

HIDDEN PLACES.
Why a vessel should have a rat is strange as he is only an elongated rat himself. Rats and mice love hidden places, and a vessel is about the only living thing that can find them out. Aches and pains are like rats and mice. They seek out the hidden places of the human system and gnaw and ravage the muscles and nerves. St. Jacobs Oil, like a vessel, knows how to go for them. It will penetrate to the recesses of the pain, and break up its habitation and drives it out. Rats and mice seek the corners where a vessel has been, and pains and aches come fairly driven out by St. Jacobs Oil. It is permanently cured and seldom come back to their old haunts. There must be patience with the treatment; some chronic forms are stubborn and resist, but the great remedy will finally conquer and give health and strength to the afflicted parts.

A fish with nine mouths was captured in California recently, and ichthyologists are in doubt what to name it.

THE FAULTS AND FOLLIES OF THE AGE
Are numerous, but of the latter none is more ridiculous than the promiscuous and random use of laxative pills and other drastic cathartics. These wrench, convulse and weaken both the stomach and bowels. It is better to use each Bitter be used instead of these no-remedies, the result is accomplished without pain and with great benefit to the bowels, the stomach and the liver. Use this remedy when constipation manifests itself, and thereby prevent it from becoming chronic.

Salicylic acid, boric acid, borax and formaldehyde are some of the chemicals added to prevent milk from souring.

HOME PRODUCTS AND PURE FOOD.
All Eastern Syrup, so-called, usually very light colored and of heavy body, is made from glucose. "The Golden Syrup" is made from Sugar Cane and is strictly pure. It is for sale by first-class grocers, in cans only. Manufactured by the Pacific Coast Syrup Co., all genuine "The Golden Syrup" have the manufacturer's name lithographed on every can.

Two bottles of Paine's Cure for Consumption cured me of a bad lung trouble.—Mrs. J. Nichols, Princeton, Ind., March 26, 1896.

Warner's Safe Cure
IN LARGE OR SMALL BOTTLES.

Owing to the many requests from our patrons, Warner's Safe Cure Co. have put on the market a smaller size bottle of Safe Cure which can now be obtained at half the price of the large bottle.

Warner's Safe Cure
Is not only a scientific vegetable preparation and does all that is claimed for it, but it is the only Kidney and Liver medicine used by the best people of four continents. A medicine that bears the stamp of the world's approval, and maintains its position for a fifth of a century, must necessarily possess peculiar merit.

Leading dealers everywhere sell
FERRY'S SEEDS
Don't make the loss of time, labor and ground by planting inferior seed. The market is full of cheap, unreliable seed. FERRY'S SEEDS are the best; do not go to seed. Seed Catalogue, 100 pages, free. Send for it. O. M. FERRY & CO., Detroit, Mich.

Sent Free!
To any person interested in humane matters, or who loves animals, we will send free, upon application, a copy of the "ALLIANCE," the organ of this Society. In addition to its intensely interesting reading, it contains a list of the valuable and unusual premiums given by the paper. Address:

THE NATIONAL HUMANE ALLIANCE
436-441 United Building, New York.
The Universal Supply House, Established 1865.
PAINTS, OILS, GLASS, PUTTY, ETC.
Groceries, Hardware, Agricultural Implements.
Harness, Boots, Shoes, Dry Goods, Music, Etc.
Send 4c for Large Illustrated Catalogue.
PRODUCE TAKEN IN EXCHANGE.
Stock Supply Co., 15 Front St., San Francisco, Cal.

WHEAT
Make money by successful speculation in wheat. We buy and sell wheat there on margin, beginning by trading in futures. Write for full particulars. Best of reference given. Several years' experience on the Chicago Board of Trade, and a thorough knowledge of the business. Downing, Hopkins & Co., Chicago Board of Trade Brokers. Offices in Portland, Oregon, Spokane and Boise, Wash.

A FARMERS' TRUST.
An Alleged Plot to Control the Produce Markets.
Toledo, April 5.—Farmers are trying to form a trust. It is to spread all over the land, and if present plans carry, not a dollar's worth of farm produce of any kind will be sold for general consumption. In a nutshell, the idea is for the farmers to limit crops to the actual living needs of the members of the trust. The organization is secret, hatched, and its principles known just now to a select few outside of those directly concerned in its development. According to the promoters, however, the country is practically in condition to be placed in the grip of this remarkable combine.

