

GREAT GAME BILLED FOR NEXT SUNDAY

Upchurch Lodge Nine Will Play Diamond W's.

TWO COACH LOADS ARE COMING

Golden West Defeated Local Team Last Sunday by Score of 10 to 9.

Next Sunday promises to be the most exciting of any of the baseball contests yet pulled off in this city. Upchurch lodge, of Portland, has a nine made up of Portland's best amateur players, and they will come to this city with two coach loads of friends to try to beat our Diamond W boys.

Lovers of good ball must turn out and witness this game. We are going to beat them if it is in the marrow of our boys to do it. In the game last Sunday Harry Cook played the finest all-round ball yet seen on the Hillsboro diamond.

There will be friends of both nines out from Portland, and there will be plenty of "rooting." Come out and see the game. It will be exciting, and all look out for a victory. The Diamond W's have suffered but two defeats since organization, and both of these were due to errors. The boys will play ball from the first to the ninth—come out and see them. We are going to be in it this time.

After the first game was played last Sunday, came the game between the married men and singles. This was the game of the day, because more errors were made than in any ten games ever played in the county. The lineup was:

The score by innings: Youngsters. Oldsters. Chas. Wann c A. C. Shute C. Mitchell p H. T. Bagley C. Jack 1 b W. A. Finney Dorr Waggener 2 b Ed. Wann Jas. Butler 3 b U. G. Gardner Chas Bower ss L. A. Long Chas Lamkin rf O. G. Wilkes C. T. Allison cf Bud Otis H. Archbold lf F. Olsen

Had the game been sixteen innings, the married men would have won. As it was, from the fourth inning, when the score was 18 to 2, to the last inning, they scored 18 times to the singles 13. This showed that the married men were just commencing to play (?) and nothing but the arbitrary nine innings blocked them. Fred Olsen and Bud Otis distinguished themselves by not letting the pitcher hit their bats—yes, Otis' bat was struck by the ball once during the game. The singles did very fair batting, but they were not in it with the balance of the married men, after Otis and Olsen are considered. Shute, Gardner, Finney, Long, Bagley, Ed. Wann and O. G. Wilkes did very fair stick work, the first five never fanning at all. Twice the married men had to get four out before going to bat. This was not fair, at all. Besides this discouraging incident, the grand stand was in sympathy with the single men, owing to the gaudy suits of Chas. Lamkin, Dorr Waggener and C. T. Allison. The score stood 31 to 20 in favor of the single men at the end of nine innings.

Go to McCormick's to get your furniture. He is the cheapest in town. The dry weather is playing havoc with green pasturage and the consequent result is a decrease in the dairy product. Up in the hills there is more green forage than down on the plains, where the grass is practically burnt up, except in the river bottom sections. Bob Greer will sell you bacon and hams cheaper than any place in town. H. Taylor Hill, of Prineville, who owns the John Harrison ranch, near Mountaineale, was in town this morning, having just returned from a trip to Kansas City with a train load of horses. He expects to return here again and take in the street fair.

You can save money by buying your bicycle sundries of O. G. Wilkes. Peter Schmoker, of Lenox, fell from a load of straw last Thursday and suffered a serious dislocation of the shoulder. His team ran away and bumped the wagon against a post. The shock threw the driver to the ground, the dislocation following. Don't forget to have the streets in repair for the Native Son's Carnival.

Wilson Brock, accompanied by Mrs. Brock, were in the city yesterday, guests of Dr. J. E. Adkins and wife. They are on their return to their home in Pendleton, after a sojourn at Newport.

Deering standard twine, at 104 cents, at Southerly Bros.

Teamsters say that the roads are deeper with dust than they have been for years. But, never mind. The mud will be getting along here before very long, and then we will have something to kick about.

Girl for housework wanted. Inquire at Aroux office.

T. Courtney, of Ballard, Wash., where is interested in sawmilling, is here this week, the guest of his brother-in-law, J. C. Hara. He thinks we have a fine county here—and he is right.

Miss Winnie Rouaine, of Tongue's law office, is away for a summer vacation.

The Hillsboro High School will not open until the 30th of September. This late date is set for the purpose of permitting those who wish to go to the hop yards without losing attendance at school.

Buy your bacon and hams at Greer's; he is the cheapest. If the city shall run its water plant as soon as it is turned over for the time being J. J. Rector will be first man and O. G. Wilkes, second man. Others are figuring on the work, and this arrangement is said not to be permanent, although it may be.

Walter Karsteter, the 15-year-old son of the late John Karsteter, and who is working on the Reedville farm, while picking fruit this morning, ran a broken twig in one of his eyes, and the injury is quite serious, although it may not impair his vision. The plucky little lad rode clear to this city to see Dr. Linklater before getting the obstruction removed. He will be laid up for some time.

Ladies, attention! Embroidery silks, washable art silks and doilies at Wehrung & Sons.

It will no doubt please the many friends of Reasoner & Hiatt, the Gales Creek saw mill men, to know that after an invoice of what was left after their fire, they will be able to meet all obligations with one hundred cents on the dollar. The fire was a hard blow on them, but they will yet get to the front. The blaze was caused by a spark from the smoke stack.

Lost—On Cornell road, between Portland and West Union church, a gentleman's tan shoe. Will find or please leave at Bethany post-office.

The top notcher, so far, is the yield on the John Kamma farm near Farmington. He raised thirty acres of oats which went 70 bushels to the acre, and in another tract of 60 acres the yield was 47 1/2 bushels. The grain is of the best milling variety, and we are waiting for a yield that will go this "one better." Oats seem to be in it this year, everywhere, and the acreage is large as compared to last year.

