Bounty for Seal Scalps Chairman Kendall, of the fisheries committee of the Astoria Progressive mmercial Association, is circulating petition among the canners and those ost directly interested for subscriptions for a fund to be used in paying s bounty of \$1 each for seal scalps and \$2.50 each for sea lion scalps. fund is to be placed in the han is of the secretary of the association and warrants drawn against it by the fish commissioner. This subscription list is the result of an effort being made by the association to exterminate one of the greatest enemies to the fishing industry. It is claimed that a sea lion will devour four salmon every 24 hours, and as there are at least 2,500 of these animals hovering about the mouth of the river, 10,000 fish or 4,000 cases, representing about \$13,360, are being destroyed each day. The intention of the association is to have the la amended so as to set aside a portion c the license money for paying this bounty, but this cannot be done until the next session of the legislature, and in the meantime the funds are to be raised by subscription.

14 Years for Highway Robbery. Martin Everett, an American citizen, cas sentenced at Vernon, B. C., to 14 rears' imprisonment for highway robbery, alleged to have been committed about a year ago at Grand Forks, B. C. Six months ago the case was laid before United States Consul Dudley, and he presented it to the state department at Washington, D. C. The sentence caused great surprise, as it was known that the case had become an international matter. Consul Dudley to-night apprised Secretary Hay of the sentence. His prior representations to the state department were favorable to Everett's contention that his arrest by Canadian officials at Republic, Wash., was unwarranted.

BRADSTREET'S REPORT.

Inactive Demand and Weaker Prices

Bradstreet's says: The trade situation this week may be summed up in the phrase, inactive demand and weaker prices. While in many respects the industrial situation is easier than it was, the unsettlement in the building trades continues marked, the reflex action being exhibited in the unsettled demand for building material and weaker prices for lumber and for many products used in the building industry. Iron and steel buyers are still holding off, most of the business done being for small lots for immediate consump-

Relatively good reports come from the retail trade at most centers, notwithstanding the backward spring, but as yet the volume of reorder business from wholesalers and jobbers has proved disappointing. Finished cotton and woolen goods remain steady.

Wool is weaker, owing to the restricted demand from manufacturers and in sympathy with lower prices set at many grades at the London wool

Relatively a good report comes from the distribution trade in shoes, but manufacturers are hanging back in their purchases of leather, and hides are rather weaker.

Relatively the best trade reports still come from the Pacific coast markets, but better weather conditions at the South have tended to brighten trade reports from that section.

Wheat, including four, shipments for the week aggregate 3,480,704 bushels, against 5,537,022 last week. Business failures in the United States for the week number 174, as compared with 153 last week.

Useful Kitchen Table.

A clever housewife has devised a kitchen table which is most servicable, especially in a small room. She had a "Offered you money, I suppose?" carpenter make a second top for the "Oh, it wasn't that," replied the ordinary table and had it fitted on to that with hinges at the back. The top shuts down tightly over the table and is used for the daily service, but when bread or pastry is to be made, it is raised, and a fresh pine surface, never used for anything else, is ready.-
