WHAT 1897 HAS SEEN.

RECORD OF THE IMPORTANT EVENTS OF THE YEAR.

Græco-Turkish War and the Cuban Insurrection—The Great Strike in the Coal Fields—Political Changes of Twelve Months.

A Chronological Table.

The year 1897 has been, it might be said almost a commonplace one, since its commencement, that is, no events of overwhelming moment have taken place, but there has been no dearth of important occurrences. The war between Turkey and Greece, the struggle for freedom in Cuba, the costly and long-drawn-out strike in the Ohio and Pennsylvania coal fields, the change of national administration, the enactment of the Dingley tariff law, the disastrous spring floods in the Mississippi valley and autumn fires in the West and Northwest, and the epidemic of yellow fever in the Southern States are clearly not matters of small importance in the history of the world. The year has been an unusual one from the fact that but few men of really great reputation have passed from the stage of their earthly labors; their number can be computed upon the fingers of the two hands.

The most important events of the year are recorded below in the order of their occurrence:

JANUARY.

1—Thirteen miners perish at Pachuca, Mexico....Extremely high temperature and heavy rains in Northwest....Pingree inaugurated Governor of Michigan.

The Government of the United States owns in the city of Washington 1,600,000 volumes of literature. Of these about one-half, or 787,715, are in the congressional library. The remainder are scattered through the various executive departments. The daily number of readers in the congressional library averages 3,320. About 700 persons, including the members of both houses and high officials of the Government, are entitled to draw books and take them away from the building, and the average number loaned out in such a way is 1,446. It is a favorable commentary upon the honesty and care of our public men that during a period of thirty years the number of books lost or not returned was only five in a thousand.

Large numbers of petitions, supported by many signatures and uniform in their phraseology, are being presented to the House of Representatives. They ask the passage of a series of laws to protect the morals of the public. For example, to prohibit gambling in stocks, produce, racing pools and other forms of speculation by telegraph, to prohibit the transmission of stock quotations for speculative purposes, and the transmission in the mails of newspapers containing pictures or descriptions of prize fights, to prohibit the exhibition of kinetoscope reproductions of prize fights and other brutalizing spectacles, and to prohibit the transportation from State to State of materials for such exhibitions.

The ladies of the cabinet are decidedly put out by the edict that forbade their New Year's receptions and the dinners that were to precede and follow. They do not see any occasion for it. The President did not ask or even suggest a suspension of social affairs. He told the members of his cabinet he should close the White House for thirty days, although he did not think it was necessary for them to follow his example, but without consulting their wives, they agreed to do so. The husbands have since had an unhappy time, and the Washington social world has offered them no sympathy.

The opposition to the ratification of the Hawaiian treaty has simmered down almost entirely to the sugar trust, the Louisiana planters and the beet-root sugar manufacturers. There are a few Senators who oppose the treaty on principle, as they believe it inexpedient for the United States to assume the responsibility of governing any detached territory, and several on the Democratic side have joined the opposition because they regard annexation as a Republican measure.

Chairman Loud of the House Committee on Postoffices has been working during the recess on the report of the committee on the Loud bill, and has practically completed it. He believes that the measure will effect a saving of at least $10,000,000 annually, and will wipe out the enormous deficit that confronts the Potsoffice Department every year. Mr. Loud believes the bill is much stronger this session than last, and, while not absolutely confident, thinks it will finally carry.

The agents of the Cuban junta in Washington justify the assassination of Col. Ruiz as necessary to intimidate the cowardly and corrupt men in their ranks who are likely to be allured into making terms with the Spanish authorities either through fear or bribery. They say that hereafter no Spanish agent will dare approach an insurgent camp, and that it will be dangerous for any stranger to do so.

The distressing death of Miss Leila Herbert has caused a shock to her many friends and acquaintances in Washington. She was a young woman of beautiful character, gentle, amiable and generous, and was generally beloved and admired. Those who knew her best believe that her suicide was due to fear that she might be a permanent cripple.

The pension certificate of the Rev. L. J. Keith of Vincennes, Ind., will be canceled, because the holder has informed the bureau that he does not consider himself longer entitled to a pension, his disability having disappeared, and has asked that his name be dropped from the rolls. There is only one other such case on record.

Secretary Wilson is greatly interested in legislation for the establishment of postal savings banks because he believes they are necessary to the prosperity of the farmers. It is sometimes an all day's job, he says, for a farmer to go to the town where the nearest bank is situated, while there is a postoffice in every village.

The copyright department is a most important branch of the Government, and indicates an enormous increase in literary and musical compositions and in designs which are susceptible to copyright. In 1870 the number of copyrights granted was 5,621; in 1880, 20,686; in 1890, 42,758; in 1896, 72,470.

WEEKLY MARKET LETTER.

[Office of Downing, Hopkins & Co., Chicago Board of Trade Brokers, 711-714 Chamber of Commerce Building, Portland, Oregon.]

