Cape Colony will not be represented at the 1904 fair as was originally the intention.

An insane man has been killed by officers by mistake in searching for the Folsom convict.

TO QUIT CABINET.

Secretary Root Will Resign Before Going to England.

Washington, Aug. 13.—For several months past there have been rumors about that Secretary Root is to retire from the cabinet, and it is now known definitely that his resignation will be tendered before he leaves for Europe to serve on the Alaskan boundary commission. It is understood that the matter of his successor has been discussed, and while nothing official can be obtained, it is believed it will be tendered to Governor Taft.

While Secretary Root is in London, he will remain in communication with the war department, and matters pertaining to general staff and other important affairs will be referred to him. If the sittings of the Alaska commission extend beyond December 1, it is probable that the secretary's resignation will be accepted, and his successor appointed at that time.

The president is very loath to part with Root, for he is one of the most valuable members of the cabinet. The secretary has been anxious to go for some time, but he has desired to put his general staff law into operation before he retired. He also wanted the Philippine insular government on a firm footing before he relinquished control over the islands.

Secretary Root was called to the cabinet by President McKinley, who insisted upon having a lawyer of known ability to handle the problems growing out of the Spanish war. Root sacrificed a law practice of more than \$100,000 a year in order to accept a place in the cabinet, and did so largely through patriotic motives, and also because he felt he was summoned as a lawyer to perform a great government service.

CASHIER ROBS BANK.

Flees After Losing \$75,000 Gambling on Grain.

Circleville, O., Aug. 13.—John K. Brown, cashier of the Union bank at New Holland, O., is missing, and it is said there is a shortage of nearly \$75,000 in his accounts. The bank vaults were not opened at the usual hour this morning as Brown had the combination. An expert from Canton, O., opened the safe this evening in the presence of the directors, and only \$458 in coin was found.

The books show deposits of \$150,000 one week ago, and also show \$99,000 in loans. Cashier Brown's shortage will probably be in the neighborhood of \$75,000. The shortage, so far, foots up \$50,542, and an examination of the books may show heavier losses.

The bank is an incorporated concern, which, under the Ohio laws, makes each stockholder liable for double the amount of his shares up to the amount of any shortage that may occur.

The Union bank has established 13 years ago, and has had a prosperous existence. Brown has been cashier since its existence. The bank has been paying regular dividends since its opening. It is said Brown has been speculating in the grain market with bucket shops at Washington.

POPE'S HEART WEAK.

Doctors Will Insist on His Suspension of Audiences.

Rome, Aug. 13.—Pope Pius, who finished yesterday celebrating mass this morning, is suffering from heart weakness, aggravated by fatigue. Although he was much better this afternoon, Dr. Lapponi, who visited him again, thought it more prudent for his holiness not to leave his apartment, and not to go into the garden of the Vatican, as he desired. The doctor further insisted upon a suspension of audiences.

The pontiff seems more docile to the doctor's wishes than his predecessor, although he insisted on transacting some current business.

r. Davenosis, speaking about the pope, said:

"If they wish our Pius not to succumb, the vatican authorities must change their system. They must not oblige him to follow the habits of Pope Leo. The present pontiff needs especially plenty of fresh air. He must not be shut up in a box in a vitiated atmosphere."

STRIKERS RUSH WITH HIGH HAND.

London, Aug. 13.—Firms here have received mail advices from Kieff, Russia, dated last Saturday, which says that the strikers have completely paralyzed business and will not allow finished machinery to be delivered from manufacturers. The men turned girls out of dressmaking and other workshops under threat of death. The streets are full of soldiers, according to these advices, and shooting occurs daily. The price of bread has risen 150 per cent and is still going up. The troops are working the water works.

Russias Gains Point in Corea.

London, Aug. 13.—The Times correspondent states that Corea has granted the Russian lumber company a 20-year lease of 350 acres at Yonghampo, with the right to purchase, at reasonable prices, all the timber floated down the Yalu by Japanese subjects, thereby conferring a practical monopoly of the lumber in the Yalu valley. Thus Russia, while opposing the opening of Wiju, herself secures free access to the Yalu valley.

