Government Finds Reservoir Sites Hasily Small Projects Come First.

Washington, Sept. 11.-Chief Hydrographer Newell, of the geological survey, who is just back from a tour of inspection in the West, says such satis factory progress has been made with the examination of feasible reservoir sites that in all probability the work of construction on the first approved project under the new law, can be commenced early next spring. Mr. New-

ells' idea is to begin with the construction of several projects of medium proportions with the funds now available, getting the most promising under way before the contract for the second is let, and so on until the available funds are utilized. On his recent trip, Mr. Newutilized. On his recent trip, Mr. New-pany, of Sumptor, has been incorporat-ell found a number of projects which of with a capital of \$1,000,000. give promise of entire success, and he says there will be no difficulty in mak-

ing a good start.

In inaugurating this work, an attempt will be made to construct systems where the maximum number of tems where the maximum number of settlers may be provided for on re-claimed lands at the minimum cost, and where, by quick construction, the funds arising from the disposal of water rights will be returned to the reclama-tion fund in the shortest possible time. The several field parties now at work are making satisfactory progress, and will continue work until late in the season, when those in the Northern states will be transferred to the South-

west, where they will continue through the winter. Mr. Newell found a peculiar condition existing in Oregon, Washington and Idaho, where the most desirable reservoir sites have already been segre-gated under the Carey act. For this reason, it is more than probable that none of the initial projects will be undertaken there. Should these states, however, experience difficiuty in procuring funds with which to carry thier proposed projects, he says the government later would be very glad to step in and undertake improvement on one or more of these sites. It is yet possible that some exceptionally good site may be disclosed in the Blue mountains, in which event it would be given due consideration with those most fav-

Volcano on Island of Stromoboli Throwing Out Fire and Stones.

Rome, Sept. 11 .- The volcano Stromotoli island is in full eruption, and is throwing up great columns of fire and torrents of stone. The island is showing signs of activity. Stromoboli is the northermost of

off the north coast of Sicily. Its area cities. is eight square miles. It is wholly of volcanic formation, and has a stantly active volcano 3,040 feet high, A cloudburst at El Paso, Tex., caused with an extinct crater on top, but an active one on the side at the height of the island lies the small town of Stromoboli. The population of the island is placed at 500 persons.

It was announced from Naples Sep tember 7, that large volumes of flames were issuing from the crater of Mount Vesuvius the previous evening.

ALASKA COALING STATION.

One May be Established 400 Miles West of Dutch Harbor

San Francisco, Sept. 11.-The revenue cutter Hugh McCulloch, Captain Coulson, has arrived here from Dutch Harbor. The McCulloch was under orders to examine Adakh island, 400 spent in the improvement of Marion miles west of Dutch Harbor, as a probable site for a United States coaling station. One of the United States gunboats returning from Alaska last year had visited the same island, reporting favorably upon the proposi-tion, and Captain Coulson's report, it is understood, will concur in all that was said of Adakh. This is the island which is declared to be situated with a harbor and landing suitable for the discharge of cargoes by good sized colliers.

Interests Picking Up.

Washington, Sept. 10 .- In its final COTTAGE CITY GOES ASHORE NEAR settlement regarding the commerce of Cuba the bureau of insular affairs of the war department dwells particularly on the sugar and tobacco industry of the island, and presents some interesting facts regarding the production of hese two commodities. After showing that sugar constituted one-half of the exports of the island for 1901, and predicting that it will continue to be the leading product, the statement is made that there are other interests which are growing and which may become of Etelin island, Stickeen strait, 20 miles vital importance to the future prospersouth of Fort Wrangle. She now lies ity of the island. By far the greatest of these is tobacco, of which in its 60 feet forward on the rocks. Fifty different forms there was exported in feet of the keel are gone, and her fore-1901 \$25,000,000 worth.

The report reviews the history of Cuban sugar growing, which first the top of the smoking room, is under usumed importance in 1840, when the crop amounted to 200,000 tons. The sheltered, and it is believed a bulkhead production steadily increased up to the can be built inside and the ship time of the "Ten Years' War," when floated. The 150 passengers of the it had reached 749,000 tons. At the Cottage City were transferred to the close of the war the sugar crop had fai- steamer Spokane, of the same comlen to 533,000 tons. During the last pany, which came along about three 10 years of Spanish occupancy, the production varied greatly, exceeding 10,00,000 tons in 1894 and 1895, and will return south on the Spokane. after the beginning of the insurrection running as low as 212,000 tons in 1897. The average for this decade was about 660,000 tons.

The exportation of augar for the alendar year 1899 was in round num- chiefly of salmon, was transferred to bers 317,000 tons; in 1900 287,000 tons, and during the entire period of American occupation more than 1,400,000 tons.

The Cottage City was commanded by tion more than 1,400,000 tons.

It is estimated by good authorities that about 2,000,000 acres, or one-fourteenth of the entire acreage of the island, is devoted to the culture of pieces on the rocks. From official resugar cane. With the establishment of new plants, equipped with the latest appliances, the planters secured from violence, and a removal of the enormous burdens of the various taxes severity intervene. formerly imposed by the government of Spain, the acreage in cane may be greatly increased and the cost of pro-duction be reduced to a minimum.

