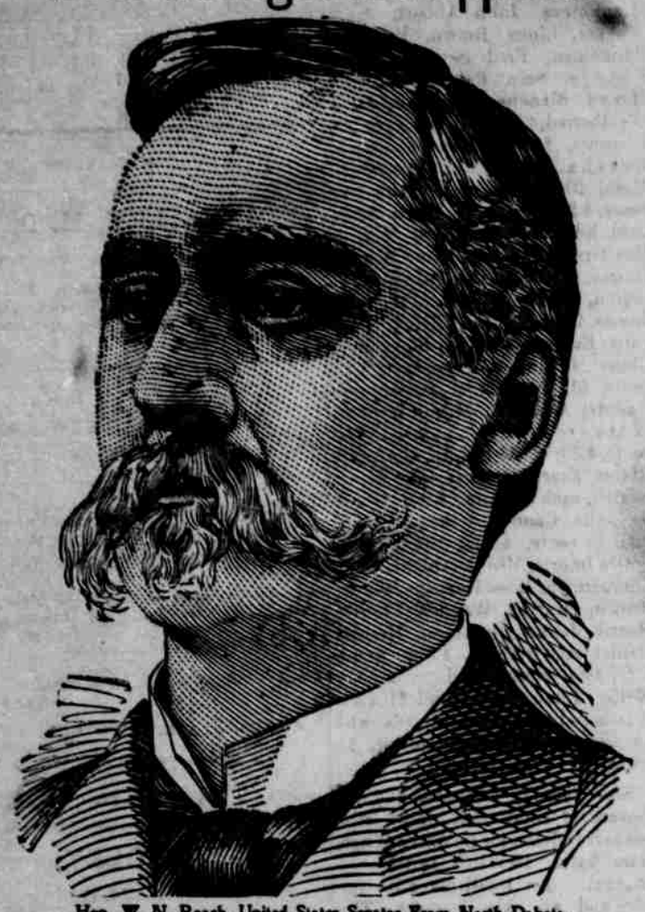
U. S. SENATOR ROACH

Says Peruna, the Catarrh Cure, Gives Strength and Appetite.



Hon. W. N. Roach, United States Senator From North Dakota.

Hon. W. N. Roach, United States Senator from North Dakota, personally endorses Peruna, the great catarrh cure. In a recent letter to the Peruna Medicine Company, written from Washington, D. C., Senator Roach says:

"I have used Peruna as a tonic, and I am glad to say it has greatly helped me in strength, vigor and appetite. I have been advised by friends that it is remarkably efficacious as a cure for the almost universal complaint of catarrh."

Senator Roach's home address is Larimore, North Dakota.

Peruna is not a guess, nor an experiment; it is an absolute, scientific certainty. Peruna cures catarrh wherever located. Peruna has no substitutes—no rivals. Insist upon having Peruna. Let no one persuade you that some other remedy will do nearly as well. There is no other systemic remedy for catarrh but Peruna. Address the Peruna Medicine Company, Columbus, Ohio, for a free book on catarrh, written by Dr. Hartman.

The bill to protect child labor has passed the Georgia senate. The bill seeks to prevent children under the age of 12 years from working in the factories unless widowed mothers or invalid fathers need their labor.

TO CURE A COLD IN ONE DAY

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

After April 1 carpenters will demand an advance of 40 cents per day and a prolonged fight is looked for.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

A pioneer sheep feeder of Fort Collins, Colo., is feeding 25,000—the largest number ever fed by one individual.

VITALITY low, debilitated or exhausted cured by Dr. Kline's Invigorating Tonic. FREE $1. Trial Bottle containing 3 Weeks' treatment. Dr. Kline's Institute, 931 Arch St., Philadelphia. Founded 1871.

London holds 63 per cent of its policemen for night duty.

A recently patented freight seal has made its appearance on the market, and several lines are now considering its adoption. The new seal is said to possess many advantages over the common lead seal now in use. It consists of a tablet of terra cotta, on which the initials of the road are stamped, and perforated by a square hole, through which the fastening device is passed. It is impossible when applied to car doors, to open them without first breaking the seal. When broken no amount of ingenuity could serve to prevent the knowledge it had been tampered with.

An Excellent Combination.

