Chief Justice Fuller. It is not the best watchdog that barks the most. The old watchdog lays low and seizes the burglar before he knows it. In the treatment of rheumatism many sufferers talk too much and do too little. If ferers talk too much and do too little. If they want to find out what is best for it, let them get St. Jacobs Oil and use it. It is a good watchdog against the intrusion of pain. It goes to work quickly and sure-ly, and seizes hold of rheumatism for the purpose of driving it out, and holds on un-til its purpose is accomplished. It is, therefore, the best remedy, because it takes the best means to accomplish its end, as many who have suffered for years with the allment will testify. The cure is the same in chronic or indamatory cases. With pa-tience and a free use of it, the worst cases of long standing have been finally cured by it.