Fifty Prisoners Mutiny.

Carthage, Mo., Aug. 13.—Fifty prisoners in the county jail mutinied at midnight and made a demand for better food. The fire department was called out and turned a stream of water on the prisoners, who, after turning out the lights in the corridor, hurled empty bottles at the firemen and jail officials. The prisoners were finally subdued.

HAPPENINGS HERE IN OREGON

BIG PROFITS IN FARMING.

Willamette Valley Ranchers Will Do Well This Year.

Willamette valley farmers are rejoicing over the prospect for good profits in almost every thing they have to sell this year. Not only are prices good, but yields are large and as a consequence there will be more acres in the valley this year than there has been for more than a decade before.

Wheat at Salem is quoted at 70 cents, with the mills paying a 2-cent premium. In ordinary years all above 50 cents would be clear profit, but because of the high wages paid to farm help this season it will take from 52 to 55 cents to pay the cost of production. The average yield, so far as can be learned, will be about 20 bushels to the acre or more. This means a clear profit of from \$2 to \$2.50 an acre on wheat, after allowing for all labor and expenses. Oats have turned out better in proportion than wheat, and the large yield, with a price of about 25 cents per bushel, will leave a good profit on that crop.

The season has been very favorable for hay, and yields have been good. The prices quoted at present are from \$7 to \$8 a ton in the local market for loose hay. Farmers say that about half of this price is profit. Yields run from two to three tons per acre, making this crop a better paying one than wheat.

Hops promise a price ranging from 15 cents upward, and it is generally figured that all above 5 cents is profit, though growers who hire all their work done and give their yards a good spraying say that the cost of production is 10 cents a pound. At any rate, there seems to be an excellent profit this year.

The prune crop is large, and though the domestic market has not opened, has been making sales at its own price, a 2 1/2-cent basis, which price leaves the grower a "better than fair" margin.

All through the year dairy products have brought an extraordinary price, and even country butter has found a ready market at paying figures. Woolgrowers sold their fleeces this year at a high price, and sheep have been in demand all through the year.

CATTLEMEN REFUSE TO SELL.

Despite Scarcity of Feed They Hold for Better Figures.

Never in the history of the country around Dale has the cattle market been as unsettled as it is at the present time. Prices offered by export-buyers are extremely low, and the cattle raisers are refusing to sell.

Crowding on top of this, there is a scarcity of hay as compared with last year, and prices are running mountain high. Hay is selling in the field at \$10 per ton, which is \$4 higher than it was last fall. Cattle-raisers who have not a sufficient supply are trying to contract for all they can secure, but the farmer will not sell.

Again there are more cattle on the range this year than last, without sufficient feed for them. Notwithstanding the discouraging state of affairs which confront the cattlemen, he is willing to wait for further developments.

The export cattle-buyers who have been in the country have had to go to other parts because they could not secure the cattle here. The buyers give Portland quotations here at \$2.70 per hundred for cows and \$3.35 for steers. The average is \$3.75, and even better prices than that were received last year. If both the buyer and the seller continue to hold out, it is believed that there will be a number of forced sales on the part of the stockmen, and that they will sell at a loss to themselves.

No Grass to Fight Over.

There is no range war in the Upper Deschutes valley. On the contrary, there is the peace of desolation. The range was overstocked and eaten out and no grass worth making war over remains. Where neat cattle and horses once thrived by the thousands there is now none to much feed for a few hundreds. Twenty years ago there was no finer grazing region in the United States. Men who now ride all day in a cloud of dust tell of the time when the grass was up to their knees as they bedrode their horses, and cattle fairly wallowed in the feed that covered the 30 miles of present desert between Bend and Prineville.

Cowitz Navigation Obstructed.

During the recent freshets a sand bar formed at the mouth of the Cowitz river which greatly hindered the operation of the plant belonging to the Columbia & Cowitz River Boom Company. A dredge will shortly take the work of clearing the channel in hand, after which the company will put in two new piers and rearrange the sheer boom. When finished this boom will be one of the best on the Columbia river and will be of great assistance to the loggers.

To Have Brand New School House.

