Opposed to Gold Mono-metallism. Believes in the Bimetallic Standard. Thinks we Ought to Take Care of our own People Before Annexing Hawaii. Has no use for Marcus A. Hanna.

EASTERN ELECTION

The eastern elections are absorbing the public mind and the results will have much bearing on the relative merits of the administration. It is to the favor of the republicans that wheat bears a better price than the average of the last few years, although the price is due to no act of Mr. McKinley or his policy. Cotton has fallen and was lower last week than it has been for forty-five years. Short wheat and long cotton explain the commercial status of each of these commodities, and long wheat will bring that staple down. The north and west practically raise all the wheat, while in only one state which is close to there any cotton raised—and that one is Kentucky. Kentucky bears promise to give a democratic victory. The silver forces are harmonious and are putting up a splendid fight. They have but a very small vote to overcome—and they bid fair to more than do this. Ohio is very uncertain. The administration is helping Mr. Hanna with all its power to hold the state under republican control, but that silver will make large gains, even if it shall not win, is conceded—and there are many who are confident of gold standard defeat. Iowa bimetalists are putting up an excellent campaign, but the result is in doubt. So far as greater New York is concerned, the municipal sweepstakes may be won by Tammany, George or Low. Tracy will not be in it. Outside of politics Low and George are clean men. Inside of politics they are clean men. As for Tracy, he is Platt's tool, and irresponsible, while Van Wyck, who seems to be gaining great strength, is the last man who should hold New York's mayoralty.

THE CUBAN QUESTION

Let us remove the Cuban question from political questions. Ever since the inception of the rebellion we have heard nothing but uncombed on Cuban liberty. During the Cleveland administration all the little squint republican papers in the country reviled it for not interfering. The republican machine is following in the same old footsteps, and nothing is being done. It is a question of bonds and business interests, and those whose hearts beat for suffering fellows, might as well recognize this sooner than later. We are in the power of an administration, for and to wealth and to kick against it successfully the kicking must be done at the polls. When the money trust and its brood are deposed then can we have a government with humanitarian instinct and not until then. That little Cuban sympathy plank in the St. Louis platform was but a syndicate article to catch the unwary—a twin to the international monetary plank.

WASHE GOVERNOR

Lord is said not to be in training for renomination to the governorship. He has not particularly solidified his party and his appointment of Banker Corbett to the senatorial vacancy has not particularly endeared him to the Mitchell wing. It is said, furthermore, that the governor gets on a "jag" every once in a while. This, however, should be in his favor. Probably he was drunk when he appointed Mr. Corbett.

SENATOR CORBETT

Banker Corbett has written a letter, and the epistolary effusion shows that he is in touch with those who backed the McKinley campaign from St. Louis to the capitol building. Mr. Corbett wants bank money issued in place of silver certificates, treasury notes and silver. He says: "The banks would furnish the currency which the country needs, provided they were relieved of the present tax of 10 per cent and were allowed to issue currency to the par value of their bonds."

Of course the banks would issue the currency of the country if they could be free from taxation; and could get interest on their bonds from the government and then interest on the face value of self issued currency to the amount of said bonds.

But why does Mr. Corbett want to issue money? Hasn't he and his press often said we have had too much money? Mr. Corbett evidently voices the element which desires bank control of national currency. The gentlemen mistake the public pulse.

AFRAID OF MITCHELL

The ARGUS agrees with the Salem Journal Mitchell that no one would believe Mr. Mitchell should that gentleman come out for bimetalism independent, but the Journal must concede that the ex-senator was an able exponent of that cause, and that he held many votes for McKinley in this state which otherwise would have gone for Bryan. Mr. Mitchell's campaign poe was dishonest; was stultifying to himself; was a sacrifice of principle—and yet the ARGUS statement "that should he come out for independent bimetalism, more than half of our voters would say that he is right," stands. As to believing his sincerity, that is quite another question. But the Journal need lose no rest on this score—Mr. Mitchell will

not "come out," and he is an "ex" in more ways than one.

WHO GET THE GOLD

Money, a financial publication of the gold standard cult, is our authority for the statement that the 1276 millions of gold production since 1889, have been utilized as follows: The arts 480 millions; monetary uses, 796 millions. Out of this 796 millions, the four great banks of Europe absorbed 625 millions, and Asia more than one-half of the remainder. This would leave Africa and the two American continents a little over 80 millions of gold for their currency additions.

It would appear that the continuation of the agitation for gold monometallism is an extremist policy and one that must soon be exploded. This tells the story in a nutshell, and when it is remembered that the 625 millions which European banks absorbed, were put into a cash reserve to redeem uncovered notes, one may easily determine what, with cessation of silver coinage has been the cause of our hard times.

