FIRST MEETING A GRAND SUCCESS SCHOOL EXERCISES

FRIDAY EVE AT COURT HOUSE

President Campbell, of Monmouth Normal, and President Chapman, of Eugene, Were Present and Made Addresses on Education—Large Attendance.

On last Friday evening at the Court House the citizens of Hillsboro and vicinity were agreeably surprised in witnessing one of the most interesting meetings held in Hillsboro for some time.

The meeting was instituted by and under the supervision of the Hillsboro public school. It was the first of a series of public meetings to be given once each month during the term of the school should the first prove successful.

Hon. S. B. Huston, as one of the directors of the school, presided. After having called the meeting to order, he stated that the object of these meetings were intended to be instructive and educational and to promote an active interest in the efficiency of our public school; that the presence of so large an audience left no doubt in his mind of the future success of the meetings, and they could not longer be considered an 'experiment.'

After the rendition of a vocal solo by Miss Grace Poe the chairman in a few brief words introduced the first speaker of the evening, Pres. Campbell, of the state normal school at Monmouth, who, in a short address forcibly portrayed the necessity of an education in this world of strife and competition; and closed with an eloquent appeal for concentrated effort in the betterment of our common school training.

The Glee Club, under the direction of Prof. Werschull, then rendered a selection which was enthusiastically applauded, after which the chairman introduced as the next speaker Pres. Chapman of the State University.

Pres. Chapman, in a pleasant, methodical and deliberate manner outlined the duty of parents toward their children from an educational standpoint; not forgetting, however, to endeavor to instill into the minds of young students the importance of their own responsibility in acquiring the necessary education to fit themselves for the struggle for existence, even though it must be acquired by their own individual effort.

After the singing of another selection by the Glee Club, Rev. Cline requested permission to ask the question, "What are our boys to do who graduate from our common schools, which have no advance course, while they are yet too young to work, too young to be trusted away from home and yet not qualified to enter college?"

—The fire alarm has been repaired by the street committee but somehow the old bell does not seem to emit the volume of sound as of yore.
