LITTLE CHILD DIES OF TERRIBLE BURNS

Elsie Mead, Four and One-Half Years, Died Sunday

CLOTHES CAUGHT FIRE SATURDAY

Little Daughter of M. M. Mead and Wife, on Frank Imbrie Farm

Elsie, the little four and one-half years old daughter of Mr. and Mrs. M. M. Mead, residing on the Frank Imbrie place, West Union, six miles northeast of here, died Sunday afternoon from terrible injuries, sustained by reason of her clothing catching fire. The child had taken a light from the fireplace, Saturday afternoon, and kindled a blaze out in the yard. Her clothing was ignited, and the child screamed and before she could be caught and the flames extinguished, her body was so badly burned that medical aid was of no avail. Dr. J. P. Tammie was called, as the attending physician, and Dr. F. J. Bailey was summoned in consultation. All possible was done to alleviate the child's sufferings, but death came Sunday evening.

The parents have the sympathy of a large number of friends in Washington County.

Speaking of evolution—Monday morning there were several tall fir trees above the Castens Bros. & Hartley mill at Manning. They were cut before noon, sawed into 40-foot studding by night; delivered in Hillsboro by eleven o'clock, and a big portion of them on end and in the new theatre building by Tuesday night. Like the "Old Georgia Sewing Machine," that's going some. The millmen and Contractor Goodin are entitled to medals as rapid change artists.

Dr. Allen Smith, of Portland, while hunting near Glencoe, Sunday, sustained a serious accident. He had just knocked down a bird, and was going through the wild apple brush, when his gun caught in the thorns. In some manner both barrels of his gun exploded and the weapon kicked back, so that the lever crashed through the palm of his hand, just below the thumb. Dr. Mackay, of Glencoe, sewed up the wound and Mr. Smith returned at once to Portland.

Earl Ringle, whose hand was badly injured by an electric shock, last week, suffered amputation of the thumb, Monday, it being necessary to perform surgery. The flesh was burned away from the first joint in such a manner as to leave the bone exposed, and while amputation could have been dispensed with, the projection would have been both unsightly and useless.

The residence of P. B. Southworth caught fire, Sunday morning, about 10 o'clock, a spark igniting the moss on the roof. The department was called out but the fire was extinguished before it was necessary to turn on the hose. The damage was very slight, the total loss probably reaching five or ten dollars.

Albert Meier, who is a son of Wolfgang Meier and wife, of near Newton, is out for a two weeks' vacation. He is working in one of Portland's big bakeries. He states that Specht & Mostert, who first put the Hillsboro bakery on a paying basis, are located on a farm near Sherwood.

Contractor T. P. Goodin now has the frame of the opera house erected, and a larger force of men will finish the structure as rapidly as lumber can be delivered. The contract calls for completion by December 1, with a forfeit of \$10 for each day's delay.

Fred Adams took possession of the Fred Olson confectionery and ice cream parlor, Monday. Mr. Olson will remain here until spring, and he will at once start in on the W. E. McCourt residence, painting and doing the interior finish.

The Oregon Condensed Milk Company shipped five cars of cream last week, and four cars were sent into the Washington territory. Orders are coming thick and fast, as their brands have established a reputation all over the coast.

John Barnes, wife and daughter, of Republican City, Neb., left for home Tuesday, after a four weeks' visit with S. S. Barnes and family. They return with a very favorable impression of Oregon and her possibilities.

F. S. Olson, who recently sold his confectionery to Fred Adams, desires to thank the people of this city for their cordial support, and expresses the desire that they continue the patronage to the new proprietor.

Master George Roundy, of North Hillsboro, left at this office Saturday, a fine vine of pea nuts, grown in the garden. They were fully matured and as large as the real "Carolina" product.

Hon. W. H. Wehrung, who has been superintendent of exhibits at the Lewis & Clark Fair, is home again, after an all summer's "in charge" of the displays.

E. C. Luce, who has been over in Seattle for several weeks, returned Friday for a visit back to his home, in Reasener, Iowa. "Uncle Henry," as he is familiarly known here, has made many friends in Hillsboro, all of whom hope he will again make this place his home—and there is no doubt that he will.