Lancaster, Pa., was the birthplace of the trust. It saw light there several months ago, and was incorporated under the laws of New Jersey as the Agriculturalists' National Protective Association. The supreme body is made up of one representative from each state, whose duties are similar to those of the board of directors of an ordinary corporation. Each state has a subordinate board of directors, consisting of one representative from each congressional district. Each district in turn is governed by a board of two members from each county. Each county is under control of a board of from five to eleven members, who direct the movements of the township organizations.

It is the purpose to do nothing this year in the way of controlling the markets, because the organization is not complete. Next year, however, the crops will be limited to actual living needs of members.

If the plan is carried out, not a dollar's worth of farm produce of any kind will be sold for general consumption, it being the purpose to compel the people to import all food products. It is believed that by this method the power of the association can best make itself felt.

To Enable the Deaf to Hear.
New York, April 5.—It is announced from Denver that Professor Dussand, of the university there, has invented an apparatus to enable the deaf to hear. A microphone he has just issued magnifies the human voice in the same way that a lens magnifies matter. It is simply a telephone connected electrically with a phonograph, but a far more sensitive phonograph than Edison's ordinary model. A battery of from one cell to sixty, according to the degree of deafness, is used.

Of course the apparatus is useless in the case of absolute deafness, but such infirmity is far rarer than is supposed. Ninety-five per cent of stone-deaf persons can be made to hear and understand by Dussand's invention. You speak into the microphone and make it repeat the words which are transmitted by a sort of microphone and speaking tube into the deaf ear. Professor Dussand is preparing for the 1900 exhibition an apparatus which will enable 10,000 people who may all be deaf to follow the lecture.

Butler Tried Suicide.
San Francisco, April 5.—Murderer Butler has made his anticipated attempt at suicide. Despite the presence in his cell day and night of guards supposed to be watchful, the fiend of the Blue Mountains almost succeeded in cheating the gallows today. Early this morning Butler was observed to be unusually quiet. Investigation showed that his blanket was tight-drawn over his head, and when that was removed his face was found to be covered with blood. Butler has allowed his thumb nail to grow very long, and with the nail had opened an artery in his forehead from which he hoped to bleed to death. The wound was closed and greater precautions than ever will now be taken to preserve his life at least until after he sails on the Mariposa for Australia tomorrow afternoon.

Colonel Grant Declined.
New York, April 5.—Colonel Fred D. Grant has decided to decline President McKinley's offer of the position of first assistant secretary of war. Mr. Grant sent the following telegram to President McKinley:

"Although you are pleased to urge me to think over the matter, it is impossible for me to consider the position of assistant secretary of war, which you were good enough to offer me. I therefore decline with thanks the appointment, at the same time regretting that I am not to serve the administration, for which I worked earnestly."

Mr. Grant declined to be interviewed beyond giving out the foregoing telegram.

A Powder Mill Wrecked.
Shamokin, Pa., April 5.—All the buildings of the Shamokin Powder Company were wrecked by a terrific explosion which occurred in the mill early this morning. Fortunately no lives were lost, all the men having gone home. Three houses half a mile away were damaged badly. Mrs. David Hann was badly out about the face and body. Mr. and Mrs. Hann and Mrs. Klinger were buried in their beds beneath debris and boulders weighing 800 pounds. The loss is nearly \$50,000.

Child Instantly Killed.
San Francisco, April 5.—A child named James Holmes was instantly killed today by being run over by a loaded truck. The driver, H. Meyer, was charged with manslaughter.

Wages Increased in Michigan.
Ironwood, Mich., April 5.—The Metropolitan Iron & Land Company has announced an increase of 10 per cent in the wage scale here. The increase affects 1,000 men employed in the Norris and Pabst mines.

Demand an Eight-Hour Day.
Milwaukee, April 5.—The 10,000 union brewery employees in Milwaukee made a formal demand for an eight-hour working day at the same wages as is now being paid for 10 hours.

