The following platform was adopted by the convention:

We, the representatives of the Democratic, Peoples and Silver-Republican parties of the state of Washington, assembled in joint convention this 29th day of August, 1900, respectively reaffirm our faith in the principles enunciated by our respective national

conventions; and we pledge our earnest support to the peerless representatives, of the people, William Jennings Bryan and Adlai E. Stevenson. We still believe in the Declaration

of Independence, and therefore hold it aloft in preference to the imperialistic policy of the Republican party. We oppose trusts and combinations which corner the products of industry

and levy tribute on the people. We denounce these twin relics of barbarism-imperialism and militarism-whether in the form of trusts at

home or greed of conquest abroad. We pledge our repersentatives in congress to work for the passage of a measure providing payment for the time consumed by our state volunteers in the late war with Spain.

We favor just and liberal pensions to the true and faithful soldiers of the United States, including the gallant Indian war veterans. We demand such legislation as will

insure to the farmers and producers of the state of Washington a reduction of freight rates and fares to a just basis.

We demand the manguration of such measures as shall give the people the right to express themselves, when they so elect, upon all important questions, by the system known as direct legislation.

We commend the official conduct of all our state officers, and call attention to the contrast between the present excellent financial condition of the state and the blight and ruin prophesied by the opposition to surely result from the election of our state officers.

We commend the wise, courageou and patriotic manner in which the Hon. George Turner, our representative in the United States senate, has defended the honor of his country and fulfilled his duty to the people of the state of

It is found that under the new conditions of American government, Honoluiu is a very heavy exporter of gold to the United States, and local financiers

are thinking of means to stop such shipments. The exportations are due to the custom-house collections. Honolulu has no money except what comes from the mainland and the heavy drain, it is thought, will have had ef fects upon the local money market. Efforts are being made to take advantage of a United States law which allows for the depositing with assistant treasurers of money for duties to be

edliected, in such cases vouchers for he cash to be taken by the collector •re instead of money. As the cash

reposit at San Francisco would be kept ap by sugar buyers there, this would put an end to heavy go'd exportations

from Hawaii by the customs department. It would also result in saving a considerable som of money now being paid for constant importations of gold,

only to have the gold sent pack to the coast.

constant use of alum? Mr. Mason-Yes: I can turn you to

the testimony. Mr. Pettigrew-I do not care to have

the senator tarn to it. I simply want to emphasize the point. I agree with the senator. It has always been my own impression that alum baking powder is injurious, but I wanted to bring it out and make it emphatic, if the

proof sustains that position.

Mr. Mason-I quite agree with the senator. It is claimed that there is not a country in Europe that does not prohibit the use of alum. Certainly three or four of the leading countries of Europe to which I have had my attention called prohibit the use of alum in baking powder.

Mr. Pettigrew-Did the chemists who came before the committee, these professors, generally testify-was it the

result of their evidence-that the cream of tartar baking powder is healthy and does not leave a residuum which is injurious to health?

Mr. Mason-Yes; I say emphatic ally, yes; that the weight of the evidence is, that whenever any of these distinguished men, who have a national reputation, the leading chemists of the colleges, were interrogated upon the point, they stated that fact, every one of them, to my recollection.