What will Leiter do with his wheat, is the question that is evidently bothering traders more than it is him. He has about 8,000,000 bushels cash wheat. He is also long about 4,000,000 bushels May. He has wheat enough to make him the power in the market, and it depends upon how he handles it as to the extent of his profit or loss. If trade falls off he will be forced to keep the market alive, as he did during October and November, by trading on both sides. If outside speculation increases he will certainly have the best of it. There is a large shortage in May, which gives him a chance to scalp the market on a liberal scale to his profit. There is talk of trade getting into July, and leaving May alone. This might help the short sellers by prolonging the time of delivery, but figuring on the probable stocks, the chances for large supplies by the last of July are decidedly poor for a bear. Were the trade to switch to September and leave the intervening months alone, Leiter would be left with his cash and May in a position where it would not be easy to swing a large line at a profit, and the wheat might have to be shipped out to find a market for it. All these questions are being discussed by the traders and nearly every one has a different theory.

Those who stand between the speculator and consumer, the cash handlers and the millers, are almost to a man bullish on wheat, and are talking higher prices, some predicting $1.25 for May. Armour and Weare expect that Leiter will win out in good shape. They figure on the milling demand reaching such proportion that, combined with the export business, it will absorb the stocks so readily in the season that the cash holders can dictate prices. The question of supply and demand becomes a factor. This, however, has not always in the past been a benefit to the bulls. Last winter and spring the cash demand was heavy, stocks were light, but the visible was 2,000,0000 bushels more than at present. Millers bought the wheat readily and decreased prices steadily, but in the face of the reduction prices did not respond, owing to the lack of speculation. A supply and demand market is generally a slow affair, and it may not be an exception this year.

FRUITGROWERS' CONVENTION.

Annual Meeting to Be Held in Portland January 11, 12 and 13, 1898.

The arrangements for the meeting of the Northwestern Fruitgrowers' Association, for the state of Oregon, Idaho, Washington and British Columbia, which will be held in Portland, January 11, 12 and 13, 1898, are well under way.

The committees upon whom the success of this meeting depends are:

Executive committee—Buell Lamberson, chairman; Henry E. Dosch, secretary-treasurer; H. M. Williamson, L. M. Spiegel, Alfred Tucker and Frank Lee.

Transportation—A. H. Devers, H. R. Lewis and T. D. Honeyman.

Finance—L. M. Spiegel, Edward Hughes, David M. Dunne, J. H. Hazeltine and Mark Levy.

Exhibit—F. H. Page, John A. Bell, W. F. Carroll, Mark Levy, M. L. Harvey, and one from each county and fruit district within the territory covered by the association.

Arrangements—C. V. Coper, H. M. Williamson, Frank Lee, E. C. Masten and Alfred Tucker.

Chairman Buell Lamberson and Secretary Henry E. Dosch of the executive committee, will act as ex-officio members of the sub-committees.

The meetings heretofore held by this association at Walla Walla and North Yakima were very successful, being not alone profitable to those attending the meetings, but beneficial to the entire fruit interests. Representative men from far and near were present to discuss the various phases of the growing industry.

The foregoing committees are fully alive to the situation and are now actively at work to make it surpass any of the prior meetings held. Already many letters have been received by the chairman and secretary from various cities within the limits of the association, as well as from other states, from St. Paul, Omaha and Chicago, asking about reduced transportation rates.

The transportation companies with the usual courtesy extended to this association, have made the rate on the Northern Pacific, Great Northern, and Union Pacific lines, one and one-fifth fare; and on the Southern Pacific line one and one-third fare for the round trip. The apparent difference of rates is caused by the Southern Pacific's lower tariff rate, it being only four cents per mile as against a five-cent per mile rate of the other companies. They have also expressed a willingness to transport all legitimate exhibits of fruits, both fresh and evaporated, trees, etc., free of charge. Such exhibits should be carefully labeled, packed and shipped to Buell Lamberson, 180 Front street, Portland, on or before January 5.

The programme, which is now being arranged and will be published later, will cover all the questions pertaining to the fruit interests, notably the shipping of fresh fruits to Eastern markets at a profit to the grower. This will be thoroughly discussed, especially the charges by refrigerator car companies, which must be adjusted on a live-and-let-live basis.

Gray's Harbor Lumber Shipments.

That the Gray's harbor country has enjoyed a fair degree of prosperity during the year 1897 is shown by the foreign lumber shipments as compared with those of 1896, the increase being nearly 300 per cent. In 1896, only 11 vessels with lumber sailed from that harbor for foreign ports, the aggregate amount of lumber being 3,400,000 feet, while during the present year 22 vessels cleared from Gray's harbor, carrying 10,649,000 feet of lumber, valued at $110,000.

Of the 22 vessels clearing for foreign ports from Gray's harbor during the present year, 16 of them loaded at the mills in Aberdeen—14 at the West & Slade mill, with cargoes amounting in the aggregate to 5 328, feet, and two at Wilson Bros. & Co.'s mill, whose cargoes aggregated 975,000. The E. K. Wood mill at Hoquiam, shipped four cargoes foreign, 2,782,000 feet, and the Northwestern Lumber Company two cargoes, aggregating 1,600,000 feet.

