

RUSTLING FOR THE PROPOSED RAILROAD

Wallace McCamant is Attorney for Lytle's Company

WANT RIGHTS OF WAY EXTENDED

Also ask for Rights of Way Through to Buxton

Wallace McCamant, attorney for Lytle, who proposes to build the Tillamook railroad, has written regarding the city franchise, and he has been forwarded a copy of the ordinance making the grant. This will be extended. The Hillsboro Board of Trade is out getting extensions of the right of way between here and Banks, and a committee has gone to Buxton to confer with people up there, relative to the right of way between Banks and Buxton.

It is not at all likely that the bluff of Melville Walker will stop operations, for the new company will take the money for the bond issue, perchance it is ready for use. Engineer Wanzel is still up in the hills, surveying the pass over into the Nehalem.

MARVIN JONES

Marvin Jones, a son of Mr. and Mrs. N. H. Jones, of beyond Glencoe, died at the parental home, yesterday morning, October 25. Deceased was born July 6, 1888, and for some years has been a sufferer from tuberculosis. He was a bright, energetic young man, and a general favorite. Last summer he went into the Tygh Valley country, Eastern Oregon, to better his health, but returned without being benefited. The funeral takes place tomorrow morning with services in the Arcade school house, and interment in the local cemetery. The parents have the sympathy of a large circle of friends in the Vinelands and Glencoe country.

N. Zerbu, of Cedar Mill, was in town today.

Albert Keehn, of near Cedar Mill, was in town this afternoon.

LeRoy Tucker, traveling passenger agent of the Great Northern Railway, was in town yesterday, and made this office a pleasant call. It is quite interesting to hear Mr. Tucker tell about the predictions made about Hill's big Oriental liners, the Minnesota and Dakota. These vessels are the largest freighters in the world, and they run between Seattle and Asia. Many said they could never be utilized in sea traffic as they would be unwieldy in port. They are twin screw steamers, and the bridge of the Minnesota is 105 feet above the water line, when the vessel is laden.

G. W. Baker, of near Beaverton, while splitting stovewood one day last week, holding the block with his left and striking with the right, badly cut his left wrist, Dr. Robinson sewing four stitches to close the wound. One of the arteries was severed and the blade entered the thumb, so he will never have its free use again. The accident occurred because of the length of the ax handle, the end of the handle striking the block. Mr. Baker thinks this method of chopping should be discontinued, and rightly, too.

Harry Conaway, once agent for the S. P. here, and later at McMinnville, has been given a position by the same company in the Portland city offices, where he gets a better salary than he did as agent. It pays once in awhile to get taken off the pay-roll, especially when you get hired over with a bigger paycheck. Harry was one of the favorites when here, and his many friends are pleased to see his ability recognized by the Harriman management.

H. W. Scott, of above Forest Grove, was in town yesterday with S. H. French, of Binghamton, N. Y., and E. J. Haddleton and wife, of Rochester, the same state, showing them over Washington County. They visited the condenser and other points of interest around the county seat, and departed well pleased with the prospect. The two gentlemen were in charge of the New York building at the Lewis & Clark.

W. E. McCourt had a shipment of freight on the ill-fated St. Paul, that was founded on a rock off Cook Bay, a few weeks ago. The value of the shipment amounted to about \$25, and a San Francisco house, which furnished the bill of lading, will collect from the steamship company. So far as known this is the only Hillsboro shipment on the St. Paul.

Everybody is invited to attend a Halloween party next Tuesday evening, which is given under the auspices of the ladies of the Congregational church, in Wehrung's Hall. The phantomatic march will begin at 8:30. All who wish to join in the march are requested to bring a sheet and pillow case. Admittance 10 cents. Style is perhaps the first essential feature in K. N. & F. garments, because it is that which the eye first notes. In a professional sense, quality comes first; for style is impossible without quality. Here then, we have the two great requisites of good clothing. Prices that are right.—H. Wehrung & Sons.

Father Verhaag, of the Verboort Catholic Church, celebrated his sixtieth birthday anniversary at his home, yesterday, his visitors being Father Bucholzer, of Hillsboro; Father Gibney, of Cedar Mill, and Father Breenke, of The Dalles, who has just returned from a trip to Rome.

Emma Cornett, formerly of this county, has sued Elbert Cornett for divorce. They were married August 28, 1898, and the complaint alleges that the husband deserted plaintiff in 1904. She asks for the custody of the only child, Alma Viola, aged about 6 years.

