Vote Is Divided. With three states yet in doubt, it is Baker known that the Republican national ticket is elected by a majority of nearly 100 in the electoral college, and of 1,000,000 plurality of the popular vote. New York, Pennsylvania, Illinois, Massachusetts and Ohio have rolled up In unprecedentedly tremendous majorities, from 100,000 to 300,000. The rest is detail, to be settled by complete re-

turns. There are now three states in the doubtful column-Kentucky, Wyoming and South Dakota. In Kentucky it will require the official count to determine the result, owing to irregularities. In Wyoming, the uncretainty is due to the slow returns. The latest reports, however, indicate that Bryan will get two of the three votes. South Dakota's vote on presidential electors

is tied, and an official count will be required to determine the result. Republican managers have closed their office with the above declaration.

The foreign customs revenue is now almost entirely pledged to pay the Russian-French and German-English loans of 200,000,000 taels. A further indebtedness of 50,000,000 taels, on similar terms, would require to meet it the balance of customs revenue now remaining, and would leave China without revenue from this source for many years to come. Want of funds will prevent the purchase of a large fleet or

great investment in coast defenses. American methods and American investments would no doubt do a great deal to stimulate trade with China. It is, of course, known that anything that would increase the business with China would be of immense advantages to the Pacific slope, as the trade with the Orient must be carried on from the Pacific coast. It is known that a great deal of big industries, such as railroadbuilding, shipbuilding, and in fact anything of a modern character, must of necessity draw from the outside world, and the United States could best supply such demands, and in turn these supplies would be taken from the

Since the election the metal has been coming inte the banks in such a flood that they see their way clear to what can be termed a resumption of specie payments.
