THE WATER AND LIGHTS.

The city attorney, L. K. Adams, is of the opinion, and bases that opinion upon a supreme court decision, that the city of Hillsboro need not continue taking electric lights to the amount of \$100 per month, contending that the city went further than its constitutional limit, in contracting for an indebtedness of \$12,000 over and above the \$10,000 in bonds issued. This is a question of general importance to the city and no action should be taken unless the law is well established. If the use of the hydrants is contingent upon the taking of the lights, whether void or not, the business interests of the city could ill afford to lose the protection the hydrants give for fire purposes. This is a matter of fact, not sentiment, and should be so considered before any action is taken.

EXCESS OF MODESTY.

For the quiescence of modesty, and meekness parallel to that of the sainted Moses, he who called himself the meekest man on earth, our readers' attention is called to an effort by the editor of the Hatchet, in the issue of February 20th, which from its frank statement leads one to believe the young man is destined to become powerful in political history. Here is the erudite effusion:

"Now are the times when a man has friends. One with difficulty escapes the excess of affection shown for him when he visits now in Hillsboro. Politics is a great leveler, one man's vote is as good as another's and the aspirants are congratulating themselves with everybody."

In the language of our friend, the best Irishman on earth, "That a har-r-d time he do have!"

It is well for the average American citizen to look dispassionately upon international questions where hasty action of our executive and legislative bodies might do the nation irretrievable harm. Anent the resolutions passed by congress on the Cuban question, it is a very subtle affair, this getting at the true merits of the case. The average person is rather prone to decide on these little matters without a careful analysis of the situation and this course sometimes leads to grave consequences not conducive to good citizenship. It would be well if people were to remember that it is not hardly fair to call massacre war when the insurgents are aggressors, and vice versa when the Spanish are the offenders. There is altogether too much of this thing going on and the trouble is easily located when it is remembered that many ambitious Americans have gone down to Cuba to be in on the ground floor when the island shall have gained its independence, and neither have they stopped short of aiding the insurgents. In the days of Grant, who was one time a sturdy democrat, these fellows were called "filibusters" and summarily dealt with. There are two sides to the Cuban question, but the tone of the associated press dispatches clearly shows but one.

The Washington county Hatchet is considerably worked up because the publisher of the Times has the appointment as Postmaster at the college city, and says Mr. Marsh's term will last a little over a year, meaning to leave the inference that should a republican executive be elected the then incumbent would be once removed and let civil service regulations slide. This is modesty of the most kittenish kind, as all know that Marsh's predecessor was allowed to serve the term of appointment without molestation. For another instance of the democratic injustice, which so hurts the eye of the Hatchet, the status of Hillsboro's office is cited. As in the issue where appeared the statement, the able editorialist basted Cleveland on civil service matters, it is

evident our young friend wrote on animus more than did he from a study of conditions. Consistency, thou art not of kin to our contemporary, the Hatchet.

The Oregonian yesterday morning took occasion to read out of the republican party all those who are committed to the silver question in affinity with Mitchell, Hermann and Ellis. It states that such a policy is anti-republican, diametrically opposed to party doctrine, and that the state platform must and will be gold standard. As it now stands, this means the antagonism of the Oregonian and its supporters, to Mitchell strength and is an indication that the next senatorial fight will be a hot one, provided the republicans elect a legislative ticket this year.

HILLSBORO should, like other progressive cities, have a board of trade, or some commercial association. There is nothing which so materially builds a town as organization of its citizens in the procuring of new business enterprises. A good tannery might be secured to this city, by a little preconcerted action.

SPAIN should not be alarmed over the action of congress. The resolution relative to Cuba is not so bad, and really means nothing extraordinary. It is the resolution that Spain should consider, not the bombast uttered in debate while it was pending.
