Repulsed by Oregon and Nebraska Troops.

ENEMY LOST THIRTY KILLED

A Patrol of Oregon Boys Ambushed and Two Wounded—The Rebels Defeated.

Manila, March 8.—The rebels have been concentrating in the vicinity of the reservoir. Today a patrol of company G, Second Oregon volunteers, was taken in ambush. Two men were wounded, but the organization held their ground under a heavy fire until the remainder of the company, assisted by two companies of the First Nebraska regiment, flanked the enemy, killing 30 and wounding several more. Two battalions of the Twentieth regular infantry have reinforced General Hale's brigade.

All the native huts have been destroyed at Mariguina, and the country there is pretty well cleared, but the rebels were returning in small bodies at sundown. THIS IS BETTER.

American Troops Welcomed to the Island of Negros.

Washington, March 8.—A cablegram from General Otis at Manila, received in Washington, indicates the satisfactory and agreeable reception accorded to the American troops which recently landed at the island of Negros. They were sent there by General Miller at Ilo Ilo, in command of Colonel Smith, to take formal possession for the United States, which he did without trouble.

Previous to the time the troops landed, a commission from the island visited General Otis and said they were willing to surrender, and asked that he take the inhabitants under his protection. The congratulatory address to General Miller, embodied in General Otis' dispatch, is particularly gratifying to the officials of the administration, as they believe that the feeling among the inhabitants of the island of Negros is such that there will be no trouble in dealing with them hereafter. General Otis' dispatch is as follows:

"Following from Ilo Ilo, 4th inst.: 'Government, congress and inhabitants of Negros to General Miller, Ilo Ilo:

"We affectionately salute you and congratulate ourselves for the happy arrival of Colonel Smith and troops under his orders, and beg you to send this salute and congratulations to General Otis, at Manila, as representative of the government of the United States in the Philippines. (Signed) 'LOTIS.'"

Shelled the Battery.

Manila, March 8.—At daylight this morning the enemy were discovered trying to mount a gun across the river from San Pedro, and the Sixth artillery promptly shelled the rebel battery. RESULTS OF THE EXPLOSION.

Nearly Fifty Corpses Taken From the Ruins at Toulon.

Toulon, March 8.—About 50 corpses have been recovered from the scene of the explosion of a powder magazine yesterday between La Seine and Toulon. The remains of several other victims are still buried in the debris.

London, March 8.—A special dispatch from Paris says it is rumored that one of the soldiers who perished in the explosion of a powder magazine yesterday morning near Toulon had for a long time past been the victim of systematic persecution upon the part of corporations, and he had vowed to be avenged. It is added that this man is suspected of having blown up the magazine.

Orders to Leave.

Peking, March 8.—The American marines who have been guarding the United States legation are under orders to leave. The Russian and French embassies have also notified the government of their intention of soon withdrawing their guards from their respective legations.

No Direct Attack.

Manila, March 8.—While the rebels had concentrated their forces with the purpose of attacking the water works, no direct attempt was made to capture the American position there. Detachments from General Hale's and General Wheaton's brigades cleared the country today.

Prince Henry in Command.

Berlin, March 8.—A high official of the German navy department has informed the press that the appointment of Prince Henry of Prussia, brother of Emperor William, to the command of the East Asiatic squadron, had been considered for months past, and was finally decided upon as being the most expedient, the emperor desiring to show the American people that he is thoroughly friendly to them, knowing Henry is popular in the United States.

NO RESPECT FOR WHITE FLAG.

The Filipinos Show Their Treacherous Nature.

Manila, P. I., March 9.—Detachments of General Hale's and General Wheaton's brigades were engaged for two hours this morning clearing the country in front of their lines on both sides of the river, the enemy concentrating with the apparent purpose of cutting off the garrison at the water works. The rebels halted at the first sign of the advance, but they separated into small bodies whenever the covert afforded opportunity, and kept up a running fire. By a series of rapid advances, followed by flank movements, the enemy was completely routed as far out as Guadalupe on the right, and almost to Mariguina on the left.

The casualties reported are Captain O'Brien, of company F, First Wyoming volunteers, and two men slightly wounded. The rebel loss was heavy. This afternoon General Hale's brigade continued the work of driving out the rebels from the country between the reservoir and the water works, a distance of about three miles. The country is now clear on the left of the river, but the enemy is still in front of General Wheaton's line.

Private Lovejoy, company C, Washington volunteers, was killed by a stray bullet. Major Bell, Seventh United States cavalry; Private Young, company M, Twentieth infantry, and Private Parks, company I, First Wyoming volunteers, were wounded today.

