the detaching lever, releasing the boat, near the city, was practically wiped which fell about 20 feet to the water. out of existence. The two men fell overboard and the Trains are beginning to move after boat filled with water. The shock was 12 hours' delay. so great that the men were stunned

Ensign Gherardi rushed on deck, warning. and, throwing off his coat, plunged over the ship's side. Three seamen followed ed at Spring Common foot bridge. Men, him. Avapian, who sank almost instantly, was just down for a second when the gallant ensign rescued him. Speers was rescued by the other men. Avapian and Speers soon recovered

The gallant rescue, which was witnessed by officers and men of the ship in the vicinity, elicited hearty cheers and praise for the rescuers. Ensign Trumbull county 15 barns were struck Gherardi, who is an exceedingly modest by lightning and burned. Crops were young officer, came in for a special hare of commendation.

When attached to the Maine last February, in a storm off the Carolina coast, Ensign Gherardi saved the life of a drowning sailor under the most McNelli, of the O. R. & N.. May Be perilous circumstances.

ALASKAN TOWNS DESERTED.

Clondyke Rush Is Fast Depopulating the Coast Settlen

San Francisco, July 26.-Among the arrivals from Alaska on the steamer Bertha was Dr. C. F. Dickinson, of Kodiak island, which lies just at the head of Cook inlet. He save the gold excitement all over the territory of Alaska is something unprecedented, and that people are flocking to the Clondyke in a way that threatens to depopulate many of the trading posts and coast towns.

"When I left Kodiak, two weeks ago," said Dr. Dickinson, "the people were leaving all that section and flocking in the direction of the Clondyke. In a way, the situation is appalling, for many of the industries are left practically without the means of operation. Mines that are paying handsomely at Cook inlet have been deserted.

"In my opinion there are just as good placer diggings to be found at Cook inlet as in the Clondyke region. There is not a foot of ground in all that country that does not contain gold in more or less appreciable quantities. The great trouble has been that people have not had either the courage or opportunity, I do not know which, to thoroughly prospect the country. I think that in another month the country will be practically deserted. There room about Cook inlet for thousands of men, and there is certainly no better place in the world for a poor man."

BETTER WAIT TILL SPRING.

The Present a Bad Time to Start for the Clondyke.

> Great loss of life was narrowly avertmaining to watch the angry waters below in spite of the fact that the tsructure was unsafe. Finally two policemen with drawn clubs cleared the bridge, and a few seconds later the bridge was swept away.

Reports from rural districts show that farmers suffered greatly. In destroyed and buildings generally damaged, but no loss of life is yet reported.

A RAILROAD CHANGE.

Spokane, Wash., July 26 .- A St. Paul special to the Spokesman Review

Upon good authority it is reported here that the efforts of President J. J Hill, of the Great Northern, to acquire control of the Northern Pacific are still short of consummation. According to the latest story in railroad circles, a three-cornered fight is now in progress for the control of the great property. Mr. Hill stands at one point of the triangle, the present management at another, and McNeill, of the O. R. & N., at the third.

If the present management should obtain control by defeating the efforts of Hill, it is understood that Julius Hannaford, at present traffic manager, will be made president of the company. Mr. Hannaford has been called to New York, and it is beileved his mission has to do with this interesting struggle.

Mr. McNeill, former president and general manager of the O. R. &. N., is ading the third movement. He has the backing of the Russell Sage interest. It is known that Mr. McNeill has strong hopes of success. President Hill was instrumental in having Mr. Mohler appointed to McNeill's place as manager of the O. R. & N., and it is thought the reorganizer of the Oregon road is out for revenge as well as power.

A Colorado Clondyke.

Silver Cliff, Colo., July 26.-If a find which has just been made here turns out as expected, Colorado may have a Clondyke of its own, and this old Custer county camp will take on a new life. The discovery was made yesterday by Joseph Foulk, a well-known Coster county man, who has been looking over the ground about half a mile southwest New York, July 26.—The World of town and near the water works. says: The Clondyke fever has not Foulk got out some quartz heavily

The news of the discovery quickly spread, and within a few hours there working days in the fore night and today the whole of Silnnot exceed 100 in ver Cliff seems to be going to the scene other 265 days the of the find The new camp is directly between the Zoo and Rattlesnake mountain camps.

