ARE YOU AFRAID?

Are the citizens of Oregon afraid of themselves? Is it possible that we have citizens who would rather have the mercy of legislation turned over to politicians, forever and aye, than to have organic law which would permit legislation and repeal by general acclaim? It is, indeed, amusing to hear some of our sainted politicians talk about the direct legislation amendment as a delusion and a "populistic" measure. As a matter of fact direct law-making would make the people masters instead of leaving them to the flimsy legislator. If a man have intelligence enough to vote for the best man he should have sense enough to vote for the best measure—opportunity given. The Direct Legislative Amendment would give our citizens that opportunity. It simply means, if carried, that voters make themselves the State, and it means further, that if they want a law passed, that they have the means of doing things. It is inconceivable that the rank and file of voters should permit politicians to prejudice them against a measure that insures simplicity and effectiveness in general state affairs. Let every man not controlled by bosses see that he votes "yes" for the amendment. This will be a greater victory than any partisan score that could be imagined.

BUT THE AKHOOND IS DEAD

Next to a fat "commissionership," and there are many such under a republican administration, the delectable task of "representing" this government at coronations promises to be the most sought after. The selection of representatives to attend the coronation of King Edward will necessitate the selection of similar representatives at other coronations. The King of Spain is soon to be crowned, and that will afford another opportunity for American flunkies to low low and salaam at the feet of royalty. It seems, too, that there is no lack of Americans anxious for the job. We may confidently expect to be represented at the coronation of the Grand Pandrum of Belgium, the elevation to the throne of the High Cockalorum of Kibosh and the conferring of the sceptre upon the Akhoond of Swat—unless the American people recover from their spasm of imperialism and insist upon a return to the plain, simple, honest and unaffected ways of the fathers.—The Commoner.

THE United States should have a canal between the two American continents, and the government should control that water-way, without any alliance to say her no at any time. The Nation's coast lines demand this, and no less. The cut-off should be fortified with American guns and it should be American property, even if we should have to whip a half dozen countries for that control. If the Nation wants to expand, here is a chance not to be overlooked. Meantime, let those tuff-hunters who think we are still sucker enough to take J. B. into partnership on such a good thing spend their time furnishing charts of our coast defense for the "Mother Country." And let them go over the pond to engage the necessary draughtsmen. If we are going to expand, let us have some good old fashioned American expansion, and not play chestnut raker for those who have despoiled us whenever opportunity offered.

Since the administration has seen Groundhog Babcock's shadow it is safe to say that the tariff winter shows no sign of breaking—a fine prospect for the trusts with a good amount of flannel.

The prompt conviction, sentence and execution of Wade and Dalton, the two murderers of young James Morrow can but meet with sincere and earnest approval from all law-abiding citizens. Governor Geer for once proved himself the right man in the right place in refusing to answer affirmatively in the appeal for executive clemency. Murderers are murderers, and should meet with justice, summarily and in due form. These men received sympathy only from the maudlin classes, and it was a sympathy pathologically in the wrong. Society is the gainer by the celerity with which they were jerked to eternity, and society is only shocked by the public expressions of conversions by Dalton. Multnomah county should keep up her newly acquired reputation as a swift avenger of crime. Doing this, that commonwealth will soon outlive her reputation as a haven for the criminal classes.

MR. BABCOCK, of Wisconsin, is truly having a very hard time for a man imbued with the taint that robbery is unrighteous, and class legislation un-American. He has been sat upon by the flunky press of bank sympathies, and harassed by the trust managers. The Argus predicted many moons since that the efforts of men like Mr. Babcock would come to naught. Just so long as the corporations are the fountain head of legislative inspiration just that long the American people must expect Democratic ideas to be nominated as rot, even if those ideas are advanced by a pretty fair sort of a Republican. Mr. Babcock will now "Go Way Back and Sit Down."

Is it possible that the newspapers of the Willamette Valley are that busily engaged in wrestling with General Prosperity that they are deaf and blind to the needs of a decent fish way at the falls of the Willamette? The state could not better spend a few thousand dollars to give salmon a channel to the upper river. But the Republican papers seem to be too busy waiting to hear the word go out from the Bosses while the reform papers are scanning the stellar way for an issue.

