sad picture. It is usually this way:-She has been feeling "out of sorts for some time; head has ached, and slept poorly, been quite nervous, and nearly fainted once or twice; head

dizzy, and heart has beat very fast; then that bearing-down feeling. Her doctor says, "cheer up, you have dyspepsia; you'll be all right soon."

But she doesn't get "all right." She grows worse day by day, till all at once she realizes that a distressing female complaint is established.

Her doctor has made a mistake. She has lost faith in him; hope van-Ishes; then comes the brooding, morbid, melancholy, everlasting BLUES.

Lydia E. Pinkham's Vegetable Com-pound instantly asserts its curative powers in all those peculiar ailments women, and the story recited above is the true experience of hundreds of women, whose letters of gratitude are to be found on file in Mrs. Pinkham's library. Try and see for yourself.

WASTE OF VITAL FORCE In men has drained the sweetness from millions of lives. It unfits men for business or pleasure and makes life loathsome to those who suffer from it. If you would be strong in mind and body; if you would throw off the fetters of wretchedness caused by early abuse and the mistakes of your life, let us explain to you how it can be done in Nature's own way—by properly applied Electricity.

it can be done in Nature's own way—by properly applied Electricity.

BR. SANDEN'S ELECTRIC BELT, with improved Electric Suspensory, cures Nervous Debility, Lame Back, Loss of Memory, Confusion of Ideas, Rheumatism and Kidney Troubles, Resistors vital power, stops all unnatural waste, etc. You feel the current, or we forfest \$5,000. REST AND RELIEF

A piece of machinery run by steam and verworked will become cranky, creaky and out of gear, owing to some expansion of metal from heat and friction. Stop its work, rub and brighten and let it rest. In a short while it will be restored and will run smoothly. The human system is a machine. Too much work and worry are thrown upon it; too much of the heat of daily cares; too much of the steam of daily business. The nerves become cranky; they are restless, sleepless and twitchy, and a neuralgic condition sets in. Pain throws the machine out of gear and it needs rest and treatment to strengthen and restore. St. Jacobs Gil is the one remedy of all peculiarly adapted to a prompt and sure cure. So many have so treely testined from experience and use to its efficacy in the cure of neuralgia that it passes without saying that it surely cures. It will be a gracious surprise to many after the free use of it to find how easily pain, cares and worry may be lifted, and how smoothly the human machine goes on.

Largest Leather Belt. work, rub and brighten and let it rest. In

Largest Leather Belt.

The largest leather belt in the world is said to be that in use by the Louisiana Electric Light Company of New Osleans, which was manufactured expressly for i, by a Chicago firm. Interest has recently been renewed in this great belt by a recent test to which it was put. Some time ago one of the engines of the plant was shut down for repairs and the belt carried for several days the load of the entire station, transmitting by actual test a load of 2,200 horse-power. The belt was designed to transmit 1,800 horsepower, but the extra load was borne without the slightest sign of failure. This belt is regarded as the largest one ever made. It weighs 3,300 pounds, and the hides of 550 steers were consumed in its manufacture. This was partly due to the fact that nothing but the centers of the hides were used. The belt has now been in use about a year; it has never required any alteration, runs true and straight, and so far has given not a moment's trouble. It is made without rivets or pegs, depending en-tirely upon cement to hold the sections together. It cost \$2,100.

A Famous Gravedigger. George Peacock, the gravedigger at Gillingham, near Chatham, England, has just died, aged 75. He had held the position for 37 years, and during that period had buried over 12,000 persons.

A VALUABLE FRANCHISE SECURED

The franchise of easy digestion—one of the most valuable in the gift of medical science—can be secured by any person wise enough to use Hostetter's Stomach Blitters, either to suppress growing dyspepsis, or to uproot it at maturity. Billious, rheumatic and fever and ague sufferers, persons troubled with nervousness and constipated, should also secure the health franchise by the same means.

In every mile of railway there are seven feet four inches not covered by the rails, the space left for expansion.