Canyon City is to have a new and up-to-date school building that will be a credit to the town. The school authorities are advertising for bids for its construction. The building will be two stories high and will have four class and recitation rooms. Its cost will be about \$3000.

President Smith Inspecting Farms.

E. L. Smith, of Hood River, president of the State Board of Horticulture, is in Coos county on a tour of inspection. While there Mr. Smith will visit most of the principal farms in the county.

Planing Mill Burned at Haines.

The Haines Lumber Company's planing mill, at Haines, was burned last week. The loss is \$5000. The plant was owned by James Mitchell, of Baker City, who carried no insurance.

MAY BE FOREST RESERVE.

Commissioner Richards Gives Reasons for Withholding Large Tract.

Register Dresser, of the Oregon City land office, has received from Commissioner W. A. Richards, of the United States land office, a letter relative to the telegram of recent date withdrawing certain public lands in that district from settlement. The letter directs the withdrawal, temporarily, of all vacant unappropriated lands in townships 5 to 13 south, both inclusive, range 4 east, from settlement, entry, sale or other disposal, under the public land laws, pending the determination as to the advisability of including said area within the Cascade range forest reserve.

Regarding the rights of settlers who have already located on lands included in the specified area, Commissioner Richards says: "Neither this temporary withdrawal, nor the permanent reserve of the lands which may follow, will affect any bona fide settlement or claim properly initiated upon the lands prior to the date hereof, provided that the settler or claimant continue to comply with the law under which their settlement or claims were initiated, and place their claims duly on record within the prescribed statutory period. The withdrawal operates to defeat all settlement claims or other claims initiated subsequent to this date, regardless of the date upon which you receive the telegram."

DAILY ATTENDANCE SMALLER.

Though Oregon's School Population Has Greatly Increased.

Superintendent of Public Instruction J. H. Ackerman has just finished compiling the annual school statistics as gathered from the reports recently filed in his office by the several county superintendents. As the reports for last year covered a period of 16 months, there is no basis for comparisons except in a few particulars.

The school census for the year ending in June, 1903, shows that there are in the state 143,757 persons between the ages of 4 and 20 years. At the same time last year the school population was 138,466, so that an increase of 5291 is shown.

The average daily attendance in all the public schools of the state during the preceding year has been 64,219, while for the preceding year it was 66,779, or a decrease of 2560. A decrease in the average daily attendance at the same time that there is an increase in the school population is probably due to the scarcity of labor and the high wages, which, together, take many of the older boys out of school during the greater part of the year.

Protest Against Withdrawals.

A special meeting of the Roseburg board of trade and citizens generally has been called to protest against the withdrawal of any more public lands from entry in that portion of the state. Other commercial bodies in the western part of Oregon will be invited to cooperate in protesting to the officials in Washington, D. C., and to our senators and representatives in congress against the further extension of our already immense forest reserves. Such recently proposed extensions will work serious hardships on many bona fide settlers now located on some of these lands.

To Clear Coos Bay Channel.

Replying to an earnest request submitted by Congressman Hermann, based upon a petition of the Coos Bay chamber of commerce, Secretary of War Root wires that he has appropriated \$10,000 as an emergency aid for removing the recent shoal formation in the Coos bay entrance channel, which delays deep-draft vessels. As the shoal is constantly enlarging, commerce there would have materially suffered had it been necessary to await congressional action.

LIBERTY VERY BRIEF.

Murderers Break Jail at Cheyenne, Wyo.—Fierce Struggle With Jailor.

Cheyenne, Wyo., Aug. 12.—Tom Horn, the condemned murderer of little Willie Nickell, and Jim McCloud, in custody for postoffice robbery, escaped from the county jail at 8:40 o'clock this morning after overpowering Deputy Sheriff Proctor, but were recaptured after a brief but exciting chase. The ringing of fire bells brought hundreds of armed citizens to the scene and it looked for a time as though a lynching would take place, but the escapees were hurriedly brought back to the jail and placed in their cells before the crowds could form themselves into a mob. The men did not get but two blocks away before they were retaken.