Garment Makers Strike.
St. Louis, April 5.—Five hundred employees of the clothing manufacturers of St. Louis struck today. Last fall the price paid for making a coat was reduced from 85 to 50 cents. It was promised the old rate would be restored in the spring, but this has not been done.

Constantinople, April 5.—It is reported that Daratheodori Pasha, who was mentioned some weeks ago as likely to be appointed governor of Crete, is going to Athens on a special mission to King George of Greece.

A Young Woman Gains 20 Pounds
Her Physicians in Iowa Said She Was Going Into a Decline, and That Her Lungs Were Affected—They Sent Her to Nevada.
But to Fight Lung Troubles or Any Wasting Disease, Build up Your Flesh.
From the Express, Los Angeles, Cal.
Two years ago, began in Eastern Iowa. Miss Maudie Leese began to go into a decline. She lost flesh rapidly. Her appetite failed. Fearful headaches nearly drove her frantic. She consulted local physicians—good, honest, practitioners. They told her that her lungs were affected; that medicine might alleviate, but a change of climate was the only remedy that offered a prospect of cure.

Ill and dependent she delayed as long as possible her departure, but at last it became imperative, and she came to an aunt at Verdi, Nevada, in the hope of finding health and strength in the pure air and among the pines of the Sierra Nevada. But she continued to fail, and to add to her miseries, learned to know the anguish of sufferings, which attend that complication of ill, that for want of better nomenclature, has been denominated "female weakness."

And now comes the miraculous part of the story, just as she told it to the interviewer last night:

"I ran down to 118 pounds," she said, "suffered tortures from those terrible headaches and from sleeplessness. My aunt persuaded me to try Dr. Williams' Pink Pills for Pale People. I had used nearly every kind of 'prescription,' could get no relief from them, and hoped for none from these pills. But to please auntie I began to take them. From the first day I noticed a beneficial effect. The headaches grew less severe; my appetite gradually returned. I could sleep nights and began to get good and strong."

"I used to take one of them three times a day. In two months I weighed 138 pounds, and was entirely well, and have been well ever since. The winters at Verdi were very cold and, besides, I had heard so much about Southern California that I came to Los Angeles."

"Dr. Williams' Pink Pills have helped me more than anything I have ever taken. I thank them for my health and ability to enjoy life. I am living at No. 800 Hope street, Los Angeles, and shall be only too glad to repeat what I have just said to anybody, either in person or by letter."

So spoke young and attractive Maud Leese, and no one who saw her big eyes snap as she said it could doubt the earnestness and sincerity of her statements.

And that is why we say the story of a miracle is floating through the air, although now the miracle has become an established fact.

Dr. Williams' Pink Pills contain, in a condensed form, all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the after effect of a grippa, palpitation of the heart, pale and sallow complexion, all forms of weakness either in male or female. Pink Pills are sold by all dealers, or will be sent post paid on receipt of price, 50 cents a box, or six boxes for \$2.50 (they are never sold in bulk or by the 100), by addressing Dr. Williams' Medicine Company, Schenectady, N. Y.

The banks of Newfoundland are made by the sand, ice and stone brought from the north by the icebergs.

\$100 REWARD \$100.
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by rebuilding up the constitution, and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address: F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Hall's Family Pills are the best.

America is the only country in which a baby elephant was born in captivity.

BROKEN DOWN WOMEN
And men find permanent cure in Dr. Leo's Compound Medicated Electric Belt. Rest, solace, comfort, for nerve and brain. Five times the curative power of any other belt at HALF the price. Permanent cure guaranteed. Consultation free, by mail, or at office, 146 Sixth street, Portland, Or.

SURE CURE FOR PILES
Having sold, in Portland, Oregon, a large quantity of this cure, I am now offering it at a special price. It is a simple, safe, and effective remedy. Send for full particulars. Address: Dr. Sanden, P.O. Box 10, Philadelphia, Pa.

TARIFF BILL CHANGES.
A General Remodeling by the Senate Committee.
Washington, April 5.—The Republicans of the senate committee on finance are continuing their work day and night on the tariff bill with the intention of reporting it to the senate at the earliest possible day. They are not prepared to give out any results of their investigations and state that they have not reached any conclusions as to the proposed changes. There is, however, a well-defined impression about the senate that the bill will be generally remodeled and the rates considerably reduced in many schedules.