Paid Damages Voluntarily. There was a collision on the Danish

State railroad near Copenhagen some time ago in which forty persons were killed and seventy wounded. The railroad at once admitted that it was to blame, and instead of fighting claims for damages, has appointed a committee to settle with the claimants what will be fair compensation, so as to avoid having the claims brought into the

Kidney and Bladder Troubles Quickly Cured

You May Have a Sample Bottle of the Great Discovery, Dr Kilmer's Swamp-Root Sent Free by Mail.

People doctor their troubles and try different medicines so often without benefit that they get discouraged and skeptical. In most such cases serious mistakes are made in doctoring and not knowing what our trouble is or what makes us sick. The unmistakable evidences of kidney trouble are pain or dull ache in the back, too frequent desire to pass water, scanty supply, scalding irritation. As kidney disease advances the face looks sallow or pale, eyes puffy, the feet swell and sometimes the heart aches badly, Should further evidence be needed to find out the cause of sickness, then set urine aside office-holding tenures to four years for twenty-four hours; a sediment or settling is also convincing proof that our kidneys

The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney and bladder remedy, is soon realized. It stands the highest for its wonderful cures. Sold by druggists, price fifty cents and one dollar. So universally successful has Swamp-Root been in quickly curing even the the most distressing cases that if you wish to prove its wonderful merit you may have a sample bottle and a book of valuable in formation, both sent absoultely free by mail. Mention and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The fact that this liberal offer appears in this paper

Dorchester, Mass.

SERVICE LAW

Strong Effort Will Be Made to Secure Its Repeal.

OPPOSITION IN WEST AND SOUTH

Sufficient Number of Senators and Rep. resentatives Pledged to Insure Its Abolition.

Washington, Nov. 16 .- A strong effort will be made during the coming session of congress to secure the repeal of the civil-service law. The supporters of this movement say that they have had promises from a sufficient number of senators and representatives to co-operate with them to insure its success, provided that all those members who have heretofore favored the repeal are still of the same mind.

Thomas R. McKee, the journal clerk of the house of representatives, who has long been a bitter opponent of the existing law, and who has taken pains to ascertain the views of many of the members on the subject, said today that he was confident that if the opportunity offered for a direct vote on the question of repeal, it would be carried

by a large majority.
"While it is not true," said he, "that I have been engaged in making a canvass of the house on this matter, it is true that I have talked with a great many members about it. I am convinced that for such a preposition my own state of Indiana would give its entire 13 votes, and I believe that Ohio and Illinois are just as much opposed to the law. As for the Western states I do not believe that they will furnish a single vote for the retention of the system, and in the South, both Democrats and Republicans, with only a few isolated exceptions, would welcome its aboution. It is purely an Eastern institution, and it is entirely unrepublican and un-American.

"It was originated by the college professors and educators of the East, especially of New England, the center of our educational system, for the express purpose of providing easy and comfortable berths for such of their graduates as were not physically able to stand the strain of the professional life for which they were trained, or who found the professional ranks already well filled. The manufacture of college graduates went on so fast that it became necessary for the professors to find some outlet for the young men whom they were turning into the crowded fields of law, medicine and theology. So they turned to the government and, with Dorman B. Eaton at their head, himself a life-long educator, induced it to require of applicants for government positions a preliminary examination, which, in many cases, they knew only men fresh from the colleges

could pass successfully. "It is a fact that President McKinley is now having as much trouble in satisfactorily filling the 300 or so places he has to give away as Grant did to dispose of 200,000 places. There is almost as much eagerness and strife around the White House today over a little \$600 position as there used to be over the appointment of the minister to Germany. This shows that the desire for office is still as strong, and it is a natural desire. Representative Grosin his speech that the right of a man to participate in the affairs of the government in other ways than by merely casting his ballot was one that could not be constitutionally taken away from him. The heads of the government department should have the right to make the appointments of their subordinates, and they should be held responsible for their actions. The president would then have less of his time wasted on small matters of patronage, and after filling the larger and more important offices would then be able