Commencing Saturday morning H. Wehrung & Sons will give a ticket with each \$1 cash purchase, entitling purchaser to drawing on prizes as follows: 1st prize, \$15 in trade; 2nd prize, \$10 in trade; 3rd prize, \$5 in trade; 4th prize, \$2.50 in trade; 5th prize, 4-piece Table Set.

Dairy stock seems to be selling better this fall than last. S. H. Dunbar a few days ago, at a public sale, sold three two-year old heifers, for \$30, \$27.50 and \$25, respectively, and a yearling for \$14. It pays to raise stock if you raise the right kind.

H. R. Kay, of Verboort, north of the Grove, was in town today, getting out sale bills for Tuesday, Nov. 7. He expects to leave for California, about the middle of next month, accompanied by his mother.

Our fall and winter stock of ladies' dress goods is here, and it is most complete in the county. We carry the celebrated Munsing underwear for ladies and Misses Union suits.—H. Wehrung & Sons.

E. B. Sappington, of Forest Grove, and for years in the livery business here, was in town this afternoon.

Grand Ball at the Hillsboro Opera House, Saturday evening, October 28th. Walker's orchestra. Everybody invited.

A. A. Little, of Chehalis Mountain, was in town yesterday.

ASSESSMENT ROLL IS NOW EQUALIZED

County Board Adjourned Tuesday, Labors Completed

NO CHANGE AT ST. MARY'S HOME

Banker Shute Satisfies Board as to Assessment

The county commissioners and Judge Rood, sitting as a board of equalization, finished correction of the tax roll, Tuesday evening, and turned the books over to the assessor for final footings.

M. S. Barnes, of Beaverton, appeared before the board, Tuesday, and after hearing evidence his taxable land was increased 14 acres and non-taxable land decreased 14 acres, the assessment per acre standing as originally on the roll, making an increase.

The St. Mary's Home property, near Beaverton, was not increased, in valuation, but permitted to stand as originally assessed.

Improvements on Delta Hodler place, near Beaverton, reduced from valuation of \$500 to \$300, upon appearance of Louis Hodler and his corroborated statements.

Petitions of S. A. Bowers, Lella Pine-out, and Joseph Bucher for reduction of assessment, denied. Banker J. Shute appeared, and, being sworn, testified that his money was invested in property here, in Baker and Multnomah counties; that he paid taxes on property his own and in his own name to the extent of \$90,000, besides on corporation property to the extent of \$6,000 more, making his total assessment at about \$100,000. The board, after hearing his statement, did not raise his assessment on money, notes and accounts.

As county board proper the court authorized the county treasurer to turn over to Alice Parsons, note found on the person of the late W. W. Booth, killed by Sydney Brugger, a few weeks ago. The note was drawn in favor of Daniel Parsons, for whom Booth had been conducting a harness shop.

IS BOND BROKER RUNNING A BLUFF?

Melville Walker Says he Will Force P. N. & T.

ALLEGES THAT HE HAS FUNDS

Thinks can Force Action, and Says Records is S. P. Man

E. Melville Walker, who, under the instructor of Records, went to London to float bonds for the original Portland, Nehalem & Tillamook Railroad Company, alleges that he has the money subscribed by a debenture company, in England, and that the money is ready to deliver as rapidly as ten mile sections of the road are completed. He charges that Record's failure was premeditated, and that it is the work of the Southern Pacific. He also says he can and will force the stockholders of the old company, which has transferred its rights to E. E. Lytle, to go ahead and build the line.

No one seems to know whether or not Walker can do these things, but it is known that he cabled, weeks ago, that he had made sale of the bonds, and money delivery was ready as soon as the first ten miles of track was laid. It is also known that he put in a claim for over \$20,000 commission. If Mr. Walker can force them to build, and the money will be ready, no one would care how soon he cracks the whip, even if we have two lines into the clam beach.

Railroad officials say that they are relieving the car shortage just as promptly as possible, and they further say that this shortage must endure, because it is not business policy to put on thousands of dollars in rolling stock, just to move the fall shipments, which are necessarily heavy, because farmers generally want to ship all at about the same time.

Some vandal last night deliberately tried to cut a hole in the hose, used to convey water on Main street, while repairs are in operation, and he came near doing it. The gash is about four inches in length, and water is seeping through. If the officials find out who did the act of vandalism there will be something doing in the Recorder's court.
