

\$20000

in prizes to make twice as many people ask their grocers for *Schilling's Best* baking powder and tea.

Schilling's Best baking powder and tea are because they are money-back.

What is the missing word?—not SAFE, although *Schilling's Best* baking powder and tea are safe.

Get *Schilling's Best* baking powder or tea at your grocers; take out the ticket (brown ticket in every package of baking powder; yellow ticket in the tea); send a ticket with each word to address below before December 31st.

Until October 15th two words allowed for every ticket; after that only one word for every ticket.

If only one person finds the word, that person gets \$2000.00; if several find it, \$2000.00 will be equally divided among them.

Every one sending a brown or yellow ticket will receive a set of cardboard creeping babies at the end of the contest. Those sending three or more in one envelope will receive a 1908 pocket calendar—no advertising on it. These creeping babies and pocket calendars will be different from the ones offered in the last contest.

Better cut these rules out.

Address: MONEY-BACK, SAN FRANCISCO.

ONE HUNDRED FRUIT TREES

The Africans of South Carolina have established a training school for colored nurses. A charter was obtained from the state, and the institution was opened on October 4th. It is the only school of the kind in that part of the country, and it is naturally in the nature of an experiment. The money to build and equip a hospital was easily raised. Educated colored men and women are the instructors, and a large number of students have been enrolled. A preliminary training school has been running for a few months, but only on a small scale, as there was no place where the students could get the advantage of practical knowledge. They simply studied the theoretical part of the duties of the nurse. The applicants for admission to the new school are required to be in good health and they must present certificates of good moral standing. They must also have certificates from some college or high school, or second grade teachers' certificates, or else pass an examination to show that they have a fair education. The course of study is confined to lectures. Students are required to recite, and rigid examinations will be held.

Ghost dancing has its penalties. It is reported that the quarterly allowance of \$50,000 doled out by the government to the Cheyennes and Arapahoes is to be stopped.

The largest mass of pure rock salt in the world lies under the province of Galicia, Hungary. It is known to be 550 miles long, twenty broad, and 250 feet in thickness.

Statistics disclose the fact that the United States consume annually about 640,000,000 pounds of wool, or about nine pounds per capita of population.

Make graham bread the same as you do white bread; steam it three hours, instead of baking it one hour.

A large basin of water kept in a sick-room and frequently renewed, benefits both patient and nurse.

HOME PRODUCTS AND PURE FOOD.

All Eastern Syrup, so-called, usually very light colored and of heavy body, is made from glucose. "The Golden Drops" is made from Sugar Cane and is a truly pure. It is for sale by first-class grocers, in cans only. Manufactured by the Pacific Coast Syrup Co. All genuine "The Golden Drops" have the manufacturer's name lithographed on every can.

Sweet oil, with a little vinegar added, will restore the leather backs and seats of chairs.

For lung and chest diseases, Plao's Cure is the best medicine we have used.—Mrs. J. L. Northcott, Windsor, Ont., Canada.

Keeping a pan of water in the oven will keep loaves from scorching.

Try Schilling's Best tea and baking powder.

Experiments have shown that the ash constituents of coal, which are not readily permeable, may be roughly estimated by means of Roentgen rays on comparison with slabs having a known percentage of ash.

The Kennebec river is said to pour a greater volume of water into the ocean than any other river on the Atlantic or Gulf coast between St. John and the mouth of the Mississippi.

The records of eighty-eight years show that tornadoes have a width of 10 to 150 feet, a length of track of 300 yards to 200 miles, and a velocity of progression of 7 to 100 miles an hour.

The percentage of the United States population living in cities was 3.25 in 1790, in 1890 it was 39.50. The present urban population of France is over 87 per cent of the inhabitants.

TENDER OF MEDIATION.

Substance of the President's Recent Note to Spain.

New York, Oct. 18.—The Herald publishes the following, based on high authority, which it claims is substantially the instructions issued by President McKinley to Minister Woodford to be presented to the Spanish government:

None but the most kindly relations exist between the present administration and Spain, and as far as lies in the power of the administration they will continue. The belligerency resolution which passed the senate at the last session of congress merely bore evidence of the tremendous popular feeling throughout this country in favor of Cuba. The house, to be sure, voted down the resolution passed by the senate; but this was with a view to postponing the issue and not doing anything for the moment that could be construed as hostile to Spain.