to devote himself to affairs of state. "That there is a strong sentiment in the country at large in favor of the repeal of the law I am sure, and I am satisfied, also confident, that the sentiment will find expression in congress during the coming session. The only recent vote that has been had upon the subject which gives any foundation upon which to base a calculation as to the result, was had towards the close of the last session of the 54th congress. A proposition was made by Mr. Brosius, of Pennsylvania, to extend the operations of the civil service law in a certain particular. The question was as to the consideration of the bill, and it was defeated by a two-thirds majority. While this was not a direct vote it afforded an indication, if not of the strength of the repeal movement, at least of the weakness of the supporters

of the civil service system. "It is my opinion that if nothing else is done, the civil service commission will be abolished with all of its cumbrous machinery. In its stead a departmental examination to determine the fitness of applicants for appointment in the government service will be substituted. This would be very proper, so far as the Washington departments are concerned, but I would not require even this in offices outside of Washington, and I would limit all each. The civil service commission costs the people now \$150,000 a year." A number of others have spoken in a similar strain recently.

WEEKLY MARKET LETTER.

[Office of Downing, Hopkins & Co., Chicago Board of Trade Brokers, 711-714 Chamber of Com-nerce Building, Portland, Oregon.]

The action of the market has been great disappointment to the bulls, and there is a growing feeling that with favorable conditions in the winter wheat sections for the next two weeks, that wheat possiby may sag still lower. The news has been rather bearish in many respects, the enormous receipts (much of which is low grade), the heavy rains in the winter wheat sec tions in the past week, the improved conditions in the Argentine, and the smaller demand for flour has caused a liquidating movement to set in that has carried May wheat down to a lower price than it has seen for a long time. Claims are made that the ealier esti-

mates of Europe's import requirements of breadstuffs are now thought to have been somewhat too high. In addition, the demand has been, so far, easily met, causing together a shade of indif ference on the part of purchasers. In all estimates of the future, much is made of what may be expected of the crops of the Argentine and of the Australian colonies. Too many perhaps, forgot that while harvesting begins in about a month, the products of the harvest do not appear, to any great extent, before April or May. The large shipments from Russia and America yet stifle any undue efforts on the part of buyers in Western Europe to secure larger shipments at present, especially as the quantity on passage is about double the amount so found at the beginning of our crop season. It is not surprising, in view of these conditions that the markets have occasions of relapse But later, when the two prin cipal sources of supply begin to show actual exhaustion, as they may be expected to, at the rapid rate of shipping, an upward turn in affairs is likely to easue. It should be no disappointment to those who habitually understate the resources of exporters to find relapse in prices when the facts showing it are developed. Still there need be no great apprehension of the future for the supply is none too great for the natural wants of the world.

Again, if stakes or spades are driven deep into the soil and shaken violently, the operation frequently calls the angle worms from their retreats.

REPORT IS APPROVED

Miles' Estimates of Cost of Our Seacoast Defenses.

FEARS NO TROUBLE WITH SPAIN

Over Three Millions Needed-\$605,000 Recommended for the Columbia and \$1,140,000 for the Sound.

Washington, Nov. 15. - Secretary Alger has approved the estimates for the coast-defense work submitted by General Miles, and they will be submitted to Chairman Cannon, of the house committee on appropriations some days before the opening of the session. In accordance with law, the expenditures of the different seaports are itemized, but the secretary will ask for authority to spend the money in lump sums, so that work on any particular defense may be hurried to meet emergencies. General Miles divides fortification appropriation for the Pacific coast as follows:

San Diego, Cal., San Francisco....

In his report to the secretary, General Miles makes no reference to possible complications with Spain, but

Although the general desire of our people is to maintain a condition of peace with all nations, and the policy of the government is one of good will and peaceful relations with all others, yet nothing could be more injurious than to settle in a condition of insecurity and permit the lives of millions and the accumulated wealth of many generations to be destroyed or endangered by any foreign power with which we are liable to come in contact, and the general plan for defense which has been adopted by the government should be steadily pursued until the nation is in the condition of security and safety which a due regard for self-preservation would demand."

A VALUABLE CYCLOPEDIA.

Commercial Directory of American Republics Presented to the President.

