## NEW PRIMARY LAW MAKES LOTS OF WORK

### Candidates for Office Must Get Busy Soon

### MUST FILE PETITION WITH CLERK

Date of Primary Law For This Year is  
April 20

The new primary law which goes into effect this year will make a revolution in our nominating and election procedure and prospective candidates will have to get on the primary ticket by circulating a petition and filing it with the County Clerk. The date of the primary election for this campaign is set for April 20, and the registration for this election will close 10 days prior, or April 10.

Candidates must therefore virtually go through two campaigns—one against applicants within their own party and then at the general election. ## SLEET MAKES BONES BREAK

Forest Grove, Ore., Jan. 1.—The sleety weather Sunday was responsible for two serious accidents in this vicinity. Samuel Markee, aged 87 years, came out on the porch of his home in this city, and started down the steps when he slipped and fell, striking on the step in such a way as to break one thigh bone just below the hip joint. Owing to his age and the severity of the shock, fears are entertained of the result.

Another accident from the same cause happened to Mr. Runyon, an old gentleman living near Dillley, two miles west of here. He was walking along the railroad track, carrying an ax on his shoulder. In attempting to cross a cattle guard he slipped and fell, and the edge of the ax struck him on the neck, inflicting a dangerous cut. He lost much blood and is in a serious condition.

## EDDY BAKER DIES FROM SHOT WOUND

### A 22-Calibre Bullet Entered Pleural Cavity

### DID NOT LODGE IN THE MUSCLES

Was Shot While Playing With a Neighbor Lad

Eddy Baker, a nine year old son of Geo. Baker and wife, of near Middleton, died Thursday evening from the effects of a 22-calibre bullet, which he received Christmas Day, while playing with a neighbor's boy. The shot was first supposed to have lodged in the muscles of the boy's back but later it was found that the bullet had gone through and lodged in the pleural cavity. Blood poison set in and the little fellow passed away inside of three days.

The family is grief stricken over the affair, as well as the lad who was playing with deceased.

## GUSTAV HICKETHIER

Gustav Hickethier, a marble dealer, died in Portland the last of the week, and his remains were interred here Sunday. Deceased at one time lived out near Laurel, but recently moved to Portland. A few months ago Hickethier opened a marble shop on Main street, next door to the Hartrampf feed store, but illness prevented him from doing any business. He had a tumor on his neck and sustained several operations. Deceased was born in the old country. After coming to Oregon he engaged in the tombstone business and finally drifted to farming. Later he again embarked in business, but only with moderate success. He leaves a wife and a small family.

## THE ROAD QUESTION

If the road supervisors in each district will next year adopt the drag or split-log system on the highways Washington County will next year have good roads, no matter how rain falls. All this soil needs is a decent drainage from the road centers, and water will run off as easily as from a duck's back. Each year thousands of dollars are spent on our roads and when winter comes we have no appreciable results. Tax money spent with the drag system will bring results, with drainage first, as a foundation. There is no need for bad roads here.

## WILCOX ON APPLES

Assessor Geo. H. Wilcox, who has had a great deal of practical experience in the fruit growing business thinks that if orchardists will give their trees the care necessary that this section of Oregon can beat the world in apple growth and flavor. The extra care necessary, however, involves a great deal of time, but it will be repaid by a fine production and a saleable article that will bring its own price. Washington county apples are away ahead of the Hood River product for flavor and substance—but there must be plenty of spraying and the San Jose scale must be eliminated.

## FORMER HILLSBOROITES

## "As the Twig is Bent The Tree's Inclined"

How is it with the young people of your household? Are they saving money? Have they learned to appreciate the value of the dollar? Are you endeavoring to instill into their minds correct ideas concerning thrift and economy? Are you seeking the opportunity to "bend the twig"? Would you like to listen to a plain suggestion? If so, here it is:

Send the young folks to our bank with the first spare dollar that comes into their hands. The next dollar should be treated in like manner, and the practice so continued until a fixed habit of saving has been established. A goodly bank account will soon result; the young folks will get an inkling of the ways of business, and, being thus "inclined" are likely to grow up into straight and thrifty manhood.