The house, like the senate, is strongly in sympathy with Cuba. This feeling of sympathy throughout the United States will undoubtedly take shape as soon as congress convenes, and it is necessary for the president to communicate to congress such recommendations as he deems best to make in regard to Cuban affairs.

Under the circumstances, the government of the United States tenders its best offices to mediate between Spain and Cuba, and it offers to mediate so as to bring the war to an end on such terms as will be honorable to both parties. This government expresses the hope that Spain will reply by the end of October, so as to give the president a chance to report to congress by the time it convenes.

The Herald also publishes the following, which it claims details the real circumstances which led to the downfall of the old cabinet:

Nearly all of the Spanish bonds had been floated in France, and the recent loans were placed there, but the latest application for further loans had not been favorably responded to. The only means, therefore, of raising money was through the Bank of Spain, through which application was made at the rate of 50,000 pesetas, or \$12,000,000 a month, in order to carry on the war in Cuba and the Philippine islands. The Bank of Spain declined to make further advances to the government several weeks ago, and the cabinet thereupon removed the governor of the bank. The recently appointed governor of the bank thereupon tried to force upon the bank committee, or board of directors the application of the government for additional loans, but his efforts failed.

This was followed by the determination of the cabinet to take steps to reduce the interest rate on the government bonds of 5 to 6 per cent to 3 1/2 and 4 per cent respectively. Immediately the cabinet was deluged with protests. Some of the objections came from persons high in authority and in a position to dictate terms to Spain.

The combined weight of conservatives in Spain, which embraced, as indicated, the bulk of the holders of Spanish bonds, whose interest would be cut in two, immediately answered this proposition with the suggestion that it would be far better to stop all war expenses than to adopt such a radical course. In fact many of the conservatives said it would be better to gain anything in the way of indemnity which Spain could obtain by the sacrifice of sovereignty and accepting an offer to grant liberty to Cuba, if it could be brought about in a way that would not be dishonorable to Spain. The queen yielded to this, and the result was the resignation of the old cabinet and the calling upon Sagasta to form a new one.

Their Aim Was True.

Delta, Oct. 18.—William Harold and Under-Sheriff Radford, of Siekiyow county, were shot and killed and Deputy Sheriff Stewart seriously wounded the morning while the latter two were attempting to arrest Harold for complicity in the robbery of the Yreka and Fort Jones stage on September 28 last.

This morning Radford and Stewart presented themselves at Harold's house and asked for Harold. The latter replied by opening fire upon the officers with a big revolver. The first shot took effect in Stewart's leg, while the second bullet struck Radford in the left breast, killing him almost instantly. Stewart then emptied his gun at Harold, who fell mortally wounded. He died shortly afterwards.

Clever Capture at Chicago.

Chicago, Oct. 18.—Chief Detective Collier and his assistants captured four of the most successful and daring burglars of the United States and Canada, and \$25,000 worth of stolen property, which awaits identification at the central station. The prisoners are: "Sheeney Joe" Rubenstein, the leader, and brains of the gang; James Williams, Harry Rogers and James Flaherty. Letters in the men's possession showed that they had been taking a flying trip from coast to coast, robbing right and left. The police of the entire country have been searching for the men for the past six months.

A New Russian Fort.

Vladivostok, Oct. 18.—The foundation stone of what is intended to be a great commercial port of Russia in this part of the world was laid today with considerable ceremony.

Salisbury Agrees to It.

London, Oct. 18.—The British foreign office today intimated to Ambassador Hay that the meeting of seal experts of Great Britain, Canada and the United States will occur as agreed upon by the Marquis of Salisbury. It is learned that Professor Dorsey Thompson, the seal expert of the British foreign office, starts for the United States immediately.

Enameled war can be well cleaned by using powdered pumice stone.

New York, Oct. 18.—A Herald dispatch from Valparaiso says the senate, immediately after meeting, began the consideration of the budget. When the work is finished the senate will take up a bill which has been introduced providing for a retaliatory tariff against the United States. The bill provides for increased duties on imports, and a great number of articles will be affected if the bill becomes a law.

The frauds said to have been discovered by the government in building the drydock at Talcahuano will amount to 1,000,000 pesos.

THE DOME CAME DOWN.

Serious Accident in a Cincinnati Opera House—Three Were Killed.

Cincinnati, Oct. 18.—Three persons were killed and over 30 others were more or less seriously injured by the falling of the dome of Robinson's opera-house this evening.

