

LIGHT VOTE IN WASHINGTON COUNTY

Election Day Passes Very Quietly.

HUNDREDS STAYED AT HOME.

Was a Good Day for Farm Work—County Strong for McKinley.

Washington county has cast its ballot and the result gives McKinley and Roosevelt a big majority. The vote was several hundred under the registry, the stay-at-home vote being very large. It had been one of the quietest presidential campaigns in the history of the county, but no one thought the vote would be as it was. The Bryan committee had hoped to keep the McKinley plurality down to 300 or 400, while some republicans expected to see 700 or 800 for their candidate. The unofficial vote is:

Table with 2 columns: Candidates and Votes. Includes names like Hayes, Cleveland, McKinley, Roosevelt, etc.

When the vote was tallied, the result was a surprise to many. The vote for McKinley was 1040, and for Roosevelt 1105.

Now is the time to subscribe for THE ARGUS.

Connell, near this city, are displayed in the window at 246 Washington street, Portland, where the permanent display of Oregon productions and resources is exhibited. One of them weighs 148 pounds and the other a few pounds less. Mr. Connell says they were grown on a new land, on which no fertilizer was used. He planted a quarter of an acre in squashes. He does not know of what variety, and he has harvested a great many tons, and there are on the patch at least 100 more as large as those sent in to the exhibit.

A few gates more or less displaced and a few changing of signs are not so bad, but parents should teach their sons that destruction of property, or turning over of buildings which cause property owners expenditure of cash, is as bad as theft.

Herman Schulmerich Man-aging the work.

TWO HUNDRED ACRES OF A PLACER.

Will Take an ordinary life time to Clean up the Placer.

Herman Schulmerich, ex-postmaster at this place, has returned and says that he is more than satisfied with the investment he and his Hillsboro friends have made in the Sumpter placer district. He will remain here until spring and then return and operate the placer throughout. They will have plenty of water to work the 200 acres of gravel in which there is gold in good paying quantities. There remains but 700 feet of pipe to be laid to complete the mine for operation. Within two days after his return water will be turned on and gold washing will commence. It will take an ordinary life time to wash the entire placer.

SOME POINTED LINES.

HILLSBORO, Nov. 5, 1900. (EDITOR ARGUS)—As I witnessed the aftermath of Halloween in this city, I was prone to ask myself "What is there in this Halloween subject, anyway, that gives you the right to tear up and destroy property at this time more than any other? And what sense is there in the celebration of this night in this manner?" I am now and always have been, of the opinion that it is the worst of tomfoolery, and heathenish, and should be discouraged by parents and press alike. Why is it that our school boys throughout the country engage in this outlandish practice more than any other class of individuals, when the very property they destroy is the property of taxpayers who support the schools and give them their education? One instance, the tearing up of the sidewalk at the residence of Mrs. Walker, a widow, in the southeast part of the city, is an instance of petty meanness that should not go unnoticed. Here is a woman along in years who pays taxes to support school, and if you have one reader who can supply any reason or excuse for such unlawful practices, let us hear from him or her. Let parents labor and hope for a better state of morals in Hillsboro.

O. C. Zook.

Election Day was the finest of the fine, especially in the afternoon. The forenoon was rather raw and damp but the sun came out later on and the afternoon was as balmy as springtime. The little animal was foaled by Beulah, a full sister to Chehalis, the noted pacer. Mr. Reeves clears over \$350 on the colt and this makes it a good investment. Wm. McQuillan, who has a splendid 16 months' colt, Wayne Megro, sired by Lovelace and foaled by Etta James, has been offered \$250 for the youngster.

An accident, both sad and strange, says the Oregonian, resulted in the death of Raymond Oliver Miller, the 4-year old son of F. A. Miller, who has charge of the Ladd farm, three miles and a half out on the Canyon road. The boy was thrown in front of a log rolling down hill and crushed to death. About 5 o'clock Monday afternoon, the boy had gone walking over the farm with his father and brother. Coming to a hill, Raymond asked his father to roll a log down it. In order to amuse the boy, Mr. Miller got a log all ready to roll for the youngster to start. In starting the log, in some unaccounted way the boy's clothing was caught upon the log, and he was carried over by it and thrown directly in its path. In a second, before the terror-stricken father could act, the log had passed over the boy, crushing and mangling his body in a terrible manner. Death came instantly to relieve his suffering. No inquest was held.