The pleasant method and beneficial effects of the well known remedy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP CO., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package.

CALIFORNIA FIG SYRUP CO.
SAN FRANCISCO, CAL.
LOUISVILLE, KY. NEW YORK, N. Y.
For sale by all Druggists.—Price 50c. per bottle.

Victim of His Own Medicine.

A physician of Eastbourne, Me., recently made up a draught for a patient, putting in by mistake strychnine instead of chloroform, and when she complained that it made her sick, got angry and to prove that the medicine was all right swallowed half the contents of the bottle himself. He immediately recognized the symptoms of strychnine poisoning, used a stomach pump and other means to destroy the effects, but died soon after.

Woman's Rights in Turkey.

The Turkish woman is marriageable at the age of 9 years and by Turkish law at that age, if married, she is competent to manage her property and dispose of one-third of her fortune. The law allows her to abandon her husband's house for just cause and will protect her in so doing. She cannot be compelled to labor for the support of her husband.

The first recorded strike in the United States is that of the journeymen bakers of New York in 1541.

Health from an Open Fireplace.

Physicians are discovering that the old-time open fire had much to do with the health of our grandmothers and that steam heat and furnace heat are responsible for many ailments. Steam heat especially has a way of gradually increasing so that anyone who is used to a steam-heated room becomes an easy victim to colds and all the long string of ailments to which a cold is the introduction. An open fire is a sort of inspiration in itself, and since it draws in the out-of-door oxygen through all the cracks and crannies it helps to purify the air in the room while it heats it.

Great Britain's Locomotives.

There are 19,914 locomotives at work on the railways of the United Kingdom, and each of these on an average runs 19,096 miles in a year, and earns for this £4,578, so that each mile the locomotive runs its gross receipts are about 4s. 9d. Like the human factor in all industries, the locomotive to-day is doing more than that of ten years ago, but, unlike the human factor, engines are now earning less; the 15,924 locomotives then on the railway each ran 19,035 miles, and earned £4,929 per annum. If, therefore, we take the cost of an average locomotive at £2,700, it is found that she earns in gross receipts her total cost in seven months; but the profits are quite another matter.

Its Glory Done.

In one of the finest cities of our west, there lives a certain man who has been prominent all his life in the work of building and managing theaters. He has been too busy at this to have much time for reading. When his pile was made he started for Europe and visited the various countries. Among other cities he took in Rome. It chanced that he drove out in the country and was shown the Coliseum. The guide told him it was a theater. The old man was surprised. When he came back he was asked about his trip; he mentioned Rome. Naturally he was asked if he had seen the Coliseum. He had. He didn't think much of it. To quote his own words: "It was a blamed good house once, but it's in ruins now."—Detroit Free Press.

Escape of the Newly Wedded.

A newly married couple in New Brunswick, N. J., circumvented their mischievous friends by starting on their wedding journey by way of the roof. The friends, well-supplied with rice and old slippers, stood at the foot of the stairs. The pair ascended to the roof, walked to the adjoining house, then down and through the rear door to a back street, where they entered a waiting carriage and were driven to the railway station.

ALONG THE COAST.

Commercial and Financial Happenings of Interest to the Growing Western States.

It is reported that Coggins Bros., the big saw-mill men of Igerna, Siskiyou county, who own a large tract of valuable timber land on Hungary creek, west of Coles and near the Oregon-California state line on the south side of Siskiyou mountain, will put in a saw mill on their property in the spring. They have secured by purchase from Stockton parties, by lieu land process, and purchase from railroad, seven sections of fine timber land in that section and will build a railroad from a point this side of Cole's to the scene of the mill operations. The distance is three or four miles in a straight line, but it will require a switchback railroad of six miles to reach their timber. They will ship the lumber to the general markets and to their box factory at Igerna.

Outlook Bright for Loggers.

The outlook for the loggers is brighter now, says the Budget at Astoria, than it has been for a long time, notwithstanding that most of the logging camps are shut down for a time, while short days and bad weather are the rule. Some 5,000,000 or 6,000,000 feet of logs just floated out of the Elokamin river, have been sold to the North Pacific Lumber Company for $6.50 per 1,000, which is the highest price paid for logs in this section for probably eight or 10 years. This is encouraging to loggers, notwithstanding it is said the company needed the logs and had to pay a little more than their real market value.