There is a general belief among Western senators that there will be material changes in rates on wools, especially those of the third class.

Among other suggestions urged is a return to the Wilson law of 8 cents a pound duty on hops, instead of 15 cents, as proposed by the Dingley bill. It is claimed that the proposed increase will be an injury rather than a benefit to the producer, and a hardship to the consumer.

There is much contention about the lumber schedule. The American lumbermen interested in Canadian forests appear to be especially concerned over the Dingley rates.

The committee is not receiving any verbal statements except from senators, but is giving close attention to typewritten presentations of fact and argument.

Secretary Gage Will Comply.
Washington, April 5.—Secretary Gage today announced that he had decided to comply with the requirements of section 27, of the pending tariff bill, providing for the retention of samples of merchandise, imported under orders given subsequent to April 1, and which were not purchased and directed by the owner to be shipped for import into the United States prior to April 1. This action, however, will be taken under section 249 of the revised statutes, which authorizes the secretary to exercise a superintendency of the collection of customs duties.

Discussed by Americans in France.
London, April 5.—The Times will publish a dispatch from Paris correspondent, saying:

The Dingley tariff bill has caused considerable excitement among American business houses here. The questions growing out of it have been discussed at a large meeting of the American chamber of commerce, at which the American embassy was represented by Henry Wignaud, secretary of Ambassador Eustis. The vice-president of the chamber said:

"America sends France 180,000,000 francs' worth of goods duty free, as against 80,000,000 worth sent by France, duty free, to America. The chamber suggests that the United States should reduce the tariff in some important French exports, the natural result of which would be that France would admit many American manufactures at a reduced tariff. The advantage to America under existing conditions by France admitting some articles at the minimum tariff is over 18,000,000 francs. The chamber hopes that President McKinley's request for additional discretionary power may be granted, so that reciprocal commercial relations may be established in order to open new markets for manufactured American products."

SPAIN'S EASTERN WAR.
Madrid Authorities Declare the Philippine Revolt Ended.
Washington, April 5.—The Spanish legation has received official dispatches from Madrid, under date of April 3, announcing the most decisive engagements in the Philippine islands since the insurrection there began. The losses were heavy and 1,630 prisoners surrendered as a result of the shelling of Cavite. The officials of the Spanish legation are highly gratified at the announcements, and state that the results practically close the conflict in the islands, these being the last of a series of severe engagements.

Sand in Their Powder.
London, April 5.—The Daily News will publish a dispatch tomorrow from its Salonica correspondent who says he has been informed on reliable authority that a large quantity of gunpowder sent to the frontier from Constantinople has been found to consist chiefly of sand. The vali of Manistira has discovered gross abuses in the supply of provisions and accoutrements to the army.

Coinage of Silver Dollars.
San Francisco, April 5.—An order has just been received by Superintendent Daggett, of the mint, from Director Preston for the coinage of 800,000 silver dollars. This, in addition to the regular coinage of gold, will keep the present force employed for some time, and thus render unnecessary a reduction of the number of employees which has been expected to take place.

Turkey Wants to Fight, Too.
Constantinople, April 5.—The fighting between the Christians and the Mussulmans, which is daily reported from Crete, is creating a very bad impression here, and it is believed that the Turkish government will soon propose to the powers that Turkey herself be permitted to take action against the insurgents.

Reason for the Blockade.
St. Petersburg, April 5.—A blockade of Greece, which the Russian press thinks the best way of forcing the situation, by exciting the Greeks to hostile acts on the Turkish frontier, has recently been decided upon.

Insurgents Attack a Blockhouse.
Athens, April 5.—The insurgents today fired several rounds at the Bulevar blockhouse, occupied by the international troops. The Italian guns returned the fire.

The Borrego Gang Hanged.
Santa Fe, N. M., April 5.—Francisco Gonzales y Borrego, Antonio Gonzales y Borrego, Laurino Alarid and Patricio Valencia, condemned to death for the murder of ex-Sheriff Frank Chavez, who was killed from ambush on the night of May 29, 1892, were hanged at 9:10 A. M. today.

