Opposed to Gold Mono-metallism. Believes in the Bimetallic Standard. Dear Money means Debased Property, and Profitless American Product. Our Consequent loss is our Creditors' Gain. Has no use for Marcus A. Hanna

If the Isthmian canal shall pass both houses of Congress this session it will be a surprise to the many who have watched National legislation on this great proposed water way for years. Tactics of delay are already being furthered at the threshold of the Senate, and when the measure gets back to the House it will not be known by its friends.

It is really very funny, and quite in the comic opera line in one aspect of it: "Capt. Chadwick, of the New York, gets \$14,025 in prize money as the result of the naval battle of Santiago, although his craft did not fire a shot and was nearly ten miles away at the time of the surrender of the last ship in the Spanish fleet. His share is nearly one hundred times more than that of Admiral Schley, who has been awarded \$149.—Oregon City Herald.

ARTHUR H. NOYES, the Alaska Judge who made himself so obnoxious by his contemptible decisions against beach miners in Nome has been fined \$1000 for contempt of Court. Noyes was the tool of the big mining ring that appeared to have the sanction of the former administration in its nefarious reign at Nome. Evidently the money behind this thieving company, of which Noyes was the tool, contributed its opulence to keep Noyes from going behind the bars where he belongs.—Oregon Independent.

WHEN the campaign advances the Oregonian will forget all about the injustice we are doing to the Philippines in the matter of tariff, and all about the injustice of the trusts, and the robbery of the trust barons, and get in and howl for the only blue blooded party in existence. It's easy to back-back. It was very easy for the papers to gig and bolt down the anti-expansion ideas after Mr. Hanna had declared them to be improper, and it will be as easy for the kickers to get back into line on the matters of trust and Philippine injustice.

THESE are getting interesting in Multnomah county for Senator Simon. The commissioners' court of that county recently appointed the judges and clerks of elections, and the Oregonian contends that they are all members of the Simon machine, excepting those who were sandwiched in where they would do no harm. As a matter of fact, there are many on that list who have been judges and clerks of elections in the past, and who then were counted as the most intelligent and honorable citizens of the county. They then belonged to no machine—but of a sudden, a change comes over the spirit of the dream—and they become "machine men." Well, what of it? A machine man is just as virtuous now as a year or so ago, is he not? Whose ox is getting gored? Whose ambition is getting bagged in the knees? Will not these men count as honorably in the future as they did in the past, when gun-plays were made by their masters in the interest of "decent" politics? Go to, kickers! Simon and his politics are rotten enough, God knows, but "Father of Abraham" give the Jew his just deserts. He is no better nor no worse than when he was a little tin god and led the "only honorable men" in Multnomah county to defeat and victory.

EVERY few years our friend, Hon. E. W. Scott, is mentioned as a United States senatorial possibility. Mr. Scott would make an excellent senator—only for the facts that he is a monomaniac on the money question, standing always for the debasement of product; a procurer for bank rag money; a tiddler on tariff, being bribed and between and never right,

entirely; a palterer on the trust question, yet standing in with trusts when it comes along election time. But for these few little idiosyncrasies, The Argus would humbly support Mr. Scott for United States senator. And for these unrighteous characteristics he is to be denied the support of this religious journal—and he is also wrong, by the way, on the prohibition question. We humbly submit that Scott is not acceptable to The Argus. Personally, he is a nice gentleman; politically, he is the greatest and most unmitigated dirt in the Oregon political arena. We all remember how he flirited with the imperial idea, only to favor Philippine retention when forced by the bosses.

Gov. Geer is having plenty of company these days. Every little politician from Baker to Ashland is out after the nomination that should go to Geer as a matter of party usage. The tall sycamore of the Waldo hills may have to go back to his farm, after all, before he has had the honors of the office two terms.

Oregon will give the best exhibition in 1902 that has ever been shown to people of the United States. The Northwest has abundant resources and can exhibit anything, and of the best, from a gold mine down to fruits of the minor order.

Senator Simon is to return to Portland and take part in the primaries. This means that the Hon. Joseph is in trouble and that he feels that he has a hard fight to make—now that the big daily has deserted him. But why has it deserted him?

The Hillsboro Commercial Club is to entertain the visiting State Dairy-men next Fall—and they will do the host role admirably.

One of the leading gypsies, of the camp south of town, had an altercation in the livery barn last night with E. B. Sappington. It seems that the gypsy went there to procure a team to have himself taken home. He was loaded with booze and Sappington refused to hitch up a team. Blows were exchanged and the man finally put out of the barn. Later on he was arrested and placed in jail over night. He had his trial before Justice Everitt this afternoon. After hearing the evidence, Judge Everitt concluded that the defendant was guilty and imposed a fine of ten dollars and cost. In default of the fine the prisoner was committed to the county jail to serve out the imprisonment.

THE COMMONER

(Mr. Bryan's Paper.)

The Commoner has attained within six months from date of the first issue a circulation of 100,000 copies, a record probably never equaled in the history of the American periodical literature. The unparalleled growth of this paper demonstrates that there is room in the newspaper field for a national paper devoted to the discussion of political, economic, and social problems. To the columns of The Commoner Mr. Bryan contributes his best efforts; and his review of political events as they arise from time to time can not fail to interest those who study public questions.

The commoner's regular subscription price is \$1.00 per year. We have arranged with Mr. Bryan whereby we can furnish his paper and The Argus, advance subscription, together for one year for \$1.50. The regular subscription price of the two papers when subscribed or separately is \$2.00.

WOMEN AND JEWELS.

Jewels, candy, flowers; man—that is the order of woman's preferences. Jewels form a magnet of mighty power to the average woman. Even that greatest of all jewels, health, is often ruined in the strenuous effort to make or save the money to get them. If a woman will risk her health to get a coveted gem, then let her forfeit herself against the insidious consequences of coughs, colds and bronchial affections by the regular use of Dr. Boschee's German Syrup. It will promptly arrest consumption in its earliest stages and heal the affected lungs and bronchial tubes and drive the dread disease from the system. It is not a cure-all, but it is a certain cure for coughs, colds and bronchial troubles. You can get Dr. G. Green's reliable remedies at The Delta Drug Store, Get Green's Special Almanac.

Which Would You Rather Keep?
