BANKS ODD FELLOWS ENTERTAIN FRIENDS

Nine Three Linkers Visit the New Lodge Saturday Eve

MAYOR SCHULMERICH'S PRESENT

New Lodge is Flourishing, and Boys Report Good Time

Nine Hillsboro Three-Linkers visited the Banks' Odd Fellows Lodge last Saturday night, to help the brothers in a little initiative work, and the visitors reported a splendid time. After the work was over the Fellows were seated to just such a spread as Banks Odd Fellows know how to provide, and all was as merry as a wedding bell.

Mayor J. C. Schulmerich, who has an eye for the material wants of his lodge, presented the culinary department with a handsome pickle dish, which was the cynosure and pride of all observers. The dish was unique in architecture, and was built upon a model that has endured ever since primitive men left the tent for the substantial residence. A vote of thanks was tendered the donor.

The Hillsboro Odd Fellows present were: R. H. Greer, Wm. Benson, J. T. Young, C. E. Deichman, E. L. McCormick, R. Beamish, F. S. Olson, J. C. Lamkin and F. M. Kelsey.

The styles are of the latest and the materials are the most beautiful ever exhibited here, and we insure a perfect fit. If interested call and examine, or a postal card will bring samples to your homes.—Mrs. Belle R. Brown, Agent for Chas. A. Stevens & Bros., Chicago.

John Dooley was in from Greenville the first of the week, and made the Argus a call. His brother Frank recently went to Atlanta, Idaho, to see his brother, LaFayette, and who was thought to have been killed in a slide there some months ago, but the brother had left the mines about ten days prior Frank Dooley's arrival, and no one knew where he had gone. The traveller had a trip of several hundred miles for nothing.

Harry Cook was down from Cornelius, Monday, and reports the same old car shortage staring farmers in the face, up that way, that prevails everywhere. Cook is an enthusiast for the change of the deer law. He says that the open season should not commence until Sept. 1 and then should last all month extended on the last end of the season. The way the law now stands the farmer can't get out to have his share of the hunting.

Dr. C. B. Brown, of Portland, was in the city Friday, accompanied by his wife. The Dr. came near losing his sight the other day, while out on a duck hunt. He was in a blind, and some hunter opposite him shot, the charge striking the water and coming on the Dr.'s face. Both of his eyes were badly bloodshot for several days and he was unable to work for a week.

H. Taylor Hill, of Mountaineer, has returned from a several weeks' visit to the Prineville section, and says that everything is in good shape up in that part of the state. While there Mr. Hill talked with Congressman Williamson, and that statesman has no intention of resigning until after the appeal courts have finally decided his case, one way or the other.

Edward G. Knighton, of Forest Grove, has sued Hettie Knighton for divorce. The complaint alleges that they were married April 10, 1895 and that October 1, 1904, the wife deserted him, and although requested to come back, she refused. The plaintiff says he has no property, real or personal, save his clothing, and he asks for a decree without any promise.

Hon. H. V. Gates and Hon. S. B. Huston, both of this city, were speakers at the big reclamation celebration held at Klamath Falls, last Saturday. The government is putting in an extensive irrigation service down there and the government engineers were feted to a fare-you-well. Gov. Chamberlain was the principal speaker.

According to theatre goers the melodrama Saturday evening was one of the really clever productions that are rare in the town. A good sized audience attended, and the play was received with interest. The stage was rather small for the settings, but all this will be obviated when the new theatre opens.

Dennis has received his new stock of shoes,—the American Gentleman and American Lady, the best in the market. Come in and see them. The latest models. These shoes are advertised in every prominent magazine and newspaper in the world.

CASE NOW ON APPEAL AND FOUR HOME CASES

Complicated Litigation on Forest Grove Liquor Matter

SUPREME JUDGE IS A TRUSTEE

Bias is Given a Warranty Deed to Miller

The anti-prohibition people of Forest Grove are anxiously awaiting the decision of the Oregon Supreme Court on the appeal from the decision of Judge T. A. McBride decreeing that Forest Grove's charter prohibits the licensing of a saloon. Last January Forest Grove elected three Councilmen and a Mayor, who were openly in favor of granting a saloon license, thus hoping to do away with illicit sales of liquor, which for years has burdened the court of this county—in fact, license or no license was the issue. A decisive majority favored license.

A. G. Watson made application for saloon license, and three of the Council and the Mayor voted to grant the petition. At this juncture Pacific University, the Congregational College, asked for an injunction prohibiting the issuance of the license on the grounds that the charter, itself, was prohibitive. McBride decided that the charter absolutely denied the right to license a saloon, and further action was stopped. The court decided that the word "regulate," which is in the clause governing the sale of liquor, had no connection with license rights.

The recent cases filed by Pacific University, asking for reversion of lands in four instances where liquor is alleged to have been sold, revives interest in the contest.

A peculiar coincidence connected with the case on appeal by the city of Forest Grove is the fact that Justice Wolverton, of the Supreme Court, was selected as one of the trustees of the University after the liquor case went to trial.