Fire at a Health Resort.
Meadville, Pa., April 5.—Cambridge Springs, a health resort fifteen miles from here, was almost entirely burned today, involving a loss of one life and a property loss of \$300,000.

WEEKLY MARKET LETTER
Downing, Hopkins & Company's Review of Trade.
One could write yards of matter and fill innumerable columns of space in attempting to describe the wheat market and its variations this week, giving a reason for each and every movement. A well-known operator puts it correctly and tersely when he says "the market is suffering from too much news and too many statistics." There is all kinds of news in wheat, and statistics enough to supply everybody, but whether traders are any better for having so much information is a question. Figures themselves don't lie, but it is said liars can figure, and they evidently have been doing it in a manner that may be satisfactory to themselves but certainly not soul-filling enough for the public who are growing rather chary of statisticians and their methods.

In speaking of figures, it must be confessed that they are unusually favorable for higher prices, but they, like bad crop reports, are ignored. The visible supply for the week was cut 1,407,000 bushels. The total is now 89,083,000 bushels, compared with 61,045,000 bushels last year; for the same week one year ago, a difference of 28,000,000 bushels. The world's stock for the week underwent a decrease of about 5,000,000 bushels. World's shipment for three weeks have been under 4,000,000 bushels, while the supposed or estimated requirements of the importing countries is 7,250,000 bushels per week. Wheat and flour on ocean passage decreases steadily, and this week was reduced 1,500,000 bushels. If that is not a phalanx of figures to warrant purchases of wheat, the buyer had better go out of the business. Sad to relate, however, statistics have little effect upon the market, and professional sellers go right ahead, never thinking that there is the barest sort of possibility of a day of reckoning before the new crop is in the shock.

Corn has held its own, and there is very little change to be noted in the market. That corn possesses merit on its own account has been and is daily demonstrated by the course of the market.

Market Quotations.
Portland, Or., April 6, 1897.
Flour—Portland, Salem, Cascadia and Dayton, \$4.10; Benton county and White Lily, \$4.10; garham, \$3.40; superfine, \$2.75 per barrel.

Apples—Good to choice, \$1 to \$1.75; fancy, \$2 to \$2.25 per box.
Hops—9¢ to 12¢ per pound.