About 8:45 o'clock, soon after the raising of the curtain at the performance of "Dangers of a Great City," plastering began to fall from the dome ceiling, 40 or 50 feet above the people in the parquette. The house was well filled, but not crowded. The plastering fell in small particles at first, but enough to alarm some of the timid, who retired.

A little later the plastering began to shower down in great chunks. There was a rush from the gallery, which was not very well filled. The balcony was soon emptied. Those in the dress circle retired as promptly as possible, and, strange to say, without apparent panic. The crowding of those to the door obstructed the passage of the people from the parquette, which accounts in a measure for the number of casualties. Nobody expected at the moment any other danger than from the falling plastering.

Suddenly, and with a great crash, the great central truss of the ceiling, 80 feet long and 30 feet wide, came plunging down. The ends of it struck on the two gallery wings and doubled it up in the center, sending down into the parquette a great scattering of joists and timbers. Nothing on the stage was harmed. There were moans from the injured, which, as often happens, were loudest from those least hurt.

The news spread rapidly, and there was a rush of patrol wagons and firemen to the scene. The salvage corps, with its wagon, was first on the ground, and it was followed by the police patrol wagons, which carried the injured to the Cincinnati hospital.

The list thus far showed three dead, five dangerously if not fatally wounded, and 26 more or less seriously injured. In addition to these, a large number, probably 25 or 30, were so slightly injured as to be able to walk home.

Of the seriously injured at the hospital, several will suffer amputation of limbs, yet every one is refusing to submit to the operation. A score of surgeons volunteered their assistance to the hospitals corps. A sufficient number was accepted.

High-Water Mark in the Fever-Stricken City.

New Orleans, Oct. 18.—Fever cases ran up rapidly today. By 10 o'clock there had been 17 cases reported, and by 6 o'clock 44, so that early in the evening the prospects were excellent that this day would show the high-water mark. There were three deaths.

An excellent feature of the situation, however, is that recoveries and discharges of patients are numerous. This is the 40th day of the fever, and the total number of recoveries exceeded the total number of cases now under treatment, showing the success which local physicians are meeting with in treating cases.

The weather is a trifle cooler this evening, but is still warm enough to rapidly develop cases.

Douglas Bolte, a negro leader, was lynched at a small settlement on Bayou Barter, about 15 miles from this city. His offense was running the quarantine gauntlet.

The Knights of Honor have organized a committee and notified the grand officers that they are prepared to look after any member of the order that may be sojourning in this city pending the prevailing fever, so that fraternal care and attention may be accorded such members as may become afflicted.

Down an Embankment.

St. Louis, Oct. 18.—A special to the Republic from Selma, Ala., says: A horrible accident occurred on the Mobile & Birmingham road, near Millhouse, 20 miles south of this city, at 2:30 this afternoon, the engineer and fireman being killed, and several persons wounded. The dead are: Ollie Mann, engineer, and Jerry Cold, fireman. The injured are: J. E. Broadstreet, conductor, and Quarantine Officer Newman.

While approaching Millhouse, the train was running 20 miles an hour. Without a moment's warning, and from some inexplicable cause, the truck of the tender jumped the track, causing the whole train to go down a 12-foot embankment. The engineer lived until evening, dying in terrible agony.

Horseless Brewery Wagons.

St. Louis, Oct. 18.—Anton Steuwer, president of a local brewing company, says that in a few days the big brewery wagons will be propelled by gasolene engines instead of horses. Herbert Mulherren, a young man of this city, is the inventor of the engine, which weighs only 300 pounds and which will run 10 hours on five gallons of gasolene, which can be bought for five cents per gallon. No engineer is required, and it is self-oiling. The gearing can be reversed and the wagon suddenly stopped or instantly backed without stopping the engine. The 300-pound machine will furnish 4 1/2 horse-power. It will be a great saving to concerns using a number of horses.

New Electric Locomotive.

A new electric locomotive, the Fusen (Rocket), has been turned out by the Call Works for the Paris-Havre line, says the New York Sun. It can draw 600 tons at the rate of 36 miles an hour, 250 tons at 66 miles an hour, and without any load can make 75 miles an hour. The locomotive weighs 126 tons and its tender 50 tons. It is practically a stationary steam engine of 1,400 horse-power, setting in motion the electric-magnets that drive the dynamo.

Courageous Students.