Will Feed Pulp.

Six hundred head of cattle belonging to Patterson & Armstrong arrived from Wallowa county, at La Grande, and were driven to the feeding grounds at the sugar factory there for winter feeding, Messrs. Patterson & Armstrong having purchased from the sugar company all the pulp from this season's run on which to feed their stock. The pulp of the sugar beet is said to be by those who have fed it to cattle, a most excellent article upon which to fatten stock, and imparts to the beef a most delicious flavor. Messrs. Patterson & Armstrong are experienced cattle-raisers, and it is thought their experiment will prove a success.

Another New Industry for Albany.

Another new industry will soon be in operation in this city, says the Albany Herald, if everything is satisfactory. W. H. Nudd, of the firm of Nudd & Taylor, of Centralia, Wash., was in this city recently looking for a location, and seemed pleased with the outlook. The firm manufactures wooden eave gutters, conductors and moldings, and is a solid institution. It has offices at Minneapolis, Minn., and turns out yearly several million feet of its product. The company employs 25 men and manufactures its entire product out of fir. The product is mostly sent east of the Mississippi river to market. The company comes without solicitation, and is not seeking a bonus or inducement.

Philomath Enterprise.

Philomath is to have a new schoolhouse. At a meeting of the enterprising citizens of that district last week it was voted to erect a schoolhouse to cost $3,000, to contain five or six rooms, and to be equipped with all modern conveniences. A tax will be levied to raise $1,000 and bonds sold to cover the other $2,000. A fine site for the new structure has been selected, and work on the building will commence as soon as the weather will permit in the spring.

Bank Will Move.

The Rucker bank, at Everett, Wash., has secured a lease of the Northwest Trading Company's building, on Hewitt and Colby avenues, at Everett, and will move there about the first of the year. The bricks are on the ground for the building of the vault, and as soon as completed the bank and fixtures will be transferred to their new quarters.

Perfumery Factors.

Frank M. Phelps, Ph. G., an Eastern chemist of 15 years' experience, is in Baker City with a view of locating there in business. He has visited many points in the Northwest, and has decided to locate at Baker City. He will establish a laboratory there for the manufacture and wholesale of first-class goods in the line of perfumes, extracts and toilet articles.

Sale of School Bonds.

The board of trustees of school district No. 36, Bingham county, Idaho, has offered for sale coupon bonds of that district to the amount of $440, bearing interest at the rate of 8 per cent per annum, payable annually, redeemable in 10 years after date, for the purpose of building and providing a schoolhouse in said district with the necessary furniture.

New Lumber Company.

The Jones Lumber Company has filed articles of incorporation in the state department. The company will manufacture and deal in lumber and all manner of wood manufactures and merchandise in general. The principal office will be located in Portland.

Shingle Mill Progressing.

Work on the Reed & Million shingle mill at Mt. Argus, Wash., is progressing very satisfactorily. The machinery is being put in as rapidly as it arrives. The company has received the new Sturdevant fan for the hot blast in the dry house. This monster piece of machinery weighs 22,000 pounds and is 120 inches in diameter. It is the biggest piece of machinery of the kind in that county, and probably the biggest in any shingle mill on the coast.

Telephone Line to Seven Devils.

It is said plans are being made to extend the Union Telephone Company's line from Pine Valley to Cuprum, Idaho, in the Seven Devils country, via Ballard's Landing. This will be a great convenience to all that great mining section, as it will give them long-distance connection with the outside world, since the Union line connects at Union with the wires of the Inland Telephone Company.

Springfield, Mass., is building its first 17-story apartment house, to cost $125,000.

WEEKLY REVIEW OF TRADE.

Wind-up of Old Business Holding Back New Transactions.

R. G. Dun & Co.'s weekly review says: Failures in 1899 were 9,393 in number, with liabilities of $123,132,679. The last few days of the year added a few to the number, and some millions to the known liabilities of firms and banks which failed close to the end, so that commercial defaults reached $90,879,889. Most people in business have been so occupied with their accounts and the settlements of the past year that little new business has yet been done. No new tendency in manufactures or in trading appears, and less change than was anticipated in money markets.

