

Highest of all in Leavening Power.—Latest U. S. Gov't Report

Royal Baking Powder

ABSOLUTELY PURE

A BIG SALT MINE.

The Development of a New California Industry.

Articles of incorporation have been filed by the "Crystal Rock Salt Mining Co." of San Francisco, with a capital stock of \$500,000, of which \$327,500 have been subscribed by Chas. G. Ahlborn, Sanford Bennett, Meyer Lewis, Julius Reimer, S. Lewis, L. Dorn and Ben Lewis.

The Crystal Rock Salt Mine is situated in San Bernardino county, and produces a salt of superior quality, which, according to analysis made by Professor L. Falkenau, of the State Assay Office in San Francisco, is found to be chemically pure. At the instance of Norton, Teller & Roden, and other San Francisco houses, a number of tests were made, with the result that the salt produced from this mine has been found to be equal to the best English salt in the market for butter making and table use, and for meat and fish packing, milling and dairy purposes. The lump stock salt from this mine is preferred by the large cattle companies to any other salt, by reason of its purity, dryness and solidity; also because it is the most economical for stock feeding. Owing to its firmness and purity it does not deliquesce when placed out on the ranges.

The company controls over 1,000 acres of mining ground in which the salt is mined from large deposits, as clear and transparent as crystals. The mine is connected with Salt Rock Station (Danby) on the Atlantic & Pacific R. R. by a road extending thirty-two miles, especially constructed by the traction engine company, and upon which the company successfully operates a train of traction engine and wagons, constructed by the Best Manufacturing Company of San Leandro, Cal.

The company is about to commence the erection of extensive works at the mine, and upon their completion will be enabled to supply the purest salt ever produced for butter-making, table use, meat and fish-packing. Lump salt for stock-feeding and milling purposes is now being shipped.

The buildings at the mine are constructed of salt, and the company is about to erect an office building at the railroad station out of rock salt, which will attract great attention. Passengers on the train passing this station are now in the habit of getting off the train for the purpose of securing crystals of salt as keepsakes.

In the sunlight a building constructed of this salt appears as if it was covered with diamonds.

THE WEED IN KANSAS.

Newton Has a Ladies' Smoking Club Called the Sparrow.

The only ladies' smoking club known to exist in Kansas has just been discovered in Newton and is named the Sparrow. The Sparrows have a select clubhouse, elegantly fitted up with the most luxurious furnishings, including divans in profusion and all the paraphernalia of smokers' club. There are books and periodicals, but it is in no sense a literary club. It is composed exclusively of young women, the number being limited to nine.

When one member marries or leaves the city, another lady is elected to fill the vacancy, and it is said there are always several applications awaiting action. It was only by accident that this exclusive secret association was discovered, but it has been in existence for a long time. The room belonging to the Sparrows is on Main street and is a genuine clubhouse. All its members are included in Newton's "well set."—St. Louis Republic.

What Congressmen Read.

"What books are the most popular with the new congressmen?" I asked a bookseller.

"Books on etiquette," he answered.

"The demand is so great we cannot fill it. We sold 20 such books yesterday, and I have today sent a large order to my publishers, for at this rate my stock will soon be exhausted."—Washington Post.

Perfume Manufacture.

England manufactures perfumes on a very large scale, importing many of the materials from other countries, but also making a large use of home-grown herbs and flowers.

Controls an Empire.

The South Africa Company, controlled by Cecil Rhodes and his associates, owns a territory larger than France, Germany, Austria and Italy combined, or five times the area of California.

Number of Hairs in a Beard.

A Pottstown barber has found a new occupation for spare moments. He has counted the number of hairs in a man's beard whom he shaved. When the last dried which had been used in shaving it was not difficult, although tedious, to count the hairs, which numbered 12,682.—Philadelphia Record.

HE MAY BE A CONGRESSMAN.

A Detroit Newsboy Appointed as a Page in the House.

One of the most interesting and praiseworthy appointments made by Doorkeeper Glenn of the house of representatives, whose personal staff consists of something like 200 employees, is that of Albert La Riviere of Detroit to be a page on the floor of the house. He was appointed on the recommendation of Representative Corlies of Detroit and was selected by the Newsboys' association of that city as their representative in congress.

When the news of Albert's appointment reached the boys, they held a rousing ratification meeting in Detroit, at which a letter was read from Congressman Corlies, holding out to the successful boy the hope that he might become a great statesman some day, as other boys have who began as pages in the senate or house, and resolutions were adopted thanking the congressman for the compliment paid the association, and saying that Albert La Riviere was chosen because the boys thought him to be the most deserving one in the lot.

When leaving Detroit, he was escorted to the station by 149 newsboys, two brass bands and several leading citizens. Speeches were made by the citizens and the newsboys, and Albert, who was advised about how to conduct himself in Washington, was obliged to mount the platform of the car and outline his policy with regard to public questions. All he could say was that he would be as good a representative of the newsboys of Detroit as he knew how to be. The new page was sworn into office the other day, and a hearty greeting was given him by the many other nimble footed boys who wait on the congressmen, all of whom think it is somewhat of a novelty for a newsboy to be transformed into a page.

He is a slightly built, bright faced boy, quite intelligent and hopes to succeed in getting into congress some day as a member. William Alden Smith, one of the new members of the Michigan delegation, was formerly a newsboy on the railroad for which he is now the general counsel. With Mr. Smith's example before him, Albert La Riviere thinks there is a good chance for him.—New York Sun.