FATHER BLACK, PRIEST, BEFORE COUNTY BOARD

Came Out as Representative of Archbishop

TAXATION BONE OF CONTENTION

Archbishop Christie on His Way to Rome

Father Black, of Portland, Rector of St. Francis', was out Tuesday, before the county board, representing Archbishop Christie, who is now on his way to Rome. The question involved is taxation on the St. Mary's Home property. The priest states that arrangements are under way to spend a large sum of money in establishing an Industrial School near Beaverton, and the building alone will cost \$30,000 and more. The institution is charitable, and they feel that they should be treated as leniently as possible, for they do the work of care and education for boys at a loss, philanthropic people putting up the money. This saves the state, in every instance, because many of the lads would necessarily be cared for by the state. The school at St. Mary's is one of the largest in the state and the Catholics own a large tract of land there. A large number of foundlings and orphans are cared for at the Home and the state gives them a pittance for their support—nowhere near the actual cost. They are making good citizens out of the boys, and the prelates in charge think that they should be recognized, inasmuch as the Home is not now, nor was it ever, operated for profit. Every dollar earned on the farm goes into the fund for education and training.

YOUNG FARMER HAS CHAPTER OF LOSSES

Two Cows Die From Eating Dynamite; Then Another Loss

BOVINE BREAKS HER NECK

Showing How Misfortunes Never Come Singly

The old adage that misfortunes never come singly is well exemplified by a case in East Hillsboro. Hugh E. Moore, a rustling young farmer, who bought a place at the eastern outskirts of the city, a few months ago lost two valuable cows by their eating of dynamite. At the same time his brother's cow ate of the explosive, but lived, although the milk tasted of the hot place for a few days, and the bovine breathed blue for a week or so.

Last Saturday Mr. Moore went out to a sale near town, and bought another cow, for winter use. As he was leading the animal home, the cow made a lunge, and the rope was tightened quickly, to snub her, when she turned a somersault, breaking her neck. This makes three cows gone to the bad in the course of a few months, and the loss is felt quite seriously. Mr. Moore, however, is red-headed and an inveterate hustler, and he is picking up his rope and going after "the next cow."

Established restaurant for sale, doing nice business. Good location. Best of reasons for selling. Eight furnished rooms go with sale. Rental is cheap.—F. L. Emerson, Hillsboro, Ore.

Isaac Ennes and wife were in from Iowa Hill Friday. Mr. Ennes returned from Alaska, the first of the month, from a trip to Nome, where he was called as a witness in the federal court. He made the round trip in less than thirty days, and was \$200 to the good on the visit, over and above fare and cabin passage, with meals supplied. While the marshal told him he would get 15 cents per mile, the actual payment was but five cents per mile until travelled.

E. A. Knotts, of Tualatin, and who did a lot of contract work for Records, on the Tillamook road, was in town Friday, settling up the last dollar of claims against him. The news that Lytle was to continue the work was cheering to Mr. Knotts, as it means that the contractors of last summer will get their money.

Mrs. Amanda Holcomb, widow of the late S. A. Holcomb, pioneer, fell one day last week, at her home, near West Union, and broke one of her arms. She is getting along as well as could be expected, considering her years. Dr. Linklater attended the injured woman.

"Don't you be telling me," said the irate Hillsboro wife, to her husband, who told her he had been to see Ben Hur, at the Marquam: "It was some other 'her' that took you to town."—At this the husband capitulated, and the wife bought a new cloak the very next day.

T. R. Imbrie and wife leave this week for The Dalles for the winter. The Misses Edna and Lucille will remain a few weeks with Mrs. Susie Morgan, until they are permanently located in the upper country.

Nick Kemmer, the Cooper Mountain hop grower, was in town last Friday. Kemmer has been in the hop business for a good many years and has made it go through all manner of times and prices.

Wm. Schulmerich, D. Burkhalter, Henry Reasoner and J. C. Schulmerich returned from a deer hunt on the Nehalem, the last of the week. They landed no game, but report a good time.

Mrs. Rebecca Millar, mother of J. Millar, of Reedville, died in Portland last week, and her husband at the time her death, was critically ill. At one time they resided near Farmington.

Lost: 10 head sheep, branded with a cross below eyes. Notify Geo. Lennen, Cornelius, Route 1, or at home, 5 miles north of Glencoe.

John Uebel, of Mountaineer, was in the city the last of the week.

"As the Twig is Bent The Tree's Inclined"

How is it with the young people of your household? Are they saving money? Have they learned to appreciate the value of the dollar? Are you endeavoring to instill into their minds correct ideas concerning thrift and economy? Are you seeking the opportunity to "bend the twig?" Would you like to listen to a plain suggestion? If so, here it is:

Send the young folks to our bank with the first spare dollar that comes into their hands. The next dollar should be treated in like manner, and the practice so continued until a fixed habit of saving has been established. A goodly bank account will soon result; the young folks will get an inkling of the ways of business, and, being thus "inclined" are likely to grow up into straight and thrifty manhood.