A Convict's Sensational Confession. Indianapolis, Ind., July 26.-Noah Baney, a convict at Michigan City state prison, has written a confession which, if proved true, will have the effect of giving Rev. W. E. Hinshaw his liberty. Hinshaw was convicted two years ago and sentenced to life imprisonment for the murder of his wife. The trial of Hinshaw was one of the city, has announced that he expects to most sensational in the history of the claim the gold fields in the Clondyke state. According to Baney, the real murderers of Mrs. Hinshaw are John Whitney and Guy Van Tassel, Inexplorer who headed the expedition to dianapolis men. Baney's statement recites the details of the crime as told him by Whitney and Van Tassel, who him by Whitney and Van Tassel, who drove from Indianapolis to Bellevue in New York, July 26.—Orders have been received at the Brooklyn navy-yard to have all the yessels that are robbery, and Mrs. Hinshaw was shot by Van Tassel, who shot to frighten her back into the yard.

rmor Companies Decline to Bid. Washington, July 26. - Secretary Long today received replies from the Carnegie and Bethlehem companies to his invitation to submit bids for supplying armor for the three battle-ships Illinois, Wisconsin and Alabama, in accordance with the limitations placed by congress upon the price to be paid for armor. Both of the companies declined formally to bid within the \$300 limit, on the ground that it is not pos-sible for them to produce armor of the the government at that figure.

Downing, Hopkins & Company's Revie

WEEKLY MARKET LETTER.

Legitimate laws of supply and de mand may at times be counterbalanced by speculation, but they cannot always ignored with impunity. The adrance in wheat values during the week has been long overdue. Nominally it has been caused by reported damages to the Russian wheat crop. In reality it is due to depleted reserves and small crops. A conservative statement of supplies at home and abroad is as follows: Importing countries require 100,000,000 bushels more than last ear. The only countries with exportaole surplus are America and Russia. The latter, according to latest reports, will have less than usual for export. America must therefore reap the benefit of the increased export demand. Fortunately, we have excellent crop prospects, promising at present the second largest wheat crop ever produced in this country. In this connection it must be borne in mind that our reserves are practically exhausted, and if they are to be replenished from the coming crop our exportable surplus will not exceed that of last year by over 20,000,-000 bushels. Importers are waking up to the situation, and they have been large and persistent buyers of wheat in our markets during the week. The resulting advance, while large and rapid. is more than fully warranted, and the tendency of the market is to advance still further. Exports for the week were somewhat

higher than the previous one, wheat and flour equalling 1,978,000 bushels, while the world's shipments were reported at about 4,000,000 bushels. On ocean passage decreased 550,000 bushels, and our visible supply showed an increase of 708,000 bushels, and now totals 16,032,000 bushels, against 47,-

172,000 bushels a year ago this time, There were alarming reports of damage to the Russians' greatest food and cereal, the rye crop. An encouraging feature is the exceedingly light receipts of new wheat, the movement thus far being very limited and not amounting to more than one-third of that of a year ago. This indicates that there is a very heavy interior demand for new wheat, or else that the new crop is being held back in anticipation of higher prices. Cables have advanced daily and are very strong, bringing buying orders for both English and French accounts, mostly future delivery.

Hotels in Greece.

Professor Gildersleeve writing in the Atlantic Monthly of hotels in the interior of Greece, says there is no common sitting-room. There is no office. but that does not seem to interfere with the presentation of the bills. The Agricultural ground floor is given up to a cafe or restaurant, if the innkeeper goes into that line of business. Very often, however, the master of the Apollo has only come to let. The sleeping apartments on the floor above are often approached by an outside stirway, and, as is to be expected in a southern climate, they are scantily furnished. Over-furnishing is a vice anywhere. Under a Southern sky it is a crime of which the Greeks are not guilty. There is usually a mirror, though that tribute of human vanity is sometimes lacking, and, like the Turk, the solitary Turkish towel bears no brother near his throne. The bedstead is invariably of iron. As in primitive United States within my memory, single rooms are rare. Two, three, four, five beds are put in one room or strung along the corridors. A fastidious person who desires to occupy a room alone has to pay for all the beds therein. In some places special charges are made for sleeping in the daytime, and there is a fixed rate for sleeping on the floor.

Consolation.