There is nothing unsound in the business of the great industries, but an extensive revision of prices may disappoint extreme expectations. Two ways of stimulating business are adopted. The Iron Age notices "transactions of magnitude in foundry iron, which indicates that some sellers are willing to make concessions to secure the trade of good customers." But the steel and wire company has advanced prices of wire nails, barbed and smooth wire 25 cents.

Wool is strongly held, though prices of a month ago cannot be obtained. Cotton does not rise further because receipts from plantations have somewhat increased, and accounts of large stocks at many small towns have attracted attention.

Cotton goods are at the highest quotation of last year, with good demand, though cotton has declined a little.

Wheat moved very sluggishly, with small change in prices. In six months of the crop year about 99,000,000 bushels (flour included), have been exported, against 123,000,000 last year. Atlantic exports have now fallen to only 2,690,926 bushels for the week, against 5,514,240 last year, and Pacific exports were 531,225 against 614,883 last year.

PACIFIC COAST TRADE.

Seattle Markets.

Onions, new, $1.00@1.25 per sack
Potatoes, new, $16@20.
Beets, per sack, 75@85c.

Tropical Fruits—Bananas, $1.50@2.50 per bunch; pineapples, nominal; Persian dates, 6@6½c per pound.

Honest Boy.

"I am glad there are a few honest people left. Two years ago I sent a boy around the corner to buy a postal card. I have never seen the boy to this day."

"You don't call that boy honest?"

"Yes sir! This morning I received a postal with this on the back: 'Dear Sir: Here is your postal. I started in business with the penny you gave me and have prospered. Thanks.'"—Chicago Evening News.

England's Armored Trains.

The magnificent armored trains used by England in her war with the Boers will protect her troops in about the same way that Hostetter's Stomach Bitters drives dyspepsia from the human stomach, and then mounts guard that it does not return. The bitters has won in every case of indigestion, constipation, liver and kidney trouble for fifty years.

Natural gas conveyed in bamboo tubes was utilized in China years ago.

Piso's Cure for Consumption is the best of all cough cures.—George W. Lotz, Fabucher, La., August 20, 1895.

The average advance in wages in Wisconsin for all classes in the year past was 15 per cent.

An ingenious Chicago man is introducing a new footboard designed for the use of brakemen on the freight trains. The device consists of a number of parallel iron pipes, one inch in diameter, and laid upon a framework which raises them eight inches from the level of the car roof. The top sides of the pipes are furnished with iron spurs, placed close together, much in the same manner as spikes upon a railing. It is claimed by this arrangement the spurs prevent the feet from slipping on such ice as gathers, while the snow falls between the rows of pipes upon the roof.

From all accounts the glammaking trade will in the near future be revolutionized by machinery. Some of the inventions have emerged from experimental stage, and there are many more to follow.

DEAFNESS CANNOT BE CURED

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that can not be cured by Hall's Catarrh Cure. Send for circulars, free.

Hall's Family Pills are the best.

Painters and decorators at St. Louis want 37½ cents, eight hours and Saturday half-holiday on and after April 1, 1900.

The United States turns out annually 185,000,000,000 pounds of plug tobacco.

The Soo Line has officially announced the withdrawal of its cut rates of $19 and $17 between St. Paul and New York, which bid fair for a time to demoralise the rates of the Western Passenger Association. When the Soo made the cut rates high officials of the road stated that they would remain in effect until the close of the steamship season, and their withdrawal at this time indicates that the Soo could not withstand the powerful pressure brought to bear upon it by associate lines.

St. Louis machinery moulders now get $2.75 a day; two months ago $2.

"Nature Abhors a Vacuum."

Nothing in the world stands still. If you are well and strong day by day the blood supplies its tide of vigor. If you are ill, the blood is wrong and carries increasing quantities of diseased germs. You cannot change Nature, but you can aid her by keeping the blood pure. Hood's Sarsaparilla does this as nothing else can. Be sure to get Hood's, because

Hood's Sarsaparilla
Never Disappoints

The January Century.

The January Century will contain a poem by Rudyard Kipling, "In the Matter of One Compass." Dr. Mitchell's story, "The Autobiography of a Quack," ends in that issue, but another serial by Dr. Mitchell will begin in the March number. It is called "Dr. North and His Friends," and one who has read the manuscript calls it "an epitome of the science, culture and common sense of the nineteenth century."

