

**HOIT'S SCHOOL.**  
Mentor Park, San Mateo Co., Cal., accredited by the University of California. Location, climate, and careful attention to Mental, Moral and Physical training, places Hoit's among the foremost schools for boys on the Coast.—S. J. Hoit, Principal. Will re-open in the new building August 15th, 1904 year.) Ira G. Hoit, Ph. D., Principal.

Willenden Parish in London is the first to have a "lady" head. She is Mrs. Kendal, who has been the sexton of the church for many years.

### "Waste Not, Want Not."

Little leaks bring to want, and little impurities of the blood, if not attended to, bring a "Want" of health. Hood's Sarsaparilla is the one and only specific that will remove all blood humors and impurities, thereby putting you into a condition of perfect health and strength.

**Hood's Sarsaparilla**  
Never Disappoints

The highest mountains of the Philippine islands are Halaon (Mindoro), 8,868 feet; Apo (Mindanao), 8,804 feet; Mayon, active volcano (Luzon), 8,283 feet; and San Cristobal (Luzon), 7,375 feet.

At Japanese auctions each bidder writes his name and the amounts of his bid on a slip of paper. The various slips are deposited in a box. They are examined when the bidding is over, and the name of the highest bidder is announced.

The most expensive hat on record cost \$1,500 in gold, and was presented to General Grant while in Mexico in 1852. It is now on exhibition in the National Museum at Washington—perhaps the finest Mexican sombrero that was ever made.

A magnificent grove of black walnut trees, most of them with trunks four feet in diameter, have been discovered in the heart of the Miami Indian reserve, southern part of Wabash county, Indiana. The timber has been sold for \$60,000.

Editors in Serbia have reason to keep mum regarding governmental affairs. One paper there, during the past two years, has had 16 editors, and 15 of them are in jail for commenting too freely on legislative enactments.

The managers of a German railroad which is now being built in Eastern Africa, where the climate is most dangerous to white men, recently offered positions to civil engineers at \$1,125 per annum, station masters at \$1,000 and locomotive engineers at \$900.

Sir Arthur Sullivan, the musician, has invented the "Sullivan safety shaft," a device to be attached to carriages to save life in case of runaways or similar accidents, by releasing the horse from the carriage. The invention, which is to be put on the market at once, is primarily due to the death of the late Countess of Lathom, which killed Sir Arthur with a desire to prevent similar catastrophes.

"Recently, after the Rock Island wreck at Volland," says the Kansas City Journal, "Dr. G. H. Kittle, of Moundridge, Mo., entered a claim against the railroad for \$1,920 on account of gold lost. The company thought it unreasonable that a country dentist should be getting so much gold at one shipment, and so it combated the claim. But Dr. Kittle proved his loss conclusively, and the company paid over the full amount." The gold used in dentistry in the United States last year was valued at \$600,000.

## BAD BREATH

"I have been using **CASCARETS** and a mild and effective laxative that is simply wonderful for diarrhea and constipation. My stomach and bowels were very bad. After taking a few doses of Cascarets I felt improved wonderfully. They are a great help to the family."

## NEGROES FIRED UPON

**Strikers Shoot Into Miner's Train Near Pana.**

**GOING TO TAKE STRIKERS' JOBS**

**One Woman Was Shot Through the Heart—An Italian Led the Riot.**

Murphysboro, Ill., July 3.—At 9 o'clock this morning, Conductor William Bryan's train on the Johnson City branch of the Illinois Central, bearing 47 negro miners from Pana, was shot into by a crowd of miners at Lawler, in Williamson county. One negro woman was killed by a bullet through her heart. The negroes were brought by Sam T. Bush, superintendent of the St. Louis Big Muddy mines, near Cartersville, to work in his mine there, where there is now a strike.

The miners, 50 in number, were armed with rifles and were hidden in the grass behind the company depot. When the train stopped the leader, an Italian, got on the platform and commanded the negroes to get out. Conductor Bryan interfered, but was stopped by a revolver in his face. The train began to move and the miners poured in a withering fire. Conductor Bryan yelled to the negroes to throw themselves on the floor.

Half a mile further on the negroes were unloaded and placed under charge of guards. They were then marched to the mine.

Intense excitement prevails in the Cartersville coal field, and bloody riots are expected, as the feeling has been intense for weeks.

