THEY ARE STILL LYING.

Last week's Argus quoted Leslie's Weekly as to how Nathan Rothschild made six million dollars out of Wellington's victory at Waterloo. Rothschild was at the battle; speedily made his way to London; was there by the next morning before business was commenced. He lied about the battle by inference. Stocks immediately fell to the lowest ebb, and at the most downward point Rothschild bought heavily, and when the news of the victory over Napoleon came, he had swindled enough through his lie to clear six million dollars! As a matter of fact, these fellows are still at it. They are making millions here in America by lying. By the means of the putty press they tell people that there is to be a revision of the tariff-trust laws and hold an election to their ideas. After the election they come out and say nothing will be disturbed. This means millions of dollars for the millionaire trust stock owners while the dear common people are footing the bills; the very people who vote for the trusts on the strength of pre-election lies. In ... there is a moral, but ... the time he does, some fellow who is "full under the eyes" will come along and lie him out of the idea.

It is now said that Hon. C. W. Fulton is very anxious to have a caucus of the republican members of the legislature when that body shall meet. He thinks that he would receive a majority of the votes and be the choice for senator. This is very nice of Charlie, and he can ask for a caucus with such splendid grace. It will be remembered that he has always been against the caucus whenever the bosses who managed him would be hurt by such a move. If Charlie can get a caucus, we shall think him filled with the graces that go to make up a preacher of the apostolic time.