This morning the enemy in front of General Owenshine's division displayed a flag of truce, but returned when Lieutenant Kohler, with two men, advanced to meet it. This afternoon they again showed a white flag, and again two officers and an inspector advanced. When the Americans were within 200 yards of the rebels the latter dragged rifles from behind their backs and opened fire upon them, but fortunately without effect. Hawthorne's battery fired two shells, killing several of the enemy.

A big vessel, whose name cannot be ascertained has gone ashore at Gull's island, near Hatteras. The lifesavers are on the scene, but they fear the storm will prevent them from rendering any assistance.

The storm came up unexpectedly, and fears are expressed that many vessels have been caught off the Virginia and North Carolina coasts, and may be in danger.

WINDING UP BUSINESS

Last Legislative Day of the Fifty-Fifth Congress.

LIVELY WORK NEAR THE END

Senate Passed Army and Deficiency Bills—River and Harbor Bill Disposed of.

Washington, March 6.—Excitement, confusion, heavy strain and hard work characterized the last legislative day of the 55th congress, in the senate. At times the confusion was so great in this usually staid and decorous body as to render the transaction of business almost impossible. Toward midnight order was being evolved from the seeming chaos of the early part of the day.

When the senate convened at 11 o'clock it faced the task of considering two of the great appropriation bills, those for the army and for supplying the general deficiencies. The former carried appropriations exceeding \$50,000,000, and the latter \$20,000,000. With a determination to complete the appropriation bills, the senate began immediately at 11 o'clock in the morning to consider these matters, and at 8 o'clock at night the army bill was passed, the deficiency bill having been passed nearly three hours before.

Other bills were passed as follows: To incorporate the National White Cross of America; amending the internal revenue laws relating to distilled spirits and for other purposes; providing a site for the Washington public library building.

A bill providing for a government exhibit at, and to encourage the Ohio centennial exposition, to be held at Toledo, and appropriating \$300,000, was passed.

The conference report on the Alaska criminal code bill was presented and agreed to.

In the House.

At 11 o'clock the house entered upon the last legislative day of the session. The final conference report upon the bill to codify the criminal laws of Alaska was adopted. Slow progress was made on conference reports. The District of Columbia appropriation bill and deficiency appropriation bill were sent back to conference.

The house passed the army appropriation bill with all the senate amendments and the bill now goes to the president.

The conferees on the river and harbor bill modified the Nicaragua canal paragraph appropriating \$1,000,000 for an examination of all routes, under direction of the president. The report of the commission making the examination will be made to congress, and no provision is made for beginning work.

Two items from Oregon which were in dispute and upon which there was a seeming split have been compromised. The Yaquina bay item has been modified so as to have the project examined by a board of engineers. The house yields on the boat railway provision so far as not to repeal the law for the project, but strikes out the appropriation made by the senate.

SANTIAGO IN A FERMENT.

Withdrawal of Funds Puts a Stop to Public Improvements.

Santiago de Cuba, March 6.—Between 2,000 and 3,000 men have been suddenly thrown out of work in the province of Santiago, over 700 in the immediate neighborhood of this city. Although Governor-General Brooke has wired \$30,000 required for the February pay-roll, there is still a deficit of nearly \$20,000, and the orders from Havana still hold good limiting the expenditure during the month of March for the entire province to \$10,000. The effect of this order on Civil Governor Castillo, Mayor Bicardi and other Cubans prominent in official circles is simply paralyzing.

Groups of men on street corners, in clubs, cafes, etc., openly abuse the American administration, saying that the Spanish was infinitely preferable, as in the worst times during peace considerably more men were engaged on public works under the old regime than are now so employed.

The new regulations have brought to a standstill all the public improvements, including the dredging of the harbor, roadmaking and sewerage.

Promotion of Dewey and Otis.

Washington, March 6.—The president has sent to the senate the nomination of Rear-Admiral George Dewey to be admiral of the navy under the act approved March 2, 1899, and that of Brigadier-General Elwell S. Otis, U. S. A., to be major-general by brevet, to rank from February 4, 1899, for military skill and distinguished services in the Philippines. The nominations were confirmed.

Old Wages to Be Restored.

Providence, R. I., March 3.—The Lonsdale Company, employing 2,500 hands, gave notice today of an advance of wages on April 1. The States Cotton Company, at Pawtucket, employing 400 hands, and the Albion and Valley Falls mills, at Albany, also promise to restore the wages paid to the 1898 cut-down.

Rain Making at Los Angeles.

Los Angeles, March 8.—Under the direction of Professor T. S. C. Lowe, a series of experiments are to be made at artificial rainmaking. A committee has been appointed by the chamber of commerce here to raise \$8,000, the amount deemed necessary for an apparatus and chemicals for bombarding the skies. Rain is very much needed here and the conditions have been favorable many times of late, but there has been no rainfall.
