COMMITTEE RUSTLING THE RIGHT OF WAY

Mayor Cornelius Appoints Big List of Citizens

THINK ALL WILL BE SECURED TO BEGIN

Directors of Tillamook Railroad Anxious to Begin

Last Friday the Board of Trade held a meeting and conference with Wm. Reid, secretary of the Board of Directors of the Portland & Tillamook Railroad Company, and Mr. Reid assured them that bonds were sold and that the line would be constructed as far as Banks by Fall.

All his road asked was the right of way as far as Banks. The next day the Board of Directors met in Portland and passed resolutions touching upon the line. These resolutions are signed by J. McCracken and H. L. Pittock, a prominent capitalist of Portland, and a heavy owner in the Oregonian, besides being heavily interested in the Portland Trust Company. This alone lends solidarity to the prospect, for Mr. Pittock is a man of affairs, and one who will not lend his time and influence to anything that "is up in the air."

Right of way work is progressing rapidly, and must be closed within a few days—next week some time, as the road wants to get surveyors in the field. Acting President Cornelius appointed the following committee to secure right of way, and two or three different routes are being selected:

John Milne, Dr. F. J. Bailey, Geo. A. Morgan, Sheriff J. W. Connel, W. V. Wiley, F. M. Heide, J. A. Imbrie, James H. Sewell, E. J. Lyons and John Dennis, Hillsboro; H. Taylor Hill and S. J. Rafferty, Mountindale; J. C. Schulmerich, Banks. Mr. Cornelius is the chairman of the committee, upon motion made and carried.

According to the terms of the contract active construction must begin in a very few days. Let everybody pull together, and Hillsboro will be the inland terminal of a road that will tap a rich timber belt and furnish a line to the coast.

"As the Twig is Bent The Tree's Inclined"

How is it with the young people of your household? Are they saving money? Have they learned to appreciate the value of the dollar? Are you endeavoring to instill into their minds correct ideas concerning thrift and economy? Are you seeking the opportunity to "bend the twig?" Would you like to listen to a plain suggestion? If so, here it is:

Send the young folks to our bank with the first spare dollar that comes into their hands. The next dollar should be treated in like manner, and the practice so continued until a fixed habit of saving has been established. A goodly bank account will soon result; the young folks will get an inkling of the ways of business, and, being thus "inclined" are likely to grow up into straight and thrifty manhood.
