

DIAMOND W'S BEAT WAVERLY

The Portland Team Was Not in the Game.

NINE SCORES IN ONE INNING.

Will go up Against Upchurch Next Sunday.

The Waverly nine, of Portland, are fine boys, but they can't play the best ball in the world. They were not in it with the Diamond W's, for a minute. It was just "easy" — and that tells the story. The score was 13 to 5, the local team scoring nine times in one inning. The victors scored but in two of the nine innings. It was a clever game on the part of the locals, although no one had to work very hard. All the boys were in good trim for good ball, but errors were frequent — in fact, the visitors' scores were the result of errors. Ora Cook umpired the game.

Next Sunday Upchurch will be out, and then we shall see a game worth the money. It will be close work, but the Diamond W's are after the game, and they will get it if possible.

NEXT SUNDAY'S GAME.

Fenny will be out with the Upchurch nine next Sunday, and he hopes to keep them winners. On the other hand, the Diamond W's will do them if they can. The Upchurch won out in the state league, and they will fight hard. The Diamond W's will be sure to catch; McDermott, pitcher; Croissant, 1 b; Leavitt, 2 b; Cook, 3 b; Hare, shortstop. If you want to see a good game come out and take a chance.

CROWDS GOING TO THE CIRCUS

An unusual degree of local interest has been aroused by the announcement that Ringling Bros.' famous big circus is to exhibit in Hillsboro Monday and Tuesday, August 18 and 19. Several big excursions will go from this vicinity, and local people will be well represented at the big show. Those who go from here should make every effort to arrive in time to see the magnificent new free street parade, which takes place in the morning preceding the opening performance. The procession is divided into thirty enormous sections, each of which is a complete parade, and presents in its entirety a bewildering magnificence two miles carnival of pageantry, such as the world has never seen. In this gorgeous display are shown over 100 beautiful dens and cages of wild animals, 500 horses, 30 elephants and nearly a thousand people, and the costumes throughout are of the finest silks, satins, and cloth of gold. The performance that follows is the most magnificent scenic display ever presented by any circus in America. It is entirely new this year, and its novelty and magnificence have created a sensation wherever the show has exhibited.

The secret of many a person's success is footwear. Did you ever notice the feeling of confidence a good, durable, shapely pair of shoes gives the wearer? If you have not you are not a student of sociology. Come to us and fit yourself with a good pair of shoes, and see the proof of this statement. We have shoes for all, of celebrated makes, and at prices that defy competition. We buy large shipments and can sell cheaper than those who buy smaller lots—H. Wehrung & Sons.

But Otis, Housley's meat cutter, sent to Portland for a fine watermelon the other day, and put the delicious fruit of the vine to cool under the water faucet in the back of the butcher shop. John Bailey and Chas. Lamkin heard the water dripping and thought that the water pipe had sprung a leak, and upon investigating, found the melon was the cause of the leak. They took the melon out, dried it with a cloth, and, sending for Otis, who didn't know it was his own melon, said, "Isn't this a dandy? Shall we eat it?" Of course, Otis thought the thing looked good enough to be cut, and acquiesced. They ate the melon, and Otis, wishing to return the compliment, said: "Come around tomorrow, and we'll eat another. I've a daisy in there, in the back room." Imagine his chagrin when he learned that he had helped to eat his own melon.

You may not believe that clothes make the man—but you always feel better when your suit is of good quality and fits you. Go to H. Perry Reed, of Nelson & Reed, who operate a sawmill on the divide above Pamplin Ridge, had the misfortune to lose three fingers off his right hand Monday morning, by falling on a saw. He was brought to this city and operated upon by Dr. Tamiesie. He is getting along nicely, and will remain in town for a few days, until, at least, the danger of blood poisoning is over.

Let the electric line come—Denise is here to stay, because the people must have sterling groceries. The Diamond-W brand leads the van. This is the outing season. Get your lunch supplies from Denise. Ask the people who deal with it, for its price and quality are not right.

John Sparks, of Reno, Nevada, will not show at the California State Fair this year, preferring to show at the Oregon State Fair instead. He has one of the finest herds of Hereford cattle in the United States and will exhibit 20 head at the fair this fall.

When farmers are in need of agricultural implements they should see Schulmerich Bros.' stock. They are factory agents for Osborne and Deering harvesting machines, Rock Island plows and harrows, and Tiger drills. Also carry a full line of buggies, wagons and general hardware.