The plot which led to their escape was well planned. Horn and McCloud were the only prisoners confined on the upper floor of the jail. They occupied steel cells, so arranged that communication was comparatively easy. This morning McCloud complained to Deputy Proctor of being ill and requested some medicine and a glass of water. Upon returning with the articles asked for, he discovered that the men had left their cells, which were not locked, and had walked to the end of the corridor through which they were allowed to exercise. When Proctor opened the door to the corridor, he was pounced upon by the two men and securely bound with a cord which they had secured in some manner. Horn and McCloud demanded that he give them his keys and although Proctor had them on his person, he replied that they were locked up in the safe.

Proctor was then conducted to the safe and directed to open it. The order was obeyed, but on opening the safe, Proctor snatched from inside a gun and turned on the men. They were too quick for him, however, and soon bore him down. In the brief struggle Proctor fired his revolver at them four times, slightly wounding McCloud.

The shooting attracted the attention of Deputy Snow, who hastened to the scene, but was met at the doorway by McCloud, who had secured possession of a shotgun in some manner. Snow retreated and Horn and McCloud escaped through a rear door of the jail, after binding the arms of Deputy Proctor. McCloud secured the only horse in the sheriff's stable and mounted the animal and started toward the west. Horn ran in the opposite direction.

BUTTE JAIL YAWNS.

Murderers and Highwaymen Escape Easily—Get the Drop on the Jailor.

Butte, Mont., Aug. 12.—Three murderers, two under sentence of death, a stage robber wanted in Wyoming and two highwaymen, escaped from the Silver Bow county jail shortly after 6 o'clock this evening, without any difficulty. The men who escaped are: L. L. Felker, who escaped once before, Charles Lenox and James Martin, J. R. Woods, alias Joe Rodgers, and Patrick Rodgers. Frank Oestroff is wanted in Cheyenne for holding up a stage coach. The latter and Joe Rodgers were caught within an hour after they escaped. Oestroff was armed.

Oestroff and Rodgers planned the delivery. Oestroff complained of being sick and a doctor was called in. When the jailor opened the corridor, Oestroff dropped a revolver on Jailor William Dolan, and then took the keys from him. Oestroff then, with the aid of Joe Rodgers, opened the cells of the prisoners, and the jailor was overpowered.

Oestroff kept Dolan at bay while the other prisoners walked out of the jail. One of them secured a revolver from the jailor's office. Lenox and Martin went out the rear way of the jail, and the others coolly walked out the main entrance. Oestroff was run down by a horseman, and was completely exhausted when caught.

Senators on a Sandbar.

Tacoma, Wash., Aug. 12.—When the steamship St. Paul left Nemo 10 days ago, United States Senators Nelson, of Minnesota; Patterson, of Colorado, and Dillingham, of Vermont, were stuck on a sandbar in the Yukon river, 200 miles above Kluato. These senators compose part of the senatorial committee appointed to investigate Alaskan affairs. After visiting Skagway and Juneau, they went to Dawson and inspected Klondike mines. They started for the mining camps on the Lower Yukon on the steamer Van Fleet.

Broad Hint to Powers.

London, Aug. 12.—The Times prints a dispatch from Shanghai, which says that the anniversary of the capture of Niu Chwang was celebrated, and that Mr. Grosche, the Russian administrator, issued formal invitations for the inauguration of the Russian civil administration building, and that this was interpreted as equivalent to the declaration to the representatives of the other powers that they could not claim a footing of equality or rights in this port.

Meteor's Blaze of Light.

Chickasha, I. T., Aug. 12.—During a heavy thunder storm last night, a meteor fell here with a blaze of light and a shower of sparks that lit up the country for miles around. The aerolite struck the earth in the back yard of Mrs. Sarah Sibley. Mrs. Sibley was severely stunned. A terrific explosion occurred as the meteor struck and incandescent fragments flew in all directions. The telephone system was wrecked.

NINETY ARE LOST

TRAIN WRECK IN PARIS TUNNEL CAUSES A GREAT PANIC.

Officials Lose Their Wits and Allow Passengers to Die in Flames—Firemen Unable for Hours to Reach the Victims, Until They Finally Succeed in Flooding Burning Mass.

