Opposed to Gold Mono-metallism. Believes in the Bimetallic Standard. Dear Money means Debased Property, and Profitless American Product. Our Consequent loss in our Creditors' Gain. Has no use for Marcus A. Hanna.

RAISE US FROM THE DEPTHS. There are some passages so pregnant with love of justice, and so replete with appreciation of power gone wrong, that one must at times become a thief, and appropriate:

"The quality of mercy is not strained; it droppeth as the gentle rain from Heaven upon the place beneath; it is twice blessed; it blesseth him that gives and him that takes; 'tis mightiest in the mightiest; it becomes the throned monarch better than his crown." - Portia, in Merchant of Venice, before the Justice.

And this reminds us that we are not, as a Nation, particularly in the line of mercy-merchandising. Look at poor Cuba; asking for justice, for mercy; and the recipient of the great beating heart of the American people. They would give Cuba tariff laws that are just; that are humane; and such as the Cubans have a right to expect—yes, demand. Meanwhile, the trust and tariff manipulators hold the iron hand over congressmen who have been elected by the use of campaign funds delivered by the party of the first part. Unless a terrible effort is made Cuba is to be violated on the altar of protected selfishness, and thus our boasted interest in the little island made the victim of commercial greed and cupidity. This done, and the administration party will not be wrecked. Not at all. But we lose our self-respect as a Nation—and we must sleep with ourselves; live with violators of a world-public faith. The party in power finishes under the whip of the protected interests because there is where lay the fruits of victory at campaign time. The opposition can not hope to profit by the outrage. This is easy of analysis. The banking interests and the trust interests are one in spirit. One is the Pythias to the other, Damon—a bastard application. Their money will win. In the meantime the National spirit is dwarfed; the National sense of justice stultified, and the American heart smothered with the fatty degeneration of greed. How do you like this picture? If you like it not, paint one yourself, and see if you can make it less hideous.

PATRIOTS NO MORE?

Speaking of the proposition that the greenbacks be retired, the Chicago Chronicle says: "The only demand of that kind comes from those patriots who wish to serve their country and incidentally put money in their own pockets by issuing bank notes not specifically secured to take the place of the greenbacks." What right has the Chronicle to assign ulterior motives to the men who lay awake nights in the effort to preserve the honor and integrity of the country? Did not the people in 1896 and in 1900 declare in favor of the single gold standard and is not greenback retirement an essential feature of that policy? Why then protest against the carrying into effect of the popular will? Why deny to the national bank patriots the privilege of realizing upon their twin victories? Democrats can protest against the retirement of the greenbacks, but the Chronicle cannot do so consistently.—Commoner.

THAT Portland has awakened to the importance of enterprise is a matter of congratulation to all citizens of Oregon. The rapid subscription of three hundred thousand dollars for the purpose of an exposition has marked a new era to the city which should rightfully be the trade center of the entire Northwest. The incident will not only bring to us people from the East, who are looking for a home in a climate that is unexcelled, but it will do much to cement a feeling of friendship between the interstate business elements which should

lead to trade relations. Portland can certainly sell in competition against all other Northwest jobbing centers, and her merchants, through the exposition, will have an opportunity to pick up the thread it lost long since by a too sterile conservatism. Portland is to be congratulated upon her new life. And Washington County should not forget that a greater Portland will mean a greater market for what we have to sell.

THERE is quite a demand for draft horses throughout the Northwest, and this demand will be on the increase for time to come. Farmers can just as well raise good colts as to raise scrubs. As a matter of fact the scrub costs just as much in the long run, and is therefore a losing deal. Every day or so we have buyers coming through this section, asking for big horses. Breeders should make a mental note of this. Five years from now the demand will be big.

The price of poverty must necessarily be paid! The small home holder up in the hills who can't pay his tax until the spring calf is old enough to veal, must, in actual fact, pay the three per centum rebate given by a munificent and just state to those best able to pay. Of such is the world pregnant. Of course, there are any number of excellent citizens who will call this the rant of a demagogue—but chaff cannot alter fact.

No county in the state will derive greater benefit from the Lewis & Clarke Exposition to be held at Portland than Washington—our county. For the next five years there will be hundreds of extra men employed at the scene of the fair, and these will require substance from the Washington county farms and dairies. Carpenters and mechanics will have to live—and we are the nearest of the various supply points.

The Oregonian has a libel suit on its hands. That is nothing. Any paper which would tell all the truth would have a libel suit filed against it every week.

It is not at all surprising that the president has not selected any farmer to represent America at King Edward's coronation ceremonies.

FROM THE COMMONER.

Let the Nicaragua canal bill be pushed at once. It is not necessary to get the consent of the railroads.

Would the supreme court stand 5 to 4 on the constitutionality of a law increasing the salaries of judges?

Perhaps Mr.—What's the name of that fellow who writes the naval history?—would like to test the popularity of the naval clique by following up the track left across the country by Admiral Schley.

Possibly our special envoys to the coronation can persuade King Edward to delay the crowning until July 4th, in order that the Declaration of Independence may be properly commemorated.

If Kruger cannot reach here in time to help us celebrate Jefferson's birthday he might come over and help us celebrate the Fourth of July.

The manufacturers who favored an imperial policy with the expectation that the Philippines would be compelled to trade with the United States may lose their enthusiasm when they learn that the door must be kept open in the Philippines or it is likely to be shut in other parts of the orient. The commercial advantages of a colonial policy may not be so glittering if we are to have no special advantages over foreigners in securing Philippine trade. Some of our manufacturers are saying: "If the trade argument is so soon done for, what was it begun for?"

McNAMER'S PLANS. Seattle, Feb. 12.—T. C. McNamer, of Forest Grove, Or., and well known all over Washington county, is in Seattle preparing to go to the Kougroek country, of Alaska, for the purpose of continuing for the coming Summer season the work of the placer properties he is interested in there. One of McNamer's partners, Fred Morris, went into the country four weeks ago, and will freight in with him about 50 tons of provisions and supplies. These have to be hauled a distance of 60 miles from Battles with dog teams.

Mr. McNamer and his associates own and operate claims aggregating 11 acres on Emma Creek in the heart of the Koyukuk, which is at

Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will not only nourish a particular part of the body, but it will sustain every other part. Yet, however good your food may be, its nutrient is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses aids digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get Dr. G. G. Green's reliable remedies at The Delta Drug Store. Get Green's Special Almanac.

Brain Food Nonsense. The commoner has attained within six months from date of the first issue a circulation of 100,000 copies, a record probably never equaled in the history of American periodical literature. The unparalleled growth of this paper demonstrates that there is room in the newspaper field for a national paper devoted to the discussion of political, economic, and social problems. To the columns of The Commoner Mr. Bryan contributes his best efforts; and his review of political events as they arise from time to time can not fail to interest those who study public questions.

WOMEN AND JEWELS. Jewels, candy, flowers, man—that is the order of woman's preferences. Jewels form a magnet of mighty power to the average woman. Even that greatest of all jewels, health, is often ruined in the strenuous effort to make or save the money to get them. If a woman will risk her health to get a coveted gem, then let her forfeit herself against the insidious consequences of coughs, colds and bronchial affections by the regular use of Dr. Boschee's German Syrup. It will promptly arrest consumption in its earliest stages and heal the affected lungs and bronchial tubes and drive the dread disease from the system. It is not a cure-all, but a certain cure for coughs, colds and bronchial troubles. You can get Dr. G. G. Green's reliable remedies at The Delta Drug Store. Get Green's Special Almanac.
