LET US REJOICE

There's nothing like being optimistic, unless one excepts the element of luck. A few years ago we had great financial battle between the goldites and the silverites. The goldites, by dint of much money many times spent, won their cause. The silverites, carrying incubus of a man and a party nationally in disgrace, opposed by men who had disgraced the party of traditional good government barring Southern support of a sectional affair; were supposed to have been ingloriously defeated although they carried a large majority of the Caucasian vote of the country. At the polls their man and ideas went down to slaughter. But were they beaten? Did the American people, represented by the republican administration, give the silver idea such a terrible beating, after all? Have we not, as a matter of fact, much more silver in circulation and turned out through the mints, than ever before? No one successfully disputes this. Is it not a fact that we have millions of money in counterfeit silver dollars, just as good as those from the national mint, floating around and doing as good commercial service as the best gold dollar that ever existed in an old sock, or turned down reposing in a pocket by the side of a piece of good juicy, old fat tobacco? No one doubts this who has as much imagination as a Kansas grasshopper—and this is why we are having such good times. We have proven the quantitative theory of money, and by inuendo and counterfeiting, we have put to shame all the argument of the Jews and the Clevelanders. Let us rejoice, then, and be happy, that the gold idea has been hoisted on its own petard—and laugh when some honest, but misguided politician tells us of the "glories of the old standard," for he is the worst colored man in the bunch.

Attorney H. T. Bagley is in Portland this week, looking after the defense in the Aiken murder case.

Lost—Red Irish Setter, small white spot in forehead. Reward—Ed. Wann, with W. V. Wiley, Main street, Hillsboro.

M. F. Messenger, of Laurel, leaves tomorrow to go into the confectionery and restaurant business at Newburg, the thriving Yamhill county town.

It now comes to us that the Portland city council will again take up the matter of a franchise for the Suburban line to this place. This is most likely another of Portland's hot air gusts.

School District No. 59, north of Glencoe, has planted a row of ten maple trees on the west front of the school yard. Mr. J. A. Lynn writes that this move was started by the Grange. Other districts might well do likewise.

The Racket Store has been enlarged and a new line of calicoes, gingham, muslin, table linens and dry goods have been added. We are doing business for cash, and we want your trade. Our prices will prove this statement to the satisfaction of any one. Call in and see what we have and find out that we sell cheapest.—Racket

ACTIONS, NOT WORDS.

The Supreme Court of Missouri, a democratic state, has found several of the packing firms guilty of violating the state trust statute, and has fined them heavily, and, in case they do not pay the fine, they will be sent out of the state or jail. This is the way to deal with these fellows. If the present attorney-general of the United States would administer some of the same doctrine—follow the law—there would be a little "trust-busting" going on and the government would be better off for the prosecution. Philander still tells us that we must have a constitutional amendment before aught can be done with the big fellows. Meanwhile, the same "big fellows" laugh at the unrest of the American people, alleging that there is money enough to keep their present "persecutors" in power, anyway.

Gov. McBride, of Washington, did things to that state's appropriation for the Lewis & Clark Fair. He vetoed the \$50,000 measure, and allows the state to have an exhibit which costs a few thousand.

THE BELOVED "NIGGER."

The negro question is just now agitating the republicans of the North, and many are of the opinion that the wonderful love of Messrs. Hanna and Roosevelt for the Ethiopian purely disinterested. As a matter of fact, however, this is not the case. It is not the poor "nigger" the South that is worrying them, all. It is the 40 or 50 thousand "colored" men in a few Northern states, who might throw a constitutional or presidential election, as the negro balance of power which has held Ohio in the republican column for many years, that engages the attention of our powerful politicians, and don't you let these "philanthropists" make you believe otherwise.

The Times' man, of Forest Grove, had another spell of epilepsy, superinduced by atrophy, last week. Some think that he swallowed a whole grain of rice, and that it obstructed his only tube of digestion. This gave him a pain, and he imagined that all brains were located in the lower regions. Some enterprising Forest Grove druggist should have given this unfortunate creature a smell of a cascade and purged him from his misfortune.

SENSELESS SENTIMENT.

More and more the people are beginning to believe in the election of United States senators by the people of the several states at general election. The senate, of course, will fight to delay this in the future, just as they have delayed the movement in the past. There is but one way to accelerate this movement, now that the people have come to their senses in this matter. The people should elect legislatures that will elect senators who will stand for this reform. The present method is not injurious simply because boodles generally elect, but the system acts as an obstruction to proper legislation. It is time for a change, and, at the best, it will be years before we can install the new idea.

ALL BOUND TOGETHER.

Americans Patriotic Songs, Music and Words Complete, and Given Away Free.

We Americans are patriotic. We love our flag, we glory in our American institutions. We shout our selves hoarse when we hear Yankee Doodle or Marching through Georgia. When the strains of America or the Star Spangled Banner reach our ears off our hats and we rise reverently to our feet. But ask the average American citizen to sing any one of these songs and he does well if he can struggle through one verse. He knows the tune all right, but the words "stump" him. School children are no better versed in this respect. When "speaking day" comes, if a patriotic song is assigned to one of them, there is a great flurry and search of song books and "speakers" to find the music and the words. Often it is necessary to run to the neighbors or the library to secure them. This is unfortunate. Every American, old and young should be perfectly familiar with the words, as well as the music of every one of our grand national songs. The music is stirring and the words are inspiring the kind that will instill into young hearts and minds, American sentiments of patriotism, loyalty and independence. To supply this need, we are distributing a neat little book called "Patriotic Songs of America" containing words and music complete, printed on good paper in beautiful, clear, large type, and we will send free of charge to every bona fide teacher who will send their name and address, 12 copies. Thousands of these books were distributed by us during the last year and we found the people so eager to secure these songs all bound together, that we have procured a fresh edition. Send for a dozen of them. You will find them invaluable in your work.

THE BENEFIT OF CHANGE.

We are like house plants. We need a change of soil now and then—to be replanted. New scenes, new experiences, new surroundings—a change of climate, dry air instead of moisture, sunshine in place of cloud. This is sometimes essential to health. There are conditions near at hand that are better than European offer. Take a month or two in California. Plant yourself for a time where there are no irritations, where the hotel is beyond criticism, the landscape pleasing, and where warm sunny weather invites to walks and drives. Pure and dry air, and the increased electric influences of sunshine are vastly helpful.

You can make this trip at very little expense, and enjoy a ride over the scenic Siskiyou and Shasta mountains, which, at this time of the year, with their snow-covered peaks, are unsurpassed for their grandeur.
