

TILLAMOOK RAILWAY NOW SEEMS ASSURED

E. E. Lytle Expects to Tap the Big Timber District

CHIEF WANZER ON THE GROUND

Two Loads of Camp Equipment go out Tuesday

That E. E. Lytle means business is established beyond doubt—and his business is to put a railway from this county into the Tillamook country. Tuesday morning Chief Engineer Chas. Wanzer left this city with two big loads of camp equipment, enroute to Buxton, to survey the pass over into the Nehalem. The Portland, Nehalem & Tillamook road is not deterring him at all, and as this work by Wanzer, is costing him money every day it is not at all probable that it is a "hot air" deal.

On the quiet it is said that Lytle is to absorb the interests of the old company, and that the road will go out of this city, as originally surveyed by, and partially built, by the company that Edward Records came so near smashing by his failure to live up to his contract and construct the road, taking bonds to return for his labor.

Others aver that the road will go out of Forest Grove—and it may. And yet it does not look reasonable to suppose that Lytle will go five or six miles out of his way in order to strike the westerly town of the two.

Anyway, the latest move looks good to the people to the north of Hillsboro, and from all appearances there will be something substantial to report in a few days.

Farmers are complaining that the roads are again in bad condition. As a matter of fact the roads will always be in a bad condition until a system is adopted and enforced. So long as the law requires that road tax must be expended in the particular precinct wherein it is collected just that long we will continue to have bad roads. The only way to get good roads is to expend the tax on a specific piece of road each year.

Argus and Journal, \$1.75.

He felt the degree of the proceedings keenly, and was wild with appreciation when the jury found him not guilty. Mr. Huston states that he and his colleague, Martin L. Pipes, will appeal the case at once.

FOREST GROVE AGAIN IN LIQUOR BATTLE

Council Met Saturday Night and Repealed Ordinance

PROHIBITION MEMBERS ABSENT

No Liquor Element Promises Trouble for Saloon Men

Forest Grove is again in the throes of a liquor fight, and to ward off future trouble the three members of the council and the mayor last Saturday night repealed the anti-liquor ordinance. Neither the mayor nor marshal would swear to or issue warrants for alleged violation of the town statutes, and the prohibition element has been promising all kinds of trouble for the authorities. As a culmination of the threat the council met Saturday night and at the meeting there were present only those favoring saloons and who were elected on that understanding last year. The three members of the prohibition remained away. This did not stop proceedings and the ordinance was repealed.

The ordinance was already before the

and a license was given. The University enjoined them from granting the license and Judge McBride sustained Attorney Huston in his contention that the officials had no authority to grant a license under the charter—in fact, that the charter meant prohibition. The case has been appealed by Attorneys E. B. Tongue and Cate & Cate, and the affair is now briefed and before the Supreme Court.

Henry Earl Ringle, the 11 year old son of Supt. Ringle, of the water and light plant, had a narrow escape from death, Sunday morning. He was sent out to the fruit house, about 7:30, to get some butter for the evening meal, and not returning immediately, his mother stepped out to find him staggering against the wall. He had tried to turn on the switch, and had taken hold of the wire furnishing the current. Although insulated, the fact that the boy's hand was wet, his clothing damp, and his feet wet, the wire sent a full voltage into the lad, and his right hand was terribly blistered and the flesh burned. He was unconscious for several minutes. Dr. S. T. Linklater was called, and attended the lad, and part of the thumb was amputated. It is almost a miracle that the boy was not killed.

"As the Twig is Bent The Tree's Inclined"

How is it with the young people of your household? Are they saving money? Have they learned to appreciate the value of the dollar? Are you endeavoring to instill into their minds correct ideas concerning thrift and economy? Are you seeking the opportunity to "bend the twig?" Would you like to listen to a plain suggestion? If so, here it is:

Send the young folks to our bank with the first spare dollar that comes into their hands. The next dollar should be treated in like manner, and the practice so continued until a fixed habit of saving has been established. A goodly bank account will soon result; the young folks will get an inkling of the ways of business, and, being thus "inclined" are likely to grow up into straight and thrifty manhood.