C. F. Miller, Chas. Hines, Mort Hallett and Jas Johnson are sued for property reversion. E. B. Tongue will defend two of the cases and Geo. R. Bagley, one, if not two. Another complication is the fact that A. Hinman deeded the Miller property with a warranty, not putting in the restrictive clause.

A CHANCE TO HELP

Chas Kappler, of Saginaw, Michigan, has opened a bootblack stand at the Jeffers' barber shop, and solicits the patronage of all people. Irrespective Mr. Kappler is a deaf-mute, possessed of a fair education, and he wants to make a living by work, until he can get enough ahead to start a little business of his own. He has been out here two years, trying to find a brother, but says he has not succeeded. He likes the country, and wants to stay here, but states that it takes too much money to start up in Portland. The Argus hopes that the young man, who isn't afraid of work, will have plenty to do, and encourages the public to patronize him.

GOES TO MEXICO

A. N. Stanton, owner of Holly Farm, west of town, departed last Friday for an extended visit to a rubber tree plantation down in Mexico—just to see how things look down in the tropics. Mr. Stanton is interested in the plantation, and associated with him are men of prominence like Governor Hoard, of Wisconsin, and other men of national prominence. This plantation has its own schools, its own churches, and taken altogether, is quite a community affair. The promoters expect a big thing out of their investment as soon as their trees get to bearing in good quantities.

Mr. C. O. Portwood, cashier of the new bank at Condon, and Miss Maude Hoover, Fossil, Ore, were married at the home of the bride's parents, at Fossil, October 30, 1905. Hamilton Brooks and wife, Wm Streeter and wife and H. H. Herdman, of Portland, were guests of J. W. Bailey and wife, Sunday. Mr. Herdman is a writer of repute, and a regular contributor of the Pacific Monthly.

Director of Exhibits H. E. Dosch has sent out silver medals awarded by the Lewis & Clark Fair as follows, for this county: Climax Milling Company, Moss Rose Flour; County Lewis & Clark Club, preserved fruits, collective exhibits; Chaucery Johnson, honey; Oregon Condensed Milk Company, Oregon Grape and Pacific Cream; A. Reuter, Forest Grove, collective exhibit of wines.

If you want brick for any purpose, or building blocks for a foundation, remember that the Groner & Rowell Company, of Scholls, can supply your demands. They have a fine lot of lumber, rough and dressed, in their yard, and will meet all competition. Now that your crops are harvested, would it not be a good idea to consider if tilling will not increase your income. Wet, low spots in the fields, always giving poor results, can be remedied by putting in tilling. Let us help you. We can aid you to avoid crop failure on low lands. House and barn bills for lumber on short notice—and do not forget that we can furnish you estimates on short notice. Post office address—Hillsboro, Oregon, R. F. D. No. 2. Mr. Wanzer was Portland's engineer, succeeding Elliott, and he is considered one of the most efficient engineers on the coast.

THOS. WITCOMBE'S IDEAS

"In travelling among the farmers of the Willamette Valley," said Thos. Withcombe, yesterday, "I find that since the supply of fine stock at the Lewis & Clark Exposition, and the agitation of conducting an annual International stock show at Portland, there is getting to be quite an extensive inquiry for fine stock of all kinds. I believe that a yearly stock show in the city of Portland would help this Pacific Northwest immensely. The quality of stock we raise is so good that, with proper encouragement, the East is very likely to come here and buy our stock. France fostered and encouraged horse breeding, now French breeders are becoming immensely wealthy. Nothing encourages the improvement of the fine stock more than stock shows run in a proper manner."—Oregonian, Nov. 7.

Miss Nellie Murray, of Portland, was the guest of Miss Lena Hesse, Sunday.

Fred Uager and family, of the Dakotas, have arrived here for permanent residence, and he has bought one of the Binkley places in East Hillsboro.

No. 3 Hercules Stump blasting powder for sale; also fuses and caps; at Portland prices.—G. Hager, 8 miles northeast of Hillsboro, on Holbrook road, 14 miles southwest from old Phillips postoffice. Address, Hillsboro, R. F. D. 4.

Frank Weisenback, manager of the Ray hop farm, at Witch Hazel, was in town Saturday, and reports that in the new hop yard this season he raised 1602 sacks of potatoes from 80 sacks of seed. The hop yard this year produced 686 bales of hops, averaging 190 pounds to the bale.

"As the Twig is Bent The Tree's Inclined"

How is it with the young people of your household? Are they saving money? Have they learned to appreciate the value of the dollar? Are you endeavoring to instill into their minds correct ideas concerning thrift and economy? Are you seeking the opportunity to "bend the twig?" Would you like to listen to a plain suggestion? If so, here it is:

Send the young folks to our bank with the first spare dollar that comes into their hands. The next dollar should be treated in like manner, and the practice so continued until a fixed habit of saving has been established. A goodly bank account will soon result; the young folks will get an inkling of the ways of business, and, being thus "inclined" are likely to grow up into straight and thrifty manhood.