THE CUBAN QUESTION

Let us remove the Cuban question from political questions. Ever since the inception of the rebellion we have heard nothing but uncombed on Cuban liberty. During the Cleveland administration all the little squint republican papers in the country reviled it for not interfering. The republican machine is following in the same old footsteps, and nothing is being done. It is a question of bonds and business interests, and those whose hearts beat for suffering fellows, might as well recognize this sooner than later. We are in the power of an administration, for and to wealth and to kick against it successfully the kicking must be done at the polls. When the money trust and its brood are deposed then can we have a government with humanitarian instinct and not until then. That little Cuban sympathy plank in the St. Louis platform was but a syndicate article to catch the unwary—a twin to the international monetary plank.

WASHE GOVERNOR

Lord is said not to be in training for renomination to the governorship. He has not particularly solidified his party and his appointment of Banker Corbett to the senatorial vacancy has not particularly endeared him to the Mitchell wing. It is said, furthermore, that the governor gets on a "jag" every once in a while. This, however, should be in his favor. Probably he was drunk when he appointed Mr. Corbett.

WHAT A DIFFERENCE NOW!

Last fall the New York republicans were very lovable to the Cleveland democracy. Its different now. It is in this manner that Mr. Platt speaks of the gold supporters in a signed statement:

"Low is the candidate of the four democratic organizations, the Ship democracy, the Garco democracy, the Purroy democracy and the Stecker democracy. More and more as the canvass has proceeded he has become identified before the public with the democratic party. He is the embodiment of the 'holier than thou' of the Cleveland party. He is a revival of all that noisy and insolent crowd which grovels at the feet of Cleveland. He has been brought forward as the expression of their notions and their hopes, and that makes his success impossible in that idea so clearly present in the minds of the community that the Cleveland clique are endeavoring to regain their lost prestige for use in 1900."

Under the circumstances, it would appear that the republicans think the Cleveland people were consummate chumps. This certainly is the height of gratitude.

EDITORIAL RAMBLINGS.

"It is a long time between"—appointments.

That negro ticket in Ohio is the darkest of an omen to Mr. Hanna.

Much to Mr. Platt's chagrin, Mr. Low will not be considered a "pacifist."

Mr. Hill is not in doubt about being a democrat—but he is having some doubt about his variety.

Instead of campaigning in Greater New York why is not Mr. Thurston doing battle out in Nebraska?

Why hasn't the Dingley bill raised the price of cotton as well as wheat? Please don't answer this all at once.

Why can't the Journal-Examiner send a correspondent out west to rescue Mark Hanna from Ohio's Havana.

The statement that Mr. Hanna has also called on Klondike to help him out, has not yet been publicly denied.

Mr. Hanna evidently fails to appreciate Mr. Low's New York patriotism. It

is costing too much money, and besides, Mr. Hanna is having a few troubles of his own, out in Ohio.

If Mr. Low can only succeed getting High, Jack and the Game, he will stand a good chance at bucking the tiger.

The Oregonian hasn't much use for Mr. Hanna. Who has much use for a straddler, anyway—a straddler only at election time?

The papers of Oregon having now given their opinion of an extra session, let us now wait and see what Mr. Low thinks about it.

If Kentucky goes silver democratic it should tender a vote of thanks to Herri Watterson. His spleen will have saved the state.

General Coxe would have no objections could he make as triumphant a march to Ohio's capital as that which he made to Washington several years ago.

Many of the New York papers are alarmed lest the candidacy of entry George shall be the beginning of the infusion of Jefferson ideas. This will be too bad, eh?

Mr. Hanna has wisely decided to move Mr. McKinley and other office holders at Washington to Ohio on election day, since he cannot move the state back to Washington.

The administration has a right to interfere in New York politics. The wealth of that city did much towards electing Mr. McKinley and he should show no ingratitude.

Mr. Cleveland wants to go to the U. S. Senate from New Jersey. The president who was, will should he go, hear some very unpleasant rippings of his policies—both tariff and monetary.

That little order issued by General Alger, making a military reserve at the mouth of the Yukon, is cited for the benefit of the Oregonian as a model exhibition of "government by injunction."

Mr. Watterson, of the Courier Journal makes up an insignificant campaign of insipid vulgarity against the Jeffersonian democracy in Kentucky. He has no argument—therefore submits balderdash.

Mr. Corbett wants to obliterate the "endless chain" of U. S. paper currency by giving us an endless chain of U. S. Bonds. This is like pulling out the bung of a full barrel of cider with which to stop a vent leakage.

Should Van Wyck be elected there will be but one consolation—he will be the democratic nominee. Should Low be elected Mayor of Greater New York he would turn the election machinery over to the republicans and create a machine worse than Tammany ever dared to be. Let George be elected, by all means.

Dead Letter List.

The following is the list of letters remaining in the Hillsboro post office unclaimed. Mr. A. Benz. Mrs. Sophia Donner. Mr. Charley Meacham. Anson Powell. All letters not called for by Nov. 6th, 1897, will be sent to the dead letter office. One cent will be charged on each letter called for. H. SCHULMERICH, P. M.

Bank Clearings.

Hillsboro bank clearings for the week ending last night were not so large as the week preceding, due, perhaps, to lesser selling in wheat. Very few checks for hops sales were presented. A cent or two of a raise in the wheat market would run up the clearings to a high figure. The figures were, for the week \$31339.95.