**FIGHT IS INEVITABLE.**

**The Rebels Gathering to Attack San Fernando.**

Manila, July 3.—A collision between the two armies at San Fernando seems inevitable soon. The insurgents are active all around the town, and can be seen working in the trenches to strengthen their position. Day and night forces are at work.

It is estimated that 3,000 men were seen marching in the road north of town yesterday morning. The Americans turned out and manned the defenses, expecting an attack. The soldiers sleep in their clothes and breakfast at 4 o'clock in the morning, so as to be ready for an assault.

The commission of three Spanish officers who entered the insurgent lines a fortnight ago to make a final attempt to arrange for the release of the Spanish prisoners have not returned. Their long absence has occasioned alarm, but reports come to Manila that they were received by Aguinaldo at Tarlac and entertained hospitably. It is said that Aguinaldo gave a banquet in their honor, all the leading families of the rebel leaders of the present cabinet attending, hence the Spaniards in Manila hope that the mission of the commissioners will be successful.

General Owensline is in the hospital suffering from fever. General Grant is commanding his troops on the south line.

**EXCLUSION A BLESSING.**

**Americans Benefited by Having Been Kept Out of Atlin.**

Seattle, July 3.—Advice from Atlin mining district are to the effect that Judge Irving, who was sent into the district by the British Columbia government to straighten out the tangle caused by the alien exclusion act, has arrived there and has already settled many disputes over locations. He has decided that the original stakes, located before the passage of the exclusion act, shall stand, whether the locators are Americans or Canadians.

Russ Humber, of Victoria, a late arrival, says: "The condition of affairs in Atlin is very serious. Nearly 4,500 men are in the district doing nothing. Many have run out of provisions and money. Only a few of the claims are turning out well. I would not give over \$3,000 for the best claim in the district. While I am a Canadian, I condemn, in the strongest terms, the action of the provincial government in keeping the country closed up. Americans should be thankful that the alien law kept them out."

**DREYFUS IN FRANCE.**

**Famous Prisoner Reached Rennes, Where He Will Be Tried.**

Rennes, France, July 3.—Captain Dreyfus has arrived here. He was landed at Quadoron, and was conveyed by train to Bruz, 12 kilometers from Rennes. There he entered a landau, accompanied by the chief of the detectives and prefect of the department, and was driven to Rennes, where 25 gendarmes waited his entrance into the town. Ten of the gendarmes entered a wagon and followed the carriage. The rest followed on foot. The party arrived at the prison without incident.

A large crowd assembled and witnessed the arrival in silence and without manifestation.

**Women Lawyers in France.**

Paris, July 3.—The chamber of deputies adopted a resolution today authorizing duly qualified women to practice at the bar.

**Mrs. Southworth Dead.**

Washington, July 3.—Mrs. Emma D. E. N. Southworth, the authoress, died at her residence in this city at 8:30 o'clock tonight, and after an illness of several weeks. About a month ago Mrs. Southworth was prostrated by the heat, and the infirmity of advanced age, she being in her 79th year. She grew rapidly worse until, a few days since, it was seen that death was inevitable. She was attended by her son, Dr. Southworth. She lived for many years a retired life in a picturesque mansion of the old-fashioned type, located on a hill in West Washington, overlooking the Potomac and the hills of Virginia.

## GRAVES RENTED IN CUBA.

**When Payment is Delinquent Remains Are Thrown Out.**

Havana, July 3.—The citizens of Matanzas protest against restoring the cemetery to ecclesiastical authorities. It is asserted by those who are particularly active in their opposition that the church, though always regarding the cemetery as a leading source of income, has invariably taken advantage of the poor in connection therewith, compelling them to pay exorbitant sums when renting graves for their dead, and then, at the expiration of the terms, relentlessly disintering the remains and throwing them into unconsecrated ground.

Brigadier-General Lee called upon the governor-general today with regard to future action against the thieves who have recently created so much trouble in the district of Guanajay. The prompt measures already taken served to check the outbreak of thievery, and it is not expected that there will be much more trouble there. Nevertheless General Lee wishes to take steps that will be absolutely preventive.

General Brooke has received a decree drawn by Senor La Naza, secretary of justice on the advisory cabinet, by the terms of which, for the time being, citizens of foreign countries who desire the recognition of charters and licenses shall present to their diplomatic representative or consul all such documents for formal legalization.

