

THE ART OF MARCUS.

A QUAKER HOOSIER WHO COULD PAINT OR MAKE & MATCH.

Early Struggles With a Talent That Could Not Be Suppressed-One of His Best Known Pictures-How He Brought About a Happy Marriage.

One of the unique characters of the state is Marcus Mote, the veteran Quaker artist of Richmond. He is now 78 years of age and is very feeble. His memory of things that happened in his youth and prime is keen and true, but the events of the day pass as the sum-mer clouds. It was he who first defied the Quaker antipathy to art in oil and brush, and he secured the petition which caused the legislature to provide that the public schools of Indiana should teach drawing. The petition was presented by Senator Baxter, since deceased. Two years previously the Qua-ker artist had secured the teaching of drawing in the public schools of Richmond by ordinance.

Marcus Mote's talent was born with him. It is said of him that when only 21% years old his mother came home from meeting one day and found him scratching a rude picture on the foot-board of the bedstead with a piece of charcoal. The Quakers held that painting was of the devil and savored of idolatry. The boy was rebuked, with a remark, "I do believe this mischief was born in thee."

There was no relenting as the lad grew up and the propensity to draw and paint developed. He was forbidden to indulge his talent, but he could not be repressed. It is evident that had he met with encouragement and aid, in-stead of rebuke, fame and fortune would have crowned the artist with their richest laurels. As it was Marcus had to take to the woods for his colors. The primaries he derived from red root, or from red ink, the yellows from yellow root, and for blue he was obliged to content himself with bluing from his mother's washing tub.

'The only stealing I have ever done," he said to a Journal reporter, "was in taking bluing from my mother's bluing bag. For brushes I used the hair in the squirrel's tail, and I used to accompany my father when hunting so as to get the work was done with the pen. When I secured my first box of water colors I worked as late at night as I could and then spent the rest of the night awake picturing what I would do."

As the boy grew to manhood he became more assertive of his art and persisted in painting landscape and portraits in spite of the grumbling of members of the meeting. He lived then in Warren county, O., and attended quarterly meeting at Waynesville. He was chosen clerk of the meeting at one time, casion never overlooked by your true which led to the protest against his work rising to the surface. He would have been disowned had not Thomas ather of the well known oil millers of this city, used his influence to prevent it. Marcus Mote lived in Lebanon, O., for many years and personally knew the great Tom Corwin, whose portrait he painted for the state of Ohio. It hangs in the statehouse at Columbus, marked 'By an unknown artist." In speaking of this painting the artist said : "My daughter happened to be in Columbus and went to the statehouse. She discovered the inscription. Corwin came to me one day when he was at home from congress and said that the fellows down at Washington seemed to think that nobody in Ohio could do anything, and that he had refused to sit for a por-trait for an artist there for that reason. He wanted the work done at home. He sat for the portrait a number of times. and I became well acquainted with him. "He had a daughter, Eva, who was his great pride, and, together with her mother, he was very ambitious for her. There was a young man then teaching in Warren county who was poor in pocket, but had a strong will, a clean heart and first class ability. He was modest, however, and his ability was not known. He showed Eva Corwin so much attention that her father finally forbade her seeing the young man, and the girl was seriously affected by the breaking up of the friendship. She was kept closely at home in her father's suburban residence, and her friends noticed that her health was beginning to be affected. She had a friend named Jennie Hardy, since Drake, who had the confidence of Eva's parents, and one day I met Jennie and asked her to bring Eva to my studio on the next day at 1 o'clock sharp.

Months.

Some months look like peaches and ream and some like a hole chopped into a brick wall to admit a new door or window. The month is a hotbed of toothaches, the bunghole of oratory and a baby's crowning glory. It is patriot-ism's fountain head and the tool chest for pie. Without it the politician would be a wanderer on the face of the earth. and the cornetist would go down to an unhonored grave. It is the grocer's friend, the orator's pride and the dentist's hope. --- Mammoth Spring Monitor.

In fact, the men say so themselves and that they would really enjoy many of the occasions much more if ladies were present. But "it is not the custom of the country" (a rock on which I am always foundering) to omit or to change in such matters. Monsieur only does as do all the other men of his age, which is elderly, and condition, which is solid.

There is a curious feeling concerning America over here in one way and another. Morgenbladet, the chief conservative paper, an organ locally of the first importance, keeps a sort of horror chamber of Americana. The reason is, I suppose, that in these very dark and troublous political times, when not only the union but the monarchy itself is threatened and tottering, the conservative interest thinks it dangerous to allow any virtue to appear in a republic, and especially in ours, the most flourishing, and therefore the most perni-cious, example of that invention of evil bred.-San Francisco Examiner.

are always wrong. And as he never talks of anything under the sun except the theater-never of books or pictures or politics or science or morality or even immorality-his conservation is to me an unfailing source of instruction, delight and inspiration. I have a suspicion that if he were foolish enough to venture an expression of views on any of the departments of human activity excepting that in which he moves and has his being he would be a bore; but, occupying himself solely

with Shakespeare and the musical glasses, so to speak, he is a veritable boon. His idlest notion on acting or plays or scene-painting or the public -he has a great deal to say about "the public"-or on any thing connected with what is called the profession, never fails to start a suggestion toward the opposite and toward the true. He is a mentor more certain, more constant and more genial than the most scrupulous study, earnest thought or proved instinct could be.

If his chance observations direct so surely and unhaltingly toward what is true and beautiful and just in his call-

ing, what terms can fitly set forth the virtue of his deliberate opinions, the worth of his views resulting from severe thought, profound consideration and precise expression!