The secret of selling good goods cheaply is in buying them cheap. We buy as cheap as anyone and sell accordingly. At the Racket Store, you will find a fine line of gents' ties, all kinds.

J. C. and W. G. Hare have on hand, at the Grange store a complete line of wagons, buggies and farm machinery of all kinds, handling the Mitchell-Lewis-Staver makes. Give them a call and satisfy yourself that you can do better with them than elsewhere.

J. E. McNamara, who is now on the case for The Dalles Chronicle, is in the city this week, visiting with relatives. He thinks the upper country is "all there."

OPEN LETTER BY BOARD OF TRADE

Ask the People to Take an Interest.

IN GETTING COUNTY TO THE FRONT.

Will we Get in the Bad Wagon, or Trail Behind?

At a meeting of the citizens of Washington county, held at Hillsboro, July 25, 1902, when the advertising and immigration agents of the Harriman lines were here, we pledged to furnish 100,000 copies of a suitable pamphlet, descriptive of the resources and production of Washington county, the railway agents mentioned to distribute the same to prospective immigrants in the east, free of charge. If this be done our county will receive its proportionate share of the immigration which is coming to Oregon from now on. Liberal rates are being given prospective immigrants on all railway lines, and this alone will bring thousands to the coast. Now is the time for every citizen to "put his shoulder to the wheel and assist in bringing about the printing of this pamphlet that we may be properly represented in the east. To do this it will require funds. The question of the best method naturally arises—can we best raise funds by circulating a subscription list, or by raising funds through an appropriation by the county court? The latter seems to be the most equitable, this being a proposition in which all are interested all over the county, and an appropriation of this kind, falling on all alike, in proportion to what one has. On the other hand, a subscription method would make a very few pay the entire cost of the advertising, which to say the least, would be unfair, while the unprogressive would reap as much benefit as the progressive. Other counties have pledged literature, and their county boards have made appropriations to put their literature in the east at once in order to get the benefit of September and October immigration cheap rates. Will the taxpayers of Washington county do likewise? Or, will we allow this opportunity to pass. In case our county court might not see the way clear to make such an appropriation without getting the sentiment of the citizens who are taxpayers to express their wishes to the court by letter or otherwise. This is not a request for a donation; but a strictly business proposition—an investment, and one that will add to our population and our wealth, and our taxing power, by bringing more people here. Let us grasp opportunity to increase our ability to pay taxes by increasing our taxable property, by inviting men with capital to settle here.

We now leave this matter in the hands of the taxpayers. A few men may start an enterprise like this, but it takes a united effort on the part of us all to carry it through. If you will act upon the suggestion set forth in the circular which appears below, thereby authorizing the county court to help the matter along, aiding us to get in the front rank where we belong, with the best counties in the best state in the union. Unless this is done, we shall remain in the same "old rut," while other counties will receive the benefit of extensive advertising. And, in regard to the county exhibit to the state fair—it is equally important to show the visiting public what the county can produce. Should we fail to advertise and fail to show the northwest what we can produce, we certainly will be in a sad plight.

Yours Truly, The Hillsboro Board of Trade.

OUT THIS OUT, SIGN AND MAIL TO SEC'Y BOARD OF TRADE, HILLSBORO.

I, the undersigned, do most respectfully petition the Washington county commissioners' court to make an appropriation of \$100 for a Washington county exhibit at the state fair this fall, and \$500 for the purpose of issuing 100,000 copies of a pamphlet setting forth the resources of the county, to be sent the agent of the Harriman lines of railways in the east, for distribution to prospective immigrants.

The remains were taken to Oregon City, where they received burial. The funeral took place at St. John's church, and the services were attended by many members of Co. D, who were with the deceased in the Philippine campaign. Company A, O. N. G., attended the funeral in a body. This is something the town has needed for a long time.

Eng growers are commencing to engage pickers for the season, and, as usual, different prices will prevail, here and there, although the wage for picking will not exceed that of last year to any extent. The residence of E. Squires, located two miles south of Greenville, burned one day last week. Nothing was saved in the house except the piano. No insurance. The cause of the fire is said to have been a fire set in some pitch by the children, in the woodshed. The loss is probably \$1,000.