Nothing finer in the way of effective railroad advertising has reached the coast this season than the recently issued new booklet of the Great Northern system, entitled "Across America," says the Seattle Times. The booklet contains an accurate description of a trip from Buffalo to Seattle and gives complete information, illustrated by photographs, of every point of interest passed on the journey extending over a distance of 2,000 miles. The advertising department of the Great Northern is being showered with letters complimentary to the new publication.

30 FT. OF BOWELS

THE ALIMENTARY CANAL. 1. Lower end of oesophagus (meat-pipe) which conveys food from the throat to the stomach; 2. Cardiac end of stomach; 3. Pyloric end of stomach; 4. Duodenum; 5. Gall bladder; 6, 6, 6. Small intestines; 7. Caecum; 8. Vermiform appendix; 9. Ascending colon; 10. Transverse colon; 11. Descending colon; 12. Sigmoid flexure; 13. Rectum; 14. Anus. The duodenum is continuous with the small intestines. The small intestine empties into the large intestine or colon at its caecum. The arrow indicates the direction which the contents of the bowels must take in passing through the alimentary canal.

are packed away in your insides and must be kept clean, in order and doing business.

It's a long way, with many turns and pitfalls to catch the refuse and clog the channel if not most carefully cleaned out every day.

When this long canal is blockaded, look out for trouble—furred tongue, bad breath, belching of gases, yellow spots, pimples and boils, headaches, spitting up of food after eating,—an all-around disgusting nuisance.

Violent pill poisons or griping salts are dangerous to use for cleaning out the bowels. They force out the obstruction by causing violent spasms of the bowels, but they leave the intestines weak and even less able to keep up regular movements than before, and make a larger dose necessary next time.

Then you have the pill habit, which kills more people than the morphine and whiskey habits combined.

The only safe, gentle but certain bowel cleansers are sweet, fragrant CASCARETS, because they don't force out the foecal matter with violence, but act as a tonic on the whole 30 feet of bowel wall, strengthen the muscles and restore healthy, natural action. Buy and try them! You will find that in an entirely natural way your bowels will be promptly and permanently

5 DROPS (TRADE MARK.)

25c. SAMPLE BOTTLE 10c. FOR NEXT 30 DAYS.

A MARVELOUS DISCOVERY

In Medical Science, Wonderful, Astonishing, Yet True.

CURES RHEUMATISM, NEURALGIA AND SCIATICA.

By the introduction in the medical field, of our most wonderful "5 DROPS," a legacy of inestimable value has been bequeathed to mankind. Suffering humanity is no longer at the mercy of diseases which have always defied the skill of the medical profession, for now "5 DROPS" defies these diseases, and has robbed them of their terror. This is truly a God-given remedy, yet invented by man for the benefit of suffering mortals, and will be handed down to coming generations as the most wonderful production in medical science during the Nineteenth Century. This remedy is positively curing more people daily than all other remedies combined. We challenge the worst cases of Rheumatism in all its forms, Catarrh, Neuralgia, Asthma, La Grippe and kindred diseases as a test of what this remedy will do. It has positively cured in a short time many who were bed-ridden for years; others who could only walk by the use of crutches, and still others who had been given up by competent physicians to die. This is no exaggeration. We have the evidence in our possession to prove all we say and more too.

"5 DROPS" positively cures the following diseases: RHEUMATISM, NEURALGIA, SCIATICA, DYSPEPSIA, BACKACHE, HAY-FEVER, CATARRH, SLEEPLESSNESS, NERVOUSNESS, HEART WEAKNESS, TOOTHACHE, EARACHE, CREEPING NUMBNESS, BRONCHITIS, LIVER and KIDNEY DISEASES, and where one is cured by this remedy, they stay cured of these diseases, for it fortifies the system against any future attack. "5 DROPS" is the name and five drops the dose. Large bottles ($00 doses) prepaid by Mail or Express, $1.00, or six bottles for $5.00. Sample bottles, regular price, 25c., but for the next thirty days from the date of this paper, we will send sample bottles upon receipt of 10c each. No one can appreciate this wonderful remedy until they try it. Write today. Agents wanted.
