Will be Displayed Before Eastern People.

HARRIMAN PEOPLE WANT EXHIBIT. Will First be Displayed at Peoria, Ill. Will Make the Rounds.

Washington county's premium exhibit which captured the first prize at the state fair has been called for by Harvey E. Lounsbury, of the Southern Pacific lines, and the best portion of the display has been sent east for exhibit by Mr. McKinney, immigration agent of the Harriman lines of railway.

M. D. Wisdom's (Sec'y State Fair Board) paper, the Rural Spirit, says of the Washington county exhibit: 'It was the most representative agricultural display ever seen on exhibition. The arrangement was very good, being somewhat of the shape of a half wheel without the tire. In the back was arranged high corn and pumpkins, with hops on one side and grains and grasses on the other. The spokes were composed of grains and grasses, filled in with fruits, all kinds of vegetables, and some very large pumpkins were there. The grasses were very complete, there being at least 50 varieties, and all were practical species.'

B. G. Leedy, of Tigardville, Master of the State Grange, writes The Argus that the new Agricultural Hall, at the Agricultural College, will be dedicated October 15, and that the Board of Regents, of which he is a member, desires a large attendance of the representative citizens. Washington county farmers and business men are invited, and a one-fare for the round trip to Corvallis has been given for the occasion by the Southern Pacific. A special train will leave Portland at 7:50 a. m., and, after the exercises, the train will return that evening giving all a chance to return on the same day. This will make a nice trip for Washington county farmers, and, while there, they will see what their money is being expended for. The expense is not very large. Visitors from here will be welcomed by Dr. Withycombe, the Vice-Director, and Mr. Leedy.

The Washington County Teachers' Association was formed in this city last week, the object being to promote interest in the local institutes and otherwise encourage general work germane to teaching. Carl Hanson, Fred Bickel and Geo. Hart, three young fellows from the Yakima country, recently took a herd of horses to Sherwood, this county, and tried to sell them. The Portland officers had notified the Sherwood officers that the animals had been stolen from Yakima, and a warrant by Justice Buck held them. They were taken to Portland, where Judge Sears permitted them to go because the young fellows had had a preliminary examination before the justice. They had not left the court room, however, until a warrant arrived from North Yakima, and an officer took them with him to the bunch grass country to answer the charge of grand larceny.

The city council will meet on October 14, and at that time consider the application for the granting of a franchise for the electric line into the city. The petition is not yet drawn, and it is not known just where the company will want to bring in its track. It is known, however, that it will ask for right of way either on Main or Washington streets, the latter being one block south of Main. For Granting of Franchise on Main and Second Streets

FOR THE WEST SIDE & SUBURBAN.

Company is Pushing Matters as Rapidly as Possible.

A petition is being numerously signed by property owners along Main and Second streets for the granting of a franchise to the West Side & Suburban Railway Company, the projectors of the electric line. The company is asking the Multnomah county court to grant a franchise along the county road (Cornell road) for a distance of 1,800 feet, this week, and the Hillsboro matter will be presented to the council in a few days. The right-of-way will all be secured in a very short time, and Mr. Graydon says that as soon as the territory is signed, dirt will be thrown. All the heavy property owners along Main and Second streets have signed the petition. The franchise at present asked for comes into the business portion of the town on Main and turns at the corner of Second, going down that street as far as Baseline, to the corner where the Tongue residence stands.

About fifty of the county school officers met here last Saturday, pursuant to a call by Supt. Ball. State Superintendent Ackerman was here, and lectured on school needs, ventilation and sanitation, etc., and Preston Search, who had just concluded successful work at the institute, also addressed them. It was a very successful meeting, and only for the threatening weather in the morning, would have been much better attended. These meetings, to follow the institutes, will most likely hereafter be a feature of our school work.

Soon after the stage left out they regretted not going, but, to their joy, a few minutes later a farmer from the Grangeville country met them and told them he had been requested to take them out to the Birdsall place. They started with him, and a little way out of town met the stage returning with a badly scared lot of passengers who had been held up by highwaymen.