Seven Yale students passed their summer vacation by serving as conductors on a New Haven trolley-car line. The superintendent says they were the best conductors he ever had, and they were not members of the football eleven at that.

What Does This Mean?

Things are arranged nowadays so that a newspaper can have any kind of an expression of opinion—good, bad or indifferent—confirmed on application.—Petalsua Courier.

PACIFIC COAST TRADE.

Portland Markets.

Wheat—Walla Walla, 79@80c; Valley and Blinestem, 82@83c per bushel. Flour—Best grades, \$4.50; graham, \$3.70; superfine, \$2.50 per barrel.

Oats—Choice white, 33@34c; choice gray, 31@32c per bushel. Barley—Feed barley, \$19@20c; brewing, \$20 per ton.

Millstuffs—Bran, \$14 per ton; middlings, \$21; shorts, \$15.50. Hay—Timothy, \$12@12.50; clover, \$10@11; California wheat, \$10 do oat, \$11; Oregon wild hay, \$9@10 per ton.

Eggs—20c per dozen. Butter—Fancy creamery, 45@50c; fair to good, 35@40c; dairy, 25@30c per roll.

Cheese—Oregon, 11@12c; Young America, 12@13c; California, 9@10c per pound.

Poultry—Chickens, mixed, \$2.00@2.50 per dozen; broilers, \$1.50@2; geese, \$4@5; ducks, \$3@4 per dozen; turkeys, live, 8@9c per pound.

Potatoes—Oregon Burbanks, 35@40c per sack; sweets, \$1.40 per cental. Onions—Oregon, new, red, 90c; yellow, 80c per cental.

Hops—8@10c per pound for new crop; 1896 crop, 6@7c. Wool—Valley, 14@16c per pound; Eastern Oregon, 7@12c; mohair, 20c per pound.

Mutton—Gross, best sheep, wethers and ewes, \$2.50@3.00; dressed mutton, 5c; spring lambs, 5 1/2c per pound.

Hogs—Gross, choice heavy, \$4.50; light and feeders, \$3@4; dressed, \$5.50@6 per 100 pounds.

Beef—Gross, top steers, \$2.75@3; cows \$2.50; dressed beef, 4@5 1/4c per pound.

Veal—Large, 4 1/2@5c; small, 5 1/2@6c per pound.

Seattle Markets.

Butter—Fancy native creamery, brick, 23@25c; ranch, 10@15c. Cheese—Native Washington, 10@12c; California, 9@1c.

Eggs—Fresh ranch, 20c. Poultry—Chickens, live, per pound, hens, 10c; spring chickens, \$2.50@3; ducks, \$3.50@4.

Wheat—Feed wheat, \$27 per ton. Oats—Choice, per ton, \$21@22. Corn—Whole, \$22; cracked, per ton, \$22; feed meal, \$22@23 per ton.

Barley—Rolled or ground, per ton, \$22; whole, \$22. Fresh Meats—Choice dressed beef, steers, 6c; cows, 5 1/2c; mutton sheep, 6c; pork, 6 1/2c; veal, small, 6c.

Fresh Fish—Halibut, 4c; salmon, 4@5c; salmon trout, 8c; flounders and sole, 3 1/2@4c; ling cod, 4@5c; rock cod, 5c; smelt, 2 1/2@4c.

San Francisco Markets.

Wool—Choice foothill, 8@12c; San Joaquin, 6 months' 5@7c; do year's staple, 7@8c; mountain, 10@12c; Oregon, 12@14c per pound.

Hops—11@14c per pound. Millstuffs—Middlings, \$20@22; California bran, \$15@15.50 per cental.

Onions—New red, 70@80c; do new silverskin, 90c@1.10 per cental. Butter—Fancy creamery, 27@28c; do seconds, 25@26c; fancy dairy, 23@24c; good to choice, 20@22c per pound.

Eggs—Store, 16@17c; ranch, 14@15c; Eastern, 15@16c; duck, 20c per dozen. Cheese—Fancy mild, new, 9 1/2c; fair to good, 7@8c per pound.

Potatoes—New, in boxes, 30@40c. Citrus Fruit—Oranges, Valencia, \$1.50@1.80; Mexican limes, \$2.30@3.50; California lemons, fancy, \$2.50; do common, \$1@2 per box.

Hay—Wheat, \$12@15; wheat and oat, \$11@14; oat, \$10@12; river barley, \$7@8; best barley, \$10@12; alfalfa, \$8@9.50 clover, \$8@10.

