Ponce, Porto Rico, via St. Thomas, D. W. I., August 2 .- No forward movement of the army is expected for several days. The transports with General Brooke's army corps and the remainder of the First corps are arriving slowly. Our troops will probably remain quiet until the bulk of the army has disembarked. Only three transports have arrived since yesterday. They have just appeared in the offing, and only one has been made out. It has on board the Fifth Ohio cavalry.

General Miles will retain his headquarters at the custom-house at the nce, while General

to Principe, Cuba, has been bombarded by the ships of the blockading squadron, evacuated by the Spanish and subsequently burned. No details are known, and the only information of the affair was that given to Captain Maynard, of the gunboat Nashville, by Lieutenant-Colonel Rojas, of the insurzent focres at Gibara, last Tuesday. Colonei Rojas himself has the news at The only American ships known to

Tuesday, when she captured the schooners Gibara and Expresso. On entering the harbor, she was met by the ex-United States consular agent and president of the railroad line to Holguin. He told the Americans of the evacuation of Gibara two days before by General Leque and his 1,800 Spanish troops, who feared a concerted attack by Americans and Cubans. They fied to Holguin by rail, and afterward store up the tracks. General Lequez left in the Gibara hospital 535 sick and wounded Spanish soldiers with a request to Admiral Sampson to see that they were properly cared for.

The next day the Cuban forces, consisting of 500 cavalry, under Lieutenant-Colonel Rojas, and 200 infantry, made a triumphant entry into the town. They were received with acclamations by the Cubans, and the town held festival that day and night. The insurgents took formal possession, establishing police system and sent out scouting parties, and when the Nashivlle arrived, the best of order was being maintained. The invaders had, however, neglected the schooners in the harbor, and the American ships took possession of them.

When Ensign Snow left with a prize crew to bring the Gibara here, it had been determined to raise the American flag over the town.

Berlin, Aug. 2 .- The news of Prince Bismarck's death, which became generally known only through special editions of the papers, produced profound sorrow, as so sudden a realization of the fears of his domiso was not expected.