CAN it be possible that this great administration has intentionally overlooked Hon. John Barrett, of Oregon and Siam, as representative of this empire at the coronation ceremonies? If John could not fill the bill, and fill it brimming full, then none others need apply. John's non-appointment is one of the grave omissions of the Roosevelt administration.

FROM THE COMMONER.

The British taxpayer should prepare himself for another stagger.

The Shaw presidential boom seems to have acquired sudden terminal facilities.

Perhaps the canal commissioner is suffering from an attack of that Justice-brownish feeling.

The canal commissioner seems to be having a regular supreme court sort of a time making up his mind.

The lobby that is working to prevent the entrance of free sugar is usually very free with the "sugar."

The consolidation of the steamship lines is an indication that the subsidy promoters feel quite certain of success.

American representation at the coronation of King Edward offers an inviting subject to composers of comic opera.

After Prince Henry returns home it would be embarrassing if President Kruger should happen to come over on a visit.

The administration organs continue to take a tearful interest in the efforts of certain gentlemen to "reorganize" the democratic party.

It is to be hoped that when Admiral Evans sails out to meet Prince Henry he will not become excited and blow the bow off the royal ship.

King Alfonso of Spain will be declared "of age" on his sixteenth birthday. Our Spanish friends lived and learned very rapidly during the past three or four years.

The 22nd of this month is the anniversary of George Washington's birth, and it is safe to assume that General De Wet will celebrate it just as a reminder to the American republic.

King Edward told parliament that the war in South Africa is now "nearing its close." The shrewd gentlemen who dispense gold bricks are doubtless headed for Buckingham palace.

Newspapers that have for so long been holding up Mr. Schwab as a model and example for American boys should now advise the boys to invest in a few chips and watch the turn of the wheel.

Possibly Congressman Hull could obtain an interest in Cecil Rhodes' South African meat contract in exchange for a block of stock in Mr. Hill's Philippine Lumber and Development Company.

HILLSBORO

Administrator's Notice.

George Washington and his soldiers kept it up eight years, and at no time did the Continental armies equal the armies kept to the field by the Boers, and it will be remembered that the Continentals won, too.

Has anyone thought of it? Perhaps, in the light of past history, the Oregonian, desiring to re-elect Senator Simon, now appears to fight his chances, thus making a positive by apparently embracing a negative.

Don't abuse the "knocker," for he can't help his disposition, any more than you can help yours—if you happen to be a philanthropist—and of the helpful kind. The knocker is a genus distinct by himself. He is generally sincere in his knocking, and it is but the effervescence of his inspiration. The genuine knocker many times does much good—when he is situated so he can do no harm. The world is full of knockers, and you shouldn't knock them, or you might evolve to a knocker, yourself.

Washington County has but 15 paupers at the poor farm, as against 27 in Clackamas County. The population is somewhat larger there than here, but not enough to justify the difference in the pauper element.

At the whist party given at the Commercial Club last evening Mrs. Beckwith and Thomas Rood won the first prizes, and Mr. O. G. Barlow and Mrs. John Dennis the booby prizes.

While Dr. Bailey was making a call near Phillips the other day, one of his horses, the bay, laid down in a pool of water where there was an overflow in the road, and but for his driver's assistance, would have drowned. The Doctor was wearing a pair of rubber boots and was none the worse for the adventure.

WOMEN AND JEWELS.

Jewels, candy, flowers, man—that is the order of woman's preferences. Jewels form a magnet of mighty power to the average woman. Even that greatest of all jewels, health, is often ruined in the strenuous effort to make or save the money to get them. If a woman will risk her health to get a coveted gem, then let her forfeit herself against the insidious consequences of coughs, colds and bronchial affections by the regular use of Dr. Boschee's German Syrup. It will promptly arrest consumption in its earliest stages and heal the affected lungs and bronchial tubes and drive the dread disease from the system. It is not a cure-all, but it is a certain cure for coughs, colds and bronchial troubles. You can get Dr. G. G. Green's reliable remedies at The Delta Drug Store, Get Green's Special Almanac.

BRAIN FOOD NONSENSE.

Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will not only nourish a particular part of the body, but it will sustain every other part. Yet, however good your food may be, its nutriment is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses aids digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get Dr. G. G. Green's reliable remedies at The Delta Drug Store. Get Green's Special Almanac.