The people in Havana are deeply interested in the reported discovery of yellow fever serum. Most of them doubt its efficacy, but they say they will give it a fair trial if opportunity offers. They believe that if administered in minute doses it would not harm the patient.

**OREGON MAN'S INVENTION.**

**Naval Board Experiments With a New Explosive.**

New York, July 3.—A dispatch to the Herald from Washington says: Important tests with thorite, a new high explosive, are being conducted by the board of ordnance and fortifications at the Sandy Hook proving grounds. Little is known at the war department of the characteristics of the new explosive. It is the invention of Professor Tuttle, of Oregon, who asserts it is perfectly safe, and was willing some weeks ago to put a red-hot poker in a charge of thorite, declaring it could be done without causing it to explode. It is believed to have picric acid as its base. Tests of the explosive by the inventor are said to have been very satisfactory, and it may prove to be the material the army has been seeking.

Besides thorite, the ordnance department of the army has been experimenting with javite, emmentite and dry ice, and wet gun cotton, paying more attention to the last named explosive than to any other. So far none of them has given the results desired before adoption for service use.

Captain William Crozier, military attaché of the American delegation to the Hague conference, was instructed several weeks ago to stop in England on his way home and ascertain if possible the ingredients of iodite and the secret of the fuse used by General Kitchen's army in the Sudan with such excellent effect. It is untrue that he has been directed to contract for any quantity of the explosive.

Military officers in England have apparently been unable to secure all the information concerning the explosive the authorities would like to have. It is recalled that emmentite, discovered in and used by France, was kept a secret, but this government finally obtained information of its ingredients and has been testing it for some years at Sandy Hook.

Tests of javite were made by the army officials several years ago and were not very successful. The navy department has tested thorite with considerable success, and if it continues to be satisfactory it may be adopted by the naval service.

**Joint Pacific Coast Terminal Company.**

Tacoma, Wash., July 2.—A special from New York to the Evening News today says: Negotiations which have been pending for the past 90 days for settlement of the terms for a joint terminal corporation for the Pacific coast have been practically concluded, and the plan of organization agreed upon. Tacoma will be the center of the system, which will include various ports on the navigable waters of the North Pacific coast, where the steamship lines of the Pacific will be centered.

Active work in the carrying out of the project, which includes the Great Northern, Northern Pacific, Burlington and Union Pacific systems, will be at once begun.

**Another Diplomatic Crisis.**

Washington, July 2.—The negotiations in London looking to the arrangement of a modus vivendi fixing the Alaskan boundary, have again nearly reached a crisis, the several conferences that have taken place recently being dismally disappointing in results. At moments it appeared the details could be easily arranged, but it turns out that those very details cannot be agreed upon without the sacrifices of the interests of many American miners, mainly those who are driven out of the Atlin district by the severe and discriminating Canadian laws.

**The Transvaal Difficulty.**

London, July 2.—The Digger News, the Boer organ in London, prints a dispatch from Johannesburg announcing on reliable authority that the veldraad will be asked on Monday to confirm an arrangement made by the executive council and acceptable to the British government. The arrangement grants a retroactive franchise to Uitlanders resident in the Transvaal before 1890, who will be admitted to burghership, with other modifications in the naturalization laws.

**Poisoned Her Sister.**

London, July 3.—At the Hartford assizes today, Mary Ann Ansell was found guilty of murdering her sister, an inmate of an asylum for the insane, by sending her poisoned cake by post. She was sentenced to death. The condemned woman had previously insured her sister's life, giving a false description.

**Pope Leo Sick.**

London, July 2.—The Rome correspondent of the Daily Mail says: In consequence of his daily exertions during the religious ceremonies, the pope is now suffering great prostration, together with a slight attack of fever. He was confined to his bed Thursday, and some anxiety is felt regarding him.