NOW WITHOUT A RIVAL.
No Remedy to Compare With Paine's Celery Compound.
Read the Really Wonderful Experience of Rev. Dr. Bailey and His Good Wife, and the Indorsements of Other Eminent Divines.
Here is a letter from the pastor of the most influential church in South Baltimore, that every truth-seeker should read carefully.
Every disheartened sick person and every man or woman who has lost faith in the remedies he or she has tried because none of them has done any good—every one who is sick out of the cheerful and filled with new hope and determination by the letter written by Rev. William T. Bailey, pastor of the Curtis Bay Church, the most influential church in South Baltimore.
On March 31, 1896, the Baltimore Sun, under display headlines, published the following news of Rev. Mr. Bailey's affliction:
"Rev. Wm. T. Bailey, pastor of the Curtis Bay Baptist church, was paralyzed in the tongue while preaching Sunday night, and lost the power of speech. The congregation was at once dismissed, and Dr. — was called. He said Mr. Bailey was suffering from a severe attack of nervous prostration caused by hard study and overwork, and that he must have rest and quiet."
The whole city was shocked. The papers soon began to record an improvement.
On April 18, 1896, the following open letter was addressed to the proprietors of Paine's Celery Compound:
South Baltimore, Md., April 18, 1896. Messrs. Wells, Richardson & Co.:
Gentlemen—I was taken very ill while preaching Easter Sunday night. My doctor could not help me, so I discharged him and began to use Paine's Celery Compound with crushing effect. I will not hesitate to say that it is the best medicine in the world. I am, Fraternally,
William T. Bailey.
Later in the year the proprietors of this wonderful remedy received still another letter from Dr. Bailey, as follows:
Gentlemen—I propose to do what I can to let people know of your Paine's Celery Compound, the medicine that has done me so much good. I shall in my own way, in speaking of my rapid and great improvement, from the pulpit, give as is justly due, tribute to Paine's Celery Compound. I married, six years ago, Miss Lillie B. Dunnivant, a lady well known in social life, the niece of Capt. Robert F. Lewis, U. S. navy. During the whole six years she has been an invalid, suffering from hysteria, laughing, crying and screaming, so that she could be heard for squares. I have had a great deal of trouble and expense. Eighteen doctors, have, first and last, attended her, and one bottle of Paine's Celery Compound has done her more good than all of the other medicine. She and I are together using Paine's Celery Compound, and I will with pleasure let you know the result. Fraternally,
William T. Bailey.
Baltimore, May 18, 1896.
Wells, Richardson & Co.:
Gentlemen—It is impossible for me to express the emotions of my heart on the great good Mrs. Bailey and I have derived from the use of Paine's Celery Compound. I am a new man. We have taken together eight bottles, and I wish to continue its use. The people of my church are very kind to the poor, and I have given to some of the poor money with which to purchase the medicine. You may use my name if you wish and I will with pleasure answer all communications sent me. I believe the remedy is the best in the world. Yours very truly,
William T. Bailey.
Pastor Curtis Bay Baptist Church.
A few weeks ago there was published a testimonial of the great virtue of Paine's Celery Compound from Rev. Charles L. Thompson, D. D., L. L. D., the eminent Presbyterian preacher of New York City. Rev. Dr. Meek, editor of the Central Methodist, recently wrote an open letter, telling that Paine's Celery Compound had worked a remarkable cure in his case. And last month the great temperance evangelist, Francis Murphy, told the public how Paine's Celery Compound had been a blessing in his family.
These are few among thousands. Every one knows conscientious, charitable persons who are too busy, more often too procrastinating, to save their health from going to pieces, and find it easier to help others than themselves. Such persons fall up the army of broken down business men and sickly women. Every one in this spring time needs to purify the blood and regulate the nervous system. Carry home today—not by a bottle of Paine's Celery Compound. Cure nervousness, neuralgia, and rheumatism this spring. You can now put your health on a sound basis by means of Paine's Celery Compound. Charity should begin at home. Attend to your own health and that of your family.
Paine's Celery Compound is within reach of every family where there is a member afflicted by any stomach, liver or kidney trouble. It cures permanently and rapidly.
It must be distinguished from all other remedies.

REASONS FOR USING
Walter Baker & Co.'s
Breakfast Cocoa.

1. Because it is absolutely pure.
2. Because it is not made by the so-called Dutch Process in which chemicals are used.
3. Because beans of the finest quality are used.
4. Because it is made by a method which preserves unimpaired the exquisite natural flavor and odor of the beans.
5. Because it is the most economical, costing less than one cent a cup.

Be sure that you get the genuine article made by WALTER BAKER & CO. LTD., Dorchester, Mass. Established 1780.

YOUNG MAN!
You have exceeded the limit allowed by nature in the enjoyment of worldly pleasures. You have at some time overtaxed your nervous system, and there is a weak, nervous feeling, ready to break forth in all its pitiable, destructive effects upon you. Do not disregard these little symptoms, which you feel from day to day; they are messages telling of the suffering of your nerves, and warning you that a breakdown is near. It may come tomorrow, and then it will be too late to mend.
Mend now. What energy is left you, put it forth and save yourself. Call on or write to Dr. Sanden and study his plan. Study how so many unfortunate have been saved. Don't wait; act today. It is of vital importance to you.
Have you read or heard of the wonderful cures which are being accomplished by

Dr. Sanden's Electric Belt
There is not a hamlet on the Pacific coast but has one or more who owe their happiness to it. This is the record of five years of good work.
"Belt has proved entirely satisfactory: my appetite is great, digestion good, memory improving, muscles hard and strong, bowels in good order, sexual strength improving, great increase of confidence. Can do more work with greater ease than I ever have done before."—R. B. DOUGLAS, Steamwood, Wash., March 11, 1897.
What a record this paper could show if people cured of such troubles would allow their names to be used! Every day some grateful, restored man gives thanks to Dr. Sanden's Electric Belt. So will you if you try it. Send for the book, "Three Classes of Men," free, sealed closely, by mail. Call or address
SANDEN ELECTRIC BELT CO., 255 West Washington St., Portland, Or.
When writing to Advertiser please mention this paper.