Paris, Aug. 12.—An awful catastrophe occurred last evening on the Metropolitan electric railway, which runs mostly underground, in which 90 persons are believed to have lost their lives. Eighty-two bodies have been recovered and the search continues. One of the trains broke down at Menilmontant, which is a poor and populous section of the city. This train was promptly emptied, and the train which followed was ordered to push it to the repairing sheds. On the way these two trains caught fire, but the employees succeeded in escaping. Meanwhile a crowded train reached Les Charonnes, the preceding station, and the officials seeing smoke pouring out of the tunnel, gave the alarm. A panic ensued, the passengers struggling to escape. Amid the increasing smoke many attempted to return along the line toward Belleville and were suffocated. The officials seem to have lost their heads and are unable to say how many passengers went out. The firemen for several hours were unable to enter the station or the tunnel, owing to the dense smoke, which poured out in black clouds. Meanwhile tens of thousands of anxious people gathered about the station. All the police and fire engines were on the spot and the excitement was intense.

CZAR UP IN ARMS.

Says Turkey Must Punish Slayer of Consul.

St. Petersburg, Aug. 12.—The czar has demanded the exemplary punishment not only of the murderer of the Russian consul at Monastir, who was killed last week by a Turkish general, but of all the military and civil officials in any way responsible for the crime.

In reporting the occurrence to the foreign office, the Russian consul at Constantinople telegraphed as follows: "The Russian consul at Monastir has fallen the victim of an atrocious crime. The grand vizier and the Turkish foreign minister have come to me with expressions of regret in the name of the sultan. Ferid Pasha, the grand vizier, informed me that the assassin was a gendarme named Halim, and that he will be subjected to the severest punishment, and the wali of Monastir will be removed from his post."

In reply, Count Lamdorff, the foreign minister, telegraphed to the ambassador:

"His majesty has received a telegram from the sultan expressing his deep regret at the death of the Russian consul at Monastir. When I showed the telegram to the emperor, his majesty gave orders that you should not confine yourself to receiving explanations from the grand vizier, but should make the most energetic demands on the Turkish government for full satisfaction and immediate and exemplary punishment of both the murderer and of all the military and civil officials on whom responsibility for the audacious crime may fall."

ROOT NOT TO RESIGN.

Secretary War Will Remain in the Cabinet.

Oyster Bay, Aug. 12.—The attention of the president tonight was directed to a circumstantial statement, published today, that Secretary Root expected soon to retire from the cabinet, to be succeeded by Governor Taft, of the Philippines. It can be said that there is no definite foundation for the story. The president, since the first intimation many months ago of Secretary Root's possible retirement, has hoped, and still hopes, that he will remain in the cabinet for a long time. He believes that the secretary will remain through the coming winter, and probably a much longer time.

Want Prices Raised.

London, Aug. 12.—The Daily News this morning prints a dispatch from Warsaw, dated last Friday, which says that an American association, said to contain 37,000 farmers, has addressed itself to the Russian ministers of finance and agriculture, requesting their assistance in raising the current prices of agricultural produce, particularly wheat, an saying that the association projects a great union between the wheat growing countries of the world for the purpose of fixing an annual minimum selling price.

Pope Aging Fast.

Rome, Aug. 12.—Pius X had another of his fatiguing days, as he received all the delegations which had come to Rome to attend the coronation ceremonies. The pontiff allowed all the members of the delegation to kiss his hand, and called by name those whom he knew, just as he had when he met them formerly when in Venice. His old Venetian friends agree that the pope looks ten years older than he did before his election.

Japanese Desire Peace.

Tokio, Japan, Aug. 12.—A number of public men, including Prince Kono, president of the house of peers, and Counts Itagaki, ex-minister of the interior, and Kuma, have formed a non-partisan association for the purpose of urging the government to invite Russia to terminate the causes of the present international complications.

FALL IN MASS.

Walk at Baseball Park Gives Way, Killing Four People.

Philadelphia, Aug. 11.—Four persons are dead, at least 12 are thought to be fatally injured, and fully 150 others are hurt, some seriously, as the result of an accident which occurred today at the Philadelphia National league baseball park. A board walk, which overhung the field bleachers, fell to the street, carrying 200 spectators.
