Now, when so many offenses of this kind are being reported, it is significant to find in a paper of the Pacific Coast, The Portland Oregonian, these editorial utterances: "There is one remedy for lynching that is little discussed, but which would prove effective, and that is for the negro ravishers to let white women and girls alone. If they will stop this one crime, justice will be permitted to take its measured way with their other offenses. This it is which sets every woman in the country against them, and is rapidly losing for them the sympathy and forbearance of erstwhile denouncers of the lynching-bee. The negro can stop lynching tomorrow. Let him let white girls alone. * * It is the only way. We have heard enough of pleas for the poor negro burnt at the stake. Let us hear something now for these helpless children, in virgin innocence and the freshness of youth, in whose thoughts nothing ever came but prayer that God would bless 'all the world,' who are condemned to a fate infinitely worse than death by one whom they have never wronged. Lynch law is irregular, and burning is unnatural, but neither is more irregular and unnatural than the crime avenged." Here a thought arises. Rape is not a capital crime in many states, but popular sentiment in cases where it is unprovoked approves of the death penalty for it. A law which punishes rape with a mere term of imprisonment is an invitation to lynch the vile perpetrator of this offense.—Law Notes for August.

W. R. Hearst, the New York congressman, and who was elected by an unprecedented majority, is the only man that the democrats could possibly elect to the presidency. Hearst would not be acceptable to the millionaires, although he is wealthy. The millionaires always support the man in sympathy with their ideas of legislation. They supported Cleveland almost to a man—baring a very few of the manufacturing capitalists. Hearst has ever stood for the betterment of labor. Labor is beginning to realize that its only show for representation in government is to enforce their ideas through electing men who are in sympathy with them. Above all possible candidates in the field Hearst stands head and shoulders acceptable to the laboring classes. He is thoroughly American, he appreciates the value of labor as an element of national strength, and he will make a formidable candidate against any man who tries to ride with one foot on capital and the other on labor, with the capitalistic foot glued to the saddle.

After all, what's the use of talking about a high moral plane for America—with a Mormon as United States senator, and with two or three polygamous Sultans in Asiatic America, and all this receiving the tacit sanction of the powers that be. Is it much wonder that we have milk and water brain cells here and there, exuding tears for the lynched negro who has brought death by outlawry, and scoldings for a community that deals roughly with fellows who go around and abuse respectable women without stint?

The snivelling apologists for assassinations of women are still wailing their mournful notes on the journalistic breeze, here and there, over the country, because communists will insist on sending the criminal beans back to dust, via the hempen rope. This vesania is a peculiar one, and occasionally attacks a female and a mother. Unlike hydrophobia, however, it is not contagious, but intellects which are weak, or influenced by hysterio-insanity. And so, then, the world has much to be thankful for, because, were this disease of sympathy for bestial brutes epidemic, the rapist would flourish like the green

bay tree; mothers and fathers would spend their time sending flowers to assassiners, while their own sons found the way to penitentiary doors. Let the country be thankful that these misguided people have neither influence nor sufficient intellect to be held responsible for their sympathy for crime in the most virulent form.

STATE FAIR TO BE FINE

Senator Wehrung Says This Year's Effort Eclipses all.

GRANDEST DISPLAY OF LIVESTOCK Races will be Better Than Last Year's Fine Agricultural Exhibits

Senator W. H. Wehrung, President of the State Board of Agriculture, is authority for the statement that this year's state fair, opening on September 14, and continuing through the week, will be the finest ever witnessed by the people of Oregon. The livestock exhibition will be positively the finest ever seen on the North Pacific Coast, and the races will be better than ever before. The agricultural exhibits from the various counties will eclipse anything yet gathered for an industrial display, and visitors to the annual gathering will enjoy the greatest fair in the state's history.
