Effect of American Combination Reverse of What They Expected.

New York, Aug. 28.—Increased de-mand for British iron from Chicago, New York and Philadelphia has sent up prices here, says a London dispatch to the Tribune. A report that orders have been received for 80,000 tons nas not been confirmed with authority, for Presented in Condensed Form, Most the American demand for American Likely to Prove Interesting to Our iron and seel has sufficed to stiffer prices and compensate for declining trade from India and Australia, and the stagnant condition of South Africa.

When the American steel combination was made there was a general conviction among British ironmasters that there must be a defensive movement against the manufacturers here and in Germany and Belgium. Exports of Baker City to California for the winter. iron and steel from these countries have been increasing steadily since Decem-ber, and the effect of the American combination is not dreaded as it was last year. The British market has not seen converted into a dumping ground for American iron and steel, and prices for export to the United States.

With this crop matured within the next month, and feeding to begin about the first of September, I feel confident that within three months you will see some reduction in the price of beef." Secretray Wilson explains that the loss of Australian mutton has increased the demand for American beef, and that the Americans themselves are becoming the greatest beef eaters in the world. He adds:

"Despite this increased consumption and foreign demand, I still believe that our large corn crop turned into beel will bring down the price of that article