## BUSINESS IN ALASKA.

**Sober Development Takes the Place of the Mad Rush—New Discoveries Being Made.**

Captain Dwight Hunt, with two companions, has been in Haines this week, outfitting for a prospecting tour in the Porcupine mining district, says the Porcupine Quill. Captain Hunt and party represent an extensive company, known as the Jack Crawford (poet and scout) party that went to the Hootlingna last season over the Dyea route, equipped with dredgers, and who have been unsuccessful in the Yukon and are trying the present season to retrieve their ill luck by operating in the Atlin and Forty-Mile districts in the Yukon. Attracted by favorable reports from the Porcupine district, the manager of the company, Henry M. Wallace, a prominent lawyer of Ann Arbor, Mich., placed a detail of operators under the charge of Captain Hunt, who is an experienced prospector, and sent them here to prosecute intelligent examination of the quartz and placer claims in American Alaska in this vicinity. They are also going to give special examination of the bydraulic propositions which are reported favorable. In event they are successful in their search they will bring in a large outfit this season of modern hydraulic machinery and permanently establish the headquarters of the company—which have a large capital at their control—under the Stars and Stripes, and abandon the Northwest Territory propositions, where they are sorely handicapped by unjust discriminations and exactions. The party will be ready to start early next week, and are now getting their boats and outfit over the trail to the Chilkat river.

**Excitement Runs High.**

Mr. Cole, the mail agent for Porcupine City, brought down on his last trip a small pile of gold dust taken from claim No. 1 above Discovery, Porcupine creek. It was the partial output of the first washout by the use of a sluiceway on that claim, and was sold to S. Weitzman for \$35. Mr. Cole says the miners on McKinley and Porcupine creeks are just beginning to take out gold, and the field soon will astonish the nations. The water is quite high, and only the elevated rimrock can be worked, but as the work progresses the claims are growing richer, excitement is running high and daily arrivals of prospectors are large.

**A Stampede Expected.**

Since the arrival of samples of coarse gold from the placer mines on the Porcupine and McKinley diggings, the minds of doubt that have been thrown over that district by the "grubstakers" who have done no active work except to hang around the camp, waiting for something to turn up, has disappeared, and a feeling of confidence established. In fact, nothing but the best of reports are being brought in daily, and if developments continue as they are now going on there will be a genuine stampede inside of six weeks.

**Large Cannery Destroyed.**

Mr. D. J. Munn's cannery on Sea Island, B. C., was completely destroyed by fire. The cannery was one of the largest on the North Arm, and generally had the largest pack for that branch of the river. The cannery was fully equipped with everything necessary for the season's work and all the nets were hanging in readiness to be taken out for the sockeye run. The loss on the cannery, stock of cans, machinery, etc., is estimated at \$65,000, on which there was only \$45,000 insurance.

**Struck a Quartz Ledge.**

William Estinghouse, of California, who has been prospecting along the Chilkat river for the past four months, struck a ledge of quartz about four miles from Haines. His discovery covers a ledge five feet between walls, and evidently carries a large per cent of copper and gold. Mr. Estinghouse has followed mining for several years in Alaska and California, and is satisfied that his discovery possesses great wealth and will take immediate steps to develop it.

**New Alaska City.**

Jim McCloskey, of the Arctic, has returned from the Ketchikan mining district, which he reports as a promising district. "Ketchikan," says Jim, "is going to be quite a city, as it already has one large store and about 40 houses. The townsite is being surveyed and the prospectors are flocking in by the dozens. One noticeable feature of the district is the copper-stained ore, nearly every sample coming from that district being literally covered with the stain."

**Great Racing Event.**

Saturday, July 1, the trotting and running races commences at the Irvington track, Portland, and will continue until July 8. Judging by the horses that have already been entered for the different events, it ought to prove a success in every way. Opening day, ladies will be admitted to the track and grandstand free of charge. On all other days 25 cents admission will be charged. This includes a seat in the grandstand. The admission fee for gentlemen on all racing days, including grandstand, will be 50 cents. Good racing and popular prices will undoubtedly prove great drawing cards.

**Peacock Copper Prospect.**

Mr. Sheldon brought to Haines' Quartz several fine specimens of quartz taken from a ledge near town. The specimens were highly crystallized with peacock copper and other mineral which resembled gold. The specimens attracted a great deal of attention and favorable comment from experts. The vein his samples were taken from is about eight inches in width, with good prospects of growing wider as he proceeds with development work.

**Death in the Rapids.**

The Klondike rush of 1899 has already had its list of dead to be recorded. Frank Kane, hotel man, of Douglas Island, and Charles Morit, of the Hotel Lindeman, Dyea trail, while trying to cross Bennett in a Peterboro canoe, were capsized and drowned.

**Fresh Meat Famine.**

A fresh meat famine existed at Haines the front end of last week. A like condition of affairs in the market is reported as existing at Skagway with the nonarrival of expected beef cattle.

