into the war and hor part in making peace.

He was interrupted by a lons wave of applause when he mentined Woodrow Wilson and his "14 points," on which he declared the peace was based.

"What were these 14 points for?" he continued. "Pledgings set forth before all humankind. Tour Declaration of Independence said 'equal rights, pursuit of happiness for every man, liberty." That was beautiful for them to fight for in 1776. It came from America to Europe again and you may be proud that this armistice and treaty had at its front the 14 points, which were nothing but the translation of the Declaration of the Declaration of the peace and reaty had at its front the 14 points, which were nothing but the translation of the Declaration of the Declar

VANCOUVER. Wash. Dec. 2—
(Special.)—The Washougal drainage project was assured today when the Clarke county commissioners decided to establish the diking district. A vote on the proposal was taken among the property owners who attended the hearing and all but one favored the reclamation. The next step will be to elect a supervisor and issue bonds. The latter may be taken by the contractor as payment.

The project is the second largest ever attempted in Clarke county. Two thousand acres are to be reclaimed at an estimated cost of \$115,000.

BAKERSFIELD, Cal., Dec. 2—Two were killed and a number injured when Santa Fe passenger train No. 22 from San Francisco jumped the track about five miles out of this city at 5 o'clock tonight.

Wet tracks were believed to have been stilled, but his name was not known here. Charles Moley, mail clerk of San Francisco, was reported to have been stilled. Louis Spaiding, also a mail clerk, was brought to the Mercy hospital here badly injured.

This was done. The embassy insisted that this was their agent—or at least this was what was stated over the telephone—and the load was released. The policeman who made the arrest was not satisfied. He went that night to the embassy and asked whether it was all right. They denied knowledge of any shipment. But—that same night this liquer or some that bore the same labels and identification marks, was on sale here in Washington.

Embassies Get Li, nor.

There is a steamer coming into an Atlantic port within the next week. It brings an enormous cargo of imported liquors consigned to two embassies and three legations. Bootleggers here in Washington are taking orders for that cargo. They will not get a single bottle of it, of course. But they will sting their customers from \$12 to \$18 a quart in the belief that they have the real goods. Simple enforcements cost very much money. That is so even very much money. That is so even when no trial is had. And when the case moves along with the slow mo-mentum of the courts, it becomes

CONSTANTINOPLE, Dec. 2 .- (By the Associated Press.)-The Armenians here are in a state bordering upon terror as a result of the pub-

With 5,000,000 liliterate adults and 6,000,000 children not in school, the commissioner said, the nation has even more need than in the days of the sage of Monticelle to set its face toward a policy to enable all the people to "grow in power and knowl-edge, in human understanding and tolerance, as the primary conditions of national progress."