Washington, Nov. 15. - Secretary Sherman, Minister Romero of Mexico, and Minister Meron of Argentine, members of the executive committee of the bureau of American republics, were at the White House today and presented the first volumn of the commercial directory of the American republics to President McKinley. There was considerable formality about the matter, the presentation being made in the blue parlor. Secretary Sherman presented Butter—Fancy creamery, 45@50c; the volume, saying the work was refair to good, 35@40c; dairy, 25@35c garded as of "such vast practical inthe volume, saying the work was reportance to the commerce of our country, as to be well worthy that we should come in a body to present it to you. Upon looking through its pages Poultry-Chickens, mixed, \$1.50@ you will discern its far-reaching value as a factor in disseminating general information respecting the natural resources, the peculiar commercial activities, the varying occupations, the in-dustries and the latent capbilities of the countries of the Western hemisphere.

President McKinley made a formal response, expressing his interest in the work of the publication would lead to a closer Wool—Valley, 14@16c per pound; the publication would lead to a closer commercial relation between the repubwork of the bureau and the hope that lics of America. With the volume was transmitted a letter to the president from Joseph P. Simth, director of the bureau, in which he stated the objects Hots—Gross, choice heavy, \$4.50; of the publication. It is a commercial ght and feeders, \$5.00@4.00; dressed, evelopedia of the Western hemisphere, intended to furnish information for the benefit of merchants and agriculturists. President McKinley has been congratulated from time to time during the progress of the work; and has shown great interest in it.

A WHITECAP OUTRAGE.

Two Ohio Girls Beaten and sarred and Feathered.

Holgate, O., Nov. 15 .- Word reached this city this evening from Oakwood, a hamlet 25 miles south, of an outrage perpetrated last night by whitecaps upon two girls, Edith and May Rob-erts, 19 and 17 years of age, respect-ively. Ten days ago the young ladies received a whitecap notice warning them to leave the town and county, but they paid no attention to the notice. Last night, they were awakened by a band of eight or ten men entering their rooms and dragging them from their beds in their night-robes to the near-by road, where they were terribly whipped with a cat-o'-nine-tails, which was found this morning. After beating them, they gave the girls a coat of tar and feathers and took them back to the house, where they were found un-

conscious this morning.

May, the younger of the girls, is in a critical condition, the flesh being cut to the bone by the whip. There is no clew to the perpetrators.

Ladue Robbed of Klondike Gold. Chicago, Nov. 15 .- Joseph Ladue, who struck it rich in the Klondike, was robbed of \$700 worth of nuggets in the depot of the Lake Shore railroad today. The thief managed to secure the gold while Ladue was walking from his

train to the depot door. Held Up by a Lone Highwayman. Lewiston, Idaho, Nov. 15 .- Word has been received here that the Warren mail and express carrier was held up a few miles from Warren by a lone highwayman. He turned over the express bex, which contained a considerable amount of gold dust, although the ex-

act amount is not known.

Boston, Nov. 15 .- By the collapse of a three-story brick building today four men were injured, one of whom, it is said, will probably die.

Passenger Train Burned. Louisville, Ky., Nov. 15.—A passen-ger train on the Louisville, Henderson & St. Louis road, which left St. Louis It will be interesting to those who last evening, and was due in this city enjoy plain fishing with angle worms at 7 o'clock this morning, was derailed morning, nine miles from Louisville. loss will be heavy.

Chicago, Nov. 15 .- Fire today destroyed the department store of W. A. Wieboldt & Co. The loss is about

 $\$2000^{00}$

Brown ticket in every package of Schilling's Best baking powder.

Yellow ticket in every package of Schilling's Best tea.

Schilling's Best baking powder and tea are because they are money-back.

What is the missing word?-not SAFE, although Schilling's Best baking powder and tea are safe. Get Schilling's Best baking powder or tea at your grocers'; take out the ticket (brown ticket in every package of baking powder; yellow ticket in the

tea); send a ticket with each word to address below before December 31st. Until October 15th two words allowed for every ticket; after that only one word for every ticket. If only one person finds the word, that person gets \$2000.00; if several find