NOVELTIES OF ELECTRICITY.

The Coming Swiss Exhibition Will Surpass All Others in This.

The Swiss National exposition, which begins at Geneva on May next and terminates on Oct. 15, bids fair, in the matter of interesting novelties, to surpass any national display made since the centennial. A full account of its scope is given by United States Consul Ridgley, at Geneva, in a report to the state department, and he says that Swiss residents in America are invited to make exhibits. Probably because Theodore Turrettin, mayor of Geneva and the most distinguished electrical engineer in Europe, is president of the exposition the electrical exhibit will be the finest ever seen. The river Rhine supplies 12,000 horsepower, to be electrical energy transmitted six miles to the grounds. There will be a traveling footpath operated by electricity, traversing the great machinery hall; horseless cars driven by electricity; appliances for aerial navigation, a multiplying valve pump, process for making paper and fabrics, tests of strength of metals by electricity and many other electrical appliances.

Professor Pictet will display his invention for producing intense cold and will exhibit the uses of this low temperature, such as in the purification of perfumes and chemicals, the cure of dyspepsia by a cold Turkish bath process, disinfecting and the production of an illuminating gas 80 times more powerful than ordinary coal gas.

Other features will be a Swiss village, an aquarium where the spectator is beneath the water and a Himalaya railway wherein travelers climb to the top of a great tower by means of a car running on a cable.

A WIDE AWAKE MAN.

David Jones Does Not Sleep For Weeks at a Time.

David Jones of Anderson, Ind., who attracted the attention of the medical profession two years ago by a sleepless spell of 93 days and last year by another spell which extended over 181 days, is beginning on another, which he fears will be more serious than the preceding ones. He was put on the circuit jury three weeks ago, and has not slept for 30 days and nights. He does not experience any bad effects whatever from the spell, nor did he during his 181 days. During that spell he attended to all of his farm business. He says now that he feels as though he never will sleep again.—St. Louis Globe-Democrat.

Senator Davis Getting Superstitions.

Senator Cushman K. Davis of Minnesota has reached the superstitions stage of his presidential boom. His literary bureau has been in active working order for some time past, and it was not until the Republican national committee fixed the date of the next convention that Senator Davis received his first ominous visitation. It turns out that he was born on the 18th of June, and, as the Republican convention is called to meet on that date, he firmly believes that the omen is a good one for him. In a good natured way he has told some of his friends that the fact of calling the convention to meet on his birthday is an indication to his advantage.—New York Sun.

Chafing Dish Outfit.

A chafing dish outfit includes the dish itself, with stand and lamp, a round tray upon which the whole arrangement stands, the alcohol flagon, whose long, curved spout permits the filling of the lamp without removing the blaze, a service dish with cover, all of polished nickel. Two spoons are also in the list, one large one, of nickel with ebony handle, a second smaller one of lacquered wood. Twelve dollars buys the outfit.—New York Times.

Good News.

Cashier—Have you heard, sir, that John Jones is a bankrupt?

Banker—Well, that's good news. We'll now get a little of what he owes us, whereas, if he had remained in business, we'd never have got a cent.—Flying Blade.

The sheets of steel for penmaking are, in their original condition, 8 feet long and 8 feet wide. From these strips are cut wide enough to permit of the cutting of three or four pens.

A DYING SPARK

Stop Right Now! Don't Light Another! You're Burning Your Brains.

WRECKS ALONG THE STREETSIDE

Off-times tobacco's victim looks at the dying spark in the cigar stump or at the big masticated "chaw" of tobacco just expectorated and with nerves nicotineated with tobacco, mentally resolved, "Now, that is my last, I will never use it again." What is the result? These good resolutions generally made while the effect of the use of tobacco practically paralyzes the cravings of millions of irritated nerve centers and just as soon as the effects of the nicotineated nerves are worn off, the good resolutions weaken, showing conclusively that the use of tobacco is not a habit but a disease of the nervous system caused by the education of the nerves to crave for the nicotine poisoning. What then is the easy, permanent, natural way to relieve yourself of the use of tobacco? Certainly not by discontinuing and suffering the nervous reaction and prostrating effects and mental degeneracy sure to follow the long and continued use of tobacco. Does it not suggest itself to you that the natural thing to do is to take a remedy that is specifically prepared to eradicate the effects of the nicotine in the system and to overcome the nervous effects and restore the tobacco irritated nerves to a normal healthy condition? To this, we all say, "Yes, where is the remedy?" You will find it in No-To-Bac. This is easily said and we all naturally ask for proof. Certainly, if No-To-Bac fails to cure, the Sterling Remedy Company, of New York, Montreal and Chicago, will so much faith in their remedy, that they positively guarantee to refund the money, and the concern being owned and operated by the most reputable business men of the east and west, it is absolutely reliable and we are glad to say, able in every way to live up to its guarantee.

The sale of No-To-Bac within the past few years has assumed enormous proportions, almost entirely developed upon its merits and the recommendations of the cured. So great is the sale that it is hardly possible to go into any leading drug store without finding it on sale, and the druggist has nothing but words of praise to give it.

"Do you call her complexion real?" "De cidedly. It has hardly a suggestion of the ideal school." The resemblance, fur, however, did not seem to be in it all.