Do not fail to get Fly Bouncer at Greer's and keep the flies off your cows.

The 15-year-old son of D. Wenger, of the North Plains, who was struck in the abdomen with the blade of an axe which had parted from the helve while his father was chopping Thursday last, is getting along nicely and will suffer no permanent injury. Mr. Wenger was felling a tree when the accident occurred.

Schulmerich Bros. is the place to get vehicles, buggies, hacks and farm wagons.

Dr. F. A. Bailey, mayor, has received from Astoria, an invitation for himself and council and other city officers to attend the Regatta, which takes place at the seashore city August 29, 30 and 31. The mayor has returned the compliment by sending an invitation to the Astoria city officers to be with us on the dates of the Street Fair.

HIATT-REASONER SAW MILL BURNED

Loss of Four Thousand and no Insurance.

WAS LOCATED- ON GALES CREEK

Chas. Hiatt and D. B. Reasoner, ex-County Commissioners, Owners.

The saw mill owned by Hiatt & Reasoner, situated above Gales City, was burned Monday afternoon, a total loss of \$4000, as there was no insurance. The mill has been running steadily on orders for some time, and the loss will be a severe one to its owners. Mr. Reasoner, who was county commissioner for two terms, purchased an interest in the mill shortly after leaving the commissioner's office, and in losing the mill he has played in hard luck. Dorsey has many friends in Washington county who will sympathize with him in the loss. Mr. Hiatt, the partner, and original owner of the mill, has been in the lumber business at that point for a long time, and the loss comes hard on him. The mill last year and the year before sawed on orders for eastern shipment, as well as for local trade, and the business was just getting to that point where it was worth much to the owners.

Hot weather is endurable if you have a neat, palatable meal. Get this by getting your groceries at Dennis'. Don't forget that he keeps the finest lunch meats in town.

Last Monday while F. M. Heidel and Mr. Barnes were driving to Farmington a huge tree which was burning in a slashing fire fell directly in a line toward the occupants of the buggy. Had the tree been ten feet longer the vehicle would have been smashed. As it was, it was a pretty close call, and limbs and debris promiscuously flew around the travellers.

Lost or strayed—Black colt, with white spot in forehead, heavy even cut foretop, and when she left halter and girth on. Address, Mrs. Joseph Zimmerman, Farmington, Or.

Harry Crane, for years a resident of this county, but now a ranch and stockman of Mayville, Eastern Oregon, was in town the first of the week, a guest at the Tualatin. For several weeks he has been in poor health, and has been rusticated at the springs near Cascade Locks. He returns this week to his bunchgrass home. Three Cotswold sheep, bucks, one, two and three years old, for sale; also a Jersey bull, four years old. Apply to John O'Meara, Baseline road, or address at Reedville, Ore.

Rev. Father Black, of Portland, was out Monday, looking after the Catholic interests in this section. He is going to have work resumed on the Catholic church in this city at once, and have the building ready for dedication as soon as possible. Already there is being some work done on the edifice, and it will not take very long to finish.

This is the season of the year when you should patronize grocers who keep new and clean stock. Go to Dennis for first-class groceries.

Frank McEldowney, who is managing two of Ladd's farms near the Oregon metropolis, was in town Monday, and went out to West Union. He says that this county's crops compare more than favorably with any he has seen this year, but that we are somewhat long on dust.

E. L. McCormick has received his new stock of guns and ammunition. The season for shooting all kinds of game will soon open. It will pay you to call and get his prices.

W. L. Moore, Greenville's merchant and hop grower, was in town Monday evening, and reports things as moving along nicely on his way. He says that hops are a fine quality, but that old yards are rather poor stand this year—the complaint we hear from all parts of the county.

If you think a guarantee on a bicycle amounts to nothing, call at McCormick's Bicycle Store and investigate.

It is reported that Geo. Bacon has traded his livery business for the saloon business of John W. Corey, of Cornelius. Mr. Bacon has been in the livery business at Forest Grove for a number of years.

Yale & Snell bicycles at O. G. Wilkes' bicycle store, two doors north of Hillsboro hotel.

A log bridge across Cedar creek, near the Wm. Schulmerich place, has been burned and the county will put in a bridge and fill as soon as possible. That some one must have set fire to the old structure is the generally accepted opinion in that section.

Lost—Full blood Jersey, yellow cow; medium size. Small, crooked horns. Notify Fred Peterson, Cedar Mill.

J. H. Collier and wife, of Scholls, have returned from a month's trip to Ballard, Seattle and Puget Sound points, where they were visiting relatives. Herman thinks he likes the Sound country, and says that times are quite lively over there as compared to Oregon.

Regular services at the Evangelical church next Sunday morning and evening, after which there will be no preaching until the first Sunday in October, as the pastor will be absent on his summer vacation.

L. W. House and family have returned from a trip to the coast below Seaside, and tell a good one in District Attorney Allen, who has been spending his vacation in the same section. Mr. Allen and a friend went out one afternoon to get a deer and do a little fishing, and, losing their way, they were forced to spend the night in the woods. House had a close call to losing part of his head. He was out fishing one day and a large piece of turf fell from a projection above him, knocking off his hat. Had it struck a few inches back we would now be laying him away in the cemetery west of town. But a miss is as good as a mile, and much better than a hit in this instance.

There is one thing that this town needs—and it needs it bad. That is a watering trough. Farmers come to town, bring feed for their teams, and are obliged to go beg water somewhere for their animals. It is to be hoped that the city, now that it is about to own the plant will give this worthy subject some attention. A watering trough is needed as a matter of decency and respect for the animal world. Let us have that supply by all means.

Threshers are getting two cents this year.