Most of this lumber went to Mexican ports, although Honolulu received several cargoes, while Africa, New Caledonia, Australia, and Peru each received one cargo. At the present time the mills have orders for foreign cargoes of lumber, and the owners anticipate that the 1898 foreign trade will greatly exceed that of 1897.

Northwest Notes.

The presiding elders of the Methodist Episcopal church, comprising all the elders in the Pacific Northwest, will hold a convention in Spokane on the 11th, 12th and 13th of January, 1898. Bishop Cranston, of Portland, will preside.

A logger at Seaside, Or., says that he proposes to put in 9,000,000 feet of logs before the end of the freshet season next year. The timber will be taken from the Scothan, Bracker, Eberman, Gearhart and Starr places, near Holiday Park.

Hops in Yakima seem to be a drug on the market, notwithstanding high quotations elsewhere. Local buyers say that choice grades can easily find sale at 13½ cents, but they maintain that only one or two choice lots remain in the valley, and that the best of the poorer qualities left are not worth more than from 9 to 10 cents.

B. M. Pulse, of Suver, Benton county, Or., sold his hop crop, 8,365 pounds, last week. Three-fourths of it went for 9½ cents, and the remainder for 5 cents a pound. John Patterson, of the same neighborhood, has shipped, on consignment, about 10,000 pounds, receiving a cash advance of 7½ cents for best, and 5 cents per pound for second quality. George Ruth, of Suver, has sold about 12,000 pounds at 12¼ cents. Mr. Pulse has begun the cultivation of his nine-acre yard for next year.

Heavy rains and heavy breakers on the beach recently caused landslides on the beach below Empire, Or. A number of bluffs and rocks caved in. As much as 10 acres of fine land, including house and barn and other property, belonging to Charles Hanson, and the prominent rocks known as the "Seven Devils," disappeared.

Not much was done at the meeting of fisheries men in Tacoma recently. The attendance from out of town voluntary delegates to the Florida congress will be submitted to the governor for appointment as representative for Washington.

NEVER TOO SURE.

Against the probability or possibility of mischance or accident we can never be too sure. But if we should stop to consider how great is the chance of sudden death, we would be made too timid and unhappy. Caution is needed not to be foolhardy, and precaution to know what is best to do when an accident happens. One day this winter two men were walking, and one said: "We're too timid in treading on slippery places. I tread firmly and never think about them, and so escape a fall." "Never be too sure," said the other, "it is that that throws you off and makes the fall the harder." Just then they came upon a place covered with thin snow, where kids had been sliding. The first speaker slipped, and came down with his foot turned, and badly sprained his ankle. He was a cripple on crutches until a short time ago, having used many things without benefit. Up to that time he had not used St. Jacobs Oil, which, when used, cured him completely, so that he walks as usual. There is a probability that for the rest of the season he will walk cautiously, with the precaution of having this great remedy ready for use.

Value of the British Navy.

It is interesting to note that the capital value of the British navy at the present time exceeds £94,000,000. The first cost of the fleet which led to the downfall of Napoleon was but £10,000,000. The fleet then comprised between 480 and 490 fighting vessels.

California claims the largest boy in the world of his age. His name is John Bardin. He is 15 years old, six feet five inches tall, and weighs 220 pounds.

TREMENDOUS EXODUS TO THE KLONDIKE.

Despite the warnings of those who have been on the spot, and predict suffering in the Klondike region, thousands of adventurous Americans are wending their way thitherward. All of them should be provided with that medicinal safeguard, Hostetter's Stomach Bitters, which warms and nourishes the system and prevents malaria, rheumatism, kidney trouble, besides remedying liver complaint, dyspepsia and constipation.

It is estimated that Australia contains nearly 7,000 species of plants not found elsewhere.

AN OPEN LETTER TO MOTHERS.

We are asserting in the courts our right to the exclusive use of the word "CASTORIA," and "PITCHER'S CASTORIA," as our Trade Mark.

I, Dr. Samuel Pitcher, of Hyannis, Massachusetts, was the originator of "PITCHER'S CASTORIA," the same that has borne and does now bear the fac simile signature of CHAS. H. FLETCHER on every wrapper. This is the original "PITCHER'S CASTORIA" which has been used in the homes of the mothers of America for over thirty years. Look Carefully at the wrapper and see that it is *the kind you have always bought*, and has the signature of CHAS. H. FLETCHER on the wrapper. No one has authority from me to use my name except The Centaur Company of which Chas. H. Fletcher is President.

WOMEN MARTYRS.

Lots of women suffer constantly, and seldom utter complaint.

Our habits of life and dress tell sadly upon women's delicate organizations.

They ought to be told just where the danger lies, for their whole future may depend upon that knowledge and how to overcome the dangers that threaten them.

There is no need of our describing the experiences of such women here—they are too well known by those who have suffered; but we will impress upon every one that these are the never-failing symptoms of serious womb trouble, and unless relieved at once a life will be forfeited.

Lydia E. Pinkham's Vegetable Compound never fails to relieve the distressing troubles above referred to; it has held the faith of the women of America for twenty years.

It gives tone to the womb, strengthens the muscles, banishes backache and relieves all pains incident to women's diseases. All Druggists sell it and recommend it.