Fresh Fruit—Apples, 60@75c per large box; apricots, 20@40c; Fontainebleau grapes, 20@30c; muscats, 20@35c; black, 30c; tokay, 25@30c; peaches, 25@50c; pears, \$1@1.40 per box; plums, 35@40c; crab apples, 20@35c.

Unique Honor to a Woman.

The only woman who ever received the freedom of a Scotch city is Miss Jessie McKie, of Dumfries, who received this honor in company with Mr. Balfour, first lord of the treasury, from the mayor of her town. This signal distinction has been bestowed on her as a mark of the respect and gratitude of her fellow citizens for her efforts to improve and beautify the town of Dumfries. As there are only two other lady burghesses in the United Kingdom, the inhabitants of Dumfries could hardly have chosen a more flattering method of conveying their appreciation of Miss McKie's generosity.

Miss Lettice Ilibert, who has this year obtained a first-class in the Oxford final-honors school of modern history, is a daughter of Sir Courtenay Ilibert, K. C. S. I. The early years of Miss Ilibert's life were spent in India, but on the return of Sir Courtenay Ilibert to England to take up the post of assistant parliamentary counsel Miss Ilibert became a pupil at the Baker-street High school. In 1893 Miss Ilibert passed the higher examination of the Oxford and Cambridge joint board, and in the following year she went up to Somerville College, Oxford, where she obtained the Margaret Evans prize. Not satisfied with her brilliant career at Oxford, Miss Ilibert has decided not to rest on her laurels, and has just been elected to studentship at the London School of Economics.

Berkeley, Cal., Oct. 18.—Gold from silver is not an impossibility, according to Edmund O'Neill, associate professor of chemistry at the university of California. In a lecture delivered to the chemists of the University Science Association, on the transmutation of metals, he described the possibility of making gold from silver, and declared there was an excellent basis to support the claim for the union of metals, and that the ultimate solution of the problem was an achievement science expects.

Sanstrokes in Chicago.

GONE GLIMMERING.

One ripe summer, fresh and fair, has gone glimmering. What with rain and breeze and fair sun, the harvest has left us grain enough to feed the world, and hard times are broken by a kindly hand. But autumn changes come, and we cannot be too self-content not to guard against what autumn brings. It is the changed temperature of midday warmth and night and morning chill, from the dampness of dews or vapors cast adrift on eastern winds, very many old true physical troubles of pains and aches, rheumatism, neuralgia, soreness and stiffness. This is a crop not spoken of in a farmer's almanac, but it must be cared for, else it will lay waste and grow misery. St. Jacobs Oil is a reaper and binder; it reaps the field of pain and binds up and cures. There is no holier pain it won't relieve, and to the whole group of rheumatic pains, it is a certain and specific cure. Let not the bounties that have been reaped be marred by misery and pain. St. Jacobs Oil is the helper to enjoy the better times.

The trap rocks of New Jersey and the dolerites of Staten Island are the strongest stones in the United States, their crushing resistance being twenty-four pounds to the cubic inch.

Among the portraits recently acquired by the trustees of the National Portrait Gallery, in London, is that of Sir Francis Ronalds, (1788-1873), the inventor of the first working electric telegraph.

The largest fruit farm in the world is said to be in Olden, Mo. It consists of 2,500 acres, on which are more than 100,000 peach trees, 60,000 apple trees, 2,000 pear trees, and 40 acres of blackberries.

Chickens are much better if killed and dressed the day before using. Keep in ice in a cool place.

Stop! Women,

And consider that in addressing Mrs. Pinkham you are confiding your private ills to a woman—a woman whose experience in treating woman's diseases is greater than that of any living physician, male or female.

You can talk freely to a woman when it is revolting to relate your private troubles to a man; besides, a man does not understand, simply because he is a man.

MRS. PINKHAM'S STANDING INVITATION.

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. All letters are received, opened, read, and answered by women only. A woman can freely talk of her private illness to a woman. This has been established the eternal confidence between Mrs. Pinkham and the women of America which has never been broken. Out of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good will, and her advice has relieved thousands. Surely any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.

Chickens are much better if killed and dressed the day before using. Keep in ice in a cool place.

Chickens are much better if killed and dressed the day before using. Keep in ice in a cool place.

Chickens are much better if killed and dressed the day before using. Keep in ice in a cool place.