## Hay Crop in Fine Condition.

Reports from all over Oregon received at the weather bureau indicate that the hay crop of the state is in fine condition. In fact, many declare that it was never better. It is late in most localities, but it is good everywhere. The recent rains have not injured the crop to any noticeable extent. Harvesting had already begun when the rains came, but the wet weather did not last long enough nor was the rainfall sufficient to hurt the hay that been cut. The only effect it had was to delay harvesting, which is already late.

**Skagway a Future Mining Center.**

There is now every prospect that Skagway's future as a great mining center is assured, if all the reports that keep coming in regard to new discoveries of quartz in this vicinity are true. Old prospectors have been at work for a long time on the hills east of the city, but have kept their operations so very quiet that only a limited few knew anything about it. Whenever these men were cornered they would make a general denial of having made any find.

**Cattle Going North.**

The Union Steamship Company's steamer Capilano arrived last week at Vancouver, B. C., from Skagway, whither she went with 70 head of cattle and 75 head of swine, belonging to Burchell & Howey. She will take another load of cattle and sheep, the property of P. Burns. On this trip she will take up 75 head of cattle and about 100 head of sheep.

**Bid Invited.**

The city clerk of Nelson, B. C., has invited bids for the new issue of debentures from all the banks and financial agents in the East. Bids are asking for all or any part of 60 debentures of \$1,000 each.

**PACIFIC COAST TRADE.**

**Seattle Markets.**  
Onions, 90c per 100 pounds.  
Potatoes, new, 2 1/4c per lb.  
Beets, per sack, \$1@1.25.

Tropical fruits—Bananas, \$1.50@2.50 per bunch; pineapples, \$2.50@4.50; Peruvian dates, 6@8 1/2c per pound.

## Embarrassed His Father.

A gentleman recently visited a new district police station and was shown over the building by the officer in charge. He related the circumstances of his visit at home in the hearing of his youngest son, a little fellow four years of age. A few weeks later father and son were traveling by rail to a town some miles distant, when just before reaching their destination the train pulled up within sight of a large, gloomy-looking building. The son inquired what place it was, and on being informed that it was the county jail he embarrassed the father and made the other occupants of the carriage look suspicious by asking: "Was that the jail you was in, father?"—Chicago Chronicle.

**Opinions of a Foodist.**

Every man thinks all men except one are concoited.  
It is easier for a camel to pass through the eye of a needle than it is for a man to miss his train and think things that are fit for publication.  
Martyrdom would cease to be glorious if the martyr could live to enjoy it, therefore martyrs are scarce.  
When a woman says she doesn't care what her neighbors think it is a sign that her doctor is going to recommend a change of air.—Chicago Times-Herald.

**Confession of a Millionaire.**

A millionaire confessed the secret of his success in two words—hard work. He put in the best part of his life gaining dollars and losing health, and now he was putting in the other half spending dollars to get it back. Nothing equals Hostetter's Stomach Bitters for restoring health. It cures dyspepsia and indigestion.

**Women Journalists in the United States** number 888, with 2,735 authors and literary persons.

**SHAKE UP YOUR SHOES**

Allen's Foot-Paste, a powder for the feet. It cures painful, swollen, smarting, hot, itchy feet and instantly takes the sting out of corns and bunions. It is the greatest comfort discovery of the age. Allen's Foot-Paste makes tight or new shoes feel easy. It is a certain cure for Ingrowing Nails, sweating, callous and hot, itchy, itching feet. We have over 30,000 testimonials. Try it today. Sold by all druggists and shoe stores. By mail for 25c in stamps. Trial package FREE. Address, Allen S. Cline, Le Roy, N. Y.

In several European countries, including France and Belgium, elections are always held on Sundays.

**Beware of Ointments for Catarrh That Contain Mercury.**

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces, such articles should never be used except on prescription and under the supervision of a physician. As the damage they will do is tenfold to the good you can possibly derive from them, sell your catarrh cure, and now he is putting in the other half spending dollars to get it back. Nothing equals Hostetter's Stomach Bitters for restoring health. It cures dyspepsia and indigestion.

**Corsets made of aluminum** are now used by medical men for treatment of certain spinal disorders.

There was a young man from Lenore, Who boldly went off to the war; The "beef" made him sick, He recovered quite quick, By the prompt use of old Jesse Moore.

Miss Charlotte Kinney, of Syracuse, N. Y., is said to be the only woman drummer in the world who sells wagons.
