Tell him, rather, how to get rid of them. Most infirmities come from bad blood and are cured by Hood's Sarsaparilla. Every person who has scrofula, salt rheum, humors, catarrh, dyspepsia or rheumatism should at once begin taking this medicine that the infirmity may be promptly removed.

The Queen's Ice Chest.

The stores of ice at Windsor, Osborne and Balmoral castles are very large. At Windsor there is storage room for about 500 tons. There the supply is obtained from the lake beneath the north terrace, from Frogmore and Virginia water. Ice is not only lavishly used in the royal kitchen, but also for reducing the temperature of her majesty's apartments in hot weather. Then it is packed in pretty wooden buckets and stood in the fireplaces.

A Land of Promise.
Rev. Joseph Parker, the eminent English preacher, confesses that in his youth the sound of the name Van Diemen's Land—now known as Tasmania—powerfully affected his imagination. It was to him, as it has been to many youngsters, an appealingly mysterious place, but in time it lost its evil suggestion, and he tells how this came about in his recent book: "A Preacher's Life." At a Methodist meeting in the north of England the people had been singing a hymn in which the line: "We are marching through Emmanuel's ground," occurs, and at the close of the hymn one good old man, whose emotion was in excess of his intelligence, fervently prayed: "Grant that when this life is over every one of us may have a cottage in Van Diemen's land." The poor man somehow got it into his head, by some law of mental association which no one can fully explain, that Emmanuel's grounds and Van Diemen's Land were practically one and the same.—Youth's Companion.

SALT LAKE CITY.

An Important Factor in Transcontinental Travel.

No one crossing the continent can afford to cut Salt Lake City from his route. The attractions of the place, including the Mormon Temple, Tabernacle and Church institutions, the Great Salt Lake—deader and denser than the Dead Sea in the Holy Land—the picturesque environment and the warm sulphur and hot springs, are greater to the square yard than any locality on the American continent.

The Rio Grande Western Railway, connecting on the East with the Denver & Rio Grande and Colorado Midland Railways and on the West with the Southern Pacific (Central Route) and Oregon Short Line, is the only transcontinental line passing directly through Salt Lake City. Commercial and Financial Happenings of Interest in the Growing Western States.

Alaska Criminal Code.

A bill has been framed by Senator Perkins to amend the criminal code which was adopted for Alaska at the last session of congress. In this bill, Senator Perkins prohibits the construction of barricades in streams for the purpose or with the end of preventing fish ascending the streams or rivers of Alaska. It is provided that it shall be unlawful to fish for salmon except with rod or spear, above the tide waters of any creek or river of less than 500 feet width, except for purposes of propagation. Seining or catching fish in these streams for a distance of more than a third of the width of the stream is prohibited, and no seine or other net shall be laid within 100 yards of another. Fishing for salmon in the waters of Alaska from 6 p. m. Saturday until 6 a. m. on the following Monday is also prohibited, except in Behring sea and its tributaries. The secretary of the treasury is authorized to set aside whatever streams he may desire as spawning grounds, when he may consider that fishing operations on such streams are being conducted so that the number of salmon taken is larger than the capacity of the stream to produce, or if the fishing operations prevent a sufficient ingress of salmon to the spawning grounds, he may establish weekly closed seasons, to limit the duration of the fishing season, prescribe the volume of the catch at such places, or prohibit it entirely; provided this action is taken after the persons interested have been given a fair hearing in their own behalf.

The secretary of the treasury is also authorized to require the erection of salmon hatcheries of suitable capacity at any fisheries or fish establishments in Alaska, which are to be maintained by the persons operating the fishery, cannery or saltery.

Money to Push Railroad Building.

The Bellingham Bay & British Columbia railroad has given a trust deed to its property in Whatcom county to the Bank of California to secure the payment of \$1,000,000 in first mortgage bonds. The deed was executed in San Francisco on December 1, and was filed for record in the auditor's office in Whatcom county on January 23. The document is the most voluminous of any ever filed there, and it required \$499.50 in revenue stamps. It is the purpose of the company to pay off an indebtedness of about \$60,000 on the road, and the balance realized from the sale of the bonds to the Bank of California will be used in construction work. The instrument calls for the completion of 24 miles of additional track this year, on which will be issued bonds \$17,000 per mile. This extension is the one now under survey from Sumas to Boulder Creek.

STRENGTH OF STAPLES.

Leading Feature of the Trade Situation This Week.

Bradstreet's says: The strength of staples, and particularly those of agricultural origin, is the leading feature this week, at least. In general trade, weather conditions have not favored a big distribution, but, compared with a year ago, are still quite favorable. Enlarged speculation is reflected in increased bank clearings, and comparisons with last year are again encouraging, while gains over years previous to 1899 are very marked. In strength of demand, and size of advance, cottons are still easily first. Although the crop movement has noticeably enlarged so active has been the demand for foreign spinners that fully 88 cents advance is shown.

The strength of the raw sugar position has been further increased this week by bullish reports from European beet markets, and the expectation that receipts of cane sugars are apt to be light in the future.

Fine grades of wool are quiet, but there is still an urgent demand for medium grades, and quarter-bloods sell better, considerable imported wools having changed hands in Eastern markets.

A further gain in blast furnace capacity is noted. Current production is now little below 16,000,000 tons yearly, and some increase of stocks is shown.

Wheat (including flour) shipments for the week aggregate 2,902,357 bushels, against 2,724,937 bushels last week, 5,580,500 bushels in the corresponding week of 1899.

Business failures in the United States for the week number 231, as compared with 171 last week, 193 in this week a year ago, 478 in 1898, 301 in 1897, and 381 in 1896.

THE OLDEST MAN IN AMERICA

Tells How He Escaped the Terrors of Many Winters by Using Peruna.

Mr. Isaac Brock, Born in Buncombe Co., North Carolina, March 1, 1788. Says: "I attribute my extreme old age to the use of Peruna."

Born before United States was formed. Saw 22 Presidents elected. Peruna has protected him from all sudden changes. Veteran of four wars. Shod a horse when 99 years old.

Always conquered the grippe with Peruna. Witness in a land suit at age of 110 years. Believes Peruna the greatest remedy of the age for catarrhal diseases.

Very truly yours,

Isaac Brock, a citizen of McLennan county, Texas, has lived 111 years. He now lives with his son-in-law at Valley Mills, Texas.

In speaking of his good health and extreme old age, Mr. Brock says:

"After a man has lived in the world as long as I have, he ought to have found out a great many things by experience.

"One of the things I have found out to my entire satisfaction is the proper remedy for ailments that are due directly to the effects of the climate.

"During my long life I have known a great many remedies for coughs, colds, catarrh and diarrhoea. I had always supposed these ailments to be different diseases, but in reading Dr. Hartman's books I have found out that these ailments are the same and that they are properly called catarrh.

"I had several long sieges with the grip. At first I did not know that Peruna was a remedy for this disease. When I heard that la grippe was epidemic catarrh, I tried Peruna for la grippe and found it to be just the thing.

"As for Dr. Hartman's remedy, Peruna, I have found it to be the best, if not the only, reliable remedy for these ailments. It has been my standby for many years, and I attribute my good health and extreme old age to this remedy.

For a free book on catarrh, address The Peruna Medicine Company, Columbus, Ohio.