BERTI PROBABLY DEFEATED.

an Government Forces Unable

Hold Arus Duke. Panams, Colombia, Sept. 10,-Th government General Morales Berti who has been besieged by the insurgent forces under General Herrera at Agua Dulce, has probably been defeated. The government gunboats returned here last night from an exploring expe- by the navy, under which the governdition. Officers from the expedition ment was placed, a license for the sale report having landed at Yegula, where the insurgent garrison was defeated sequently, upon the recommendation after a slight skirmish. A few insurgent prisoners were captured and it is revoked, not, however, before the from these men that the news of the United States vice consul at Apia, Mr. government defeat at Agua Dulce has Blacklock, had erected a hotel at cen obtained.

General Berti has been besieged revoked, he lodged a protest with the since July 28. The troops of his navy department, asserting that the command must have suffered terribly prohibition of the sale of liquor would from lack of supplies during the last days of the seige, and it is said they were compelled to eat horse flesh. Up to August 30 General Berti had not surrendered, but since that date he is to the use of intoxicants. It was signal failure. believed to have either done so or to also represented to the department have torced his way out of Agua Dulce. that the sale of intoxicants was per-

POWDER MAGAZINE BLEW UP.

Killed One or More, Damaged a Fort and

Boston, Sept. 10. -One of the powder magazines at old Fort Winthrop, on Governor's island, upper Boston harbor, blew up this evening with a detonation that was heard 20 miles away. One man was killed and five others were injured, all having flesh wounds, and two are missing. The cause of the explosion is not known.

The force of the explosion was shown by the fact that great granite blocks were hurled into the air several hundred yards, one of the largest coming down through the center of the fort, making a hole large enough to over the island the effects of the ex-Boston, South Boston and in the city proper, the concussion was severe enough to break windows and shake buildings to their foundations.

Jamaica Wants to Join Canada. Kingston, Jamaica, Sept. 10 .- At a meeting yesterday afternoon of the representative sugar planters of Jamaica, resolutions were passed condemning Great Britain's neglect of the West Indies, resulting almost in ruin to the sugar industry, setting forth the total inadequacy of the measures proposed by Great Britain for the relief of West Indian sugar planters, and calling for federation with Canada as the univ means of relief.

FIRE ON AMERICANS

ELEVENTH INFANTRY LOSES ONE MAN AND THREE WOUNDED.

Moros of Mindanao are Becoming Unruly General Sumner Ordered to Interior to Compel Peace General Movement Against Rebels Not Improbable - Our Troops are Attacked Repeatedly.

Washington, Sept. 10,-The war department has received a cable dispatch from General Chaffee dated at Manila, stating that an attack was made on the United States troops at Matiling Falls, seven miles from Camp Vicars, by Moros on September 1. First Lieutenant William M. Parker, Eleventh infantry, and two soldiers were wounded, and one soldier killed. General Chaffee

also says: "Have authorized Brigadier General Samuel Sumner to move troops into Macin country and exact promise of good behavior in future from Datton and followers. Troops have been attacked 12 times since May 2, with loss to us of four killed and 12 wounded. We have remained all the time quiet, seeking friendship, acting in self defense only."

The last part of General Chaffee's dispatch evidently is intended to inform the war department that the army has been acting wholly upon the defensive in the Moro country. His instructions have been to do nothing which would provoke a conflict with the Moros, and the position of the war department is that if there is a conflict it must be justified by the aggressions

of the Moros. Some time ago General Chaffee asked for authority to attack the Moros immediately, but he was advised that the department wished to avoid hostilities if possible. At the same time it has long been the belief of officials of the department that an aggressive campaign in Mindanao is inevitable, and it would not be surprising if there should be a forward movement of the United States troops in a short time.

ELECTION IN MAINE.

State Goes Republican by a Plurality of 27,000 - Socialists Gaining.

Portland, Me., Sept. 9 .- Maine rolled up a big plurality for the Republicans in the election yesterday, it approximating 27,000, Complete returns will be late, owing to the remoteness of many towns. Figures from 240 and towns give Hill, Republican, 40,-

982; Gould, Democratic, 24,587. The legislature, which is usually strongly Republican, will have an uncommon number of Democratic members, some of the strongest Republican towns of the state having elected representatives of that party. The senate

will have one Democrat in 31 members. In the First congressional district Representative Amos J. Allen, Republican, was elected over Dr. S. O. Gordon, Democratic, and Fred E. R. Irish, Socialist, with a plurality of about

An incident was the increase in the Socialist vote of 70 two years ago to 300 this year in Portland alone. In the Fourth district, owing to its great area, the returns will not be completed until late tomorrow, but the estimate is that Representative Powers, Republican, has been re-elected by a plurality of 7,000 over Thomas White, Democratic. In the Third district Representative E. C. Burleigh got the prohibitionist vote, and ran slightly ahead of his ticket in defeating E. H. Henson, Democratic. In the Second district Representative C. A. Littlefield had no

opponent, running well ahead of his LIPTON WILL CHALLENGE SOON.
