

FRED HURFORD TRIED ON TOLLGATE CHARGE

Judge H. T. Bagley Heard Case Yesterday in This City

IS TAKEN UNDER ADVISEMENT

United Wire Holding Chain Lins, and Passed Through

Fred Hurford, of near Newberg, was arrested for unwinding a wire in a chain which fastened the toll-gate at the Tillamook toll road, last Friday, and had his hearing before Judge H. T. Bagley, yesterday, the case being now under advisement. Mrs. Lee, the toll tender, swore that she asked for \$1.50, the total toll, as the gate at the Tillamook end had been chopped off. She said Hurford offered her twenty-five cents, the Washington County toll, and later offered her \$1.50 provided she would sign a receipt. She answered him that she had not been told to sign receipts and Hurford then withdrew his offer, unfastened the wire, and went through, the woman refusing to quarter tendered.

Thos. H. Tongue Jr. prosecuted and M. B. Bump defended. Bump contended that the description of the road in the original petition was not sufficient, while Tongue held that the petition asked for a toll road from the Parsons' place to the county line on the Wilson River road. Tongue contended that this was sufficient as there was but one Wilson River road in the entire county and the other terminus would necessarily have to be at the county line.

The case will be decided as soon as Judge Bagley looks up the law governing the leaving of toll roads. Judge Bagley allowed Hurford to take down \$200 of the \$300 that he put up for appearance and he returned home.

GOSNEY PATER MARRIED

Luther M. Gosney, aged 73 years, and once well known here as a carpenter and builder, was married at Baker City, August 22, 1906, to a Mrs. Katherine Gibson, aged 72 years. Gosney went from here to Astoria, and later to Baker. His wife died several years ago. Gosney settled on a ranch up above Baker, and is making him a new home. He told the bride that he would marry her if she would cook his meals and keep house for him, and a bargain was made. The groom came here in 1853, settling in Portland, later going to Tillamook, and then settling in Hillsboro.

HAVE YOUR OWN TELEPHONE

Representatives of the Pacific States Telephone & Telegraph Company have started a house to house canvass among the farmers of this county, offering an extremely low rental rate for instruments to be used in connection with the central offices of the Company throughout the county.

For .08 cents a month the subscriber is given free switching with all other subscribers connecting with his central exchange. Under this rate it would appear that no rural resident need be without a telephone and its attendant advantages, especially as every assurance is given of prompt and efficient service.

Mr. Wm. E. Clayton is in charge of the canvass in this county and he states that he may be seen at the central in Hillsboro, Ore., or will visit any community or organization of farmers interested in telephone matters, who wish to institute a line of their own.

ONION CROP WILL BE LIGHT THIS YEAR

Are of Extra Quality, However, and Acreage is Big

BULB NOT AS LARGE AS USUAL

Harvest Will Commence Earlier Than Last Year

The onion harvest will commence earlier this year than last season, owing to the extreme dry Summer. The bulb is not as large as in former seasons, but extra quality will make up for the shortage of yield. For many years the Washington County onion has commanded the top of the market, and they invariably pay a better price than the irrigated product from California. There are hundreds of acres planted along the Tualatin and swales leading off the river valley.

The largest growers in the county are Fanno Bros., below Beaverton; David Reghito, Beaverton and Sand Pit; Joe Galbreath, Sherwood Tualatin, who has 20 acres; Thompson & Son, Tualatin, 20 acres; D. P. Corrieri, on the J. C. Hare place, Hillsboro, 17 acres. Many from Cornelius down to the Willamette have in from one to seven acres, and altogether, with the new acreage, the output will be as large as last season's production.

Dr. Linklater attended the little fellow. The brake refused to work, the shoe being gone, and the horses were beyond control.

Theodore Pointer, of Sylvan, and who came here in 1850, and settled the next year on the Portland mountain, came up today, and for the first time in all these years made his first continuous trip out of Portland, by rail, to Hillsboro. He has always heretofore boarded the train at Beaverton, but this morning he went on in to Portland on the car line and then took the noon train out.

The old report is again current that the Southern Pacific will electrify Fourth Street, and put on an electric service as far out as Forest Grove. It is also stated that they will put a line down through the Tualatin country, and build a bridge across the Willamette, to carry their freight into the metropolis. We have heard this for a good many years, however.

TWO PARTIES IN AN AUTOMOBILE

bearing the number 211 ran Bob Tompkins off the grade on the highway near the 56th place, on the Patton Valley road, this side of Gaston, one day last week, and the officers have made a vain search to find the offender. The number of the machine was telephoned to Portland, but to no purpose. Mr. Tompkins had his wife in the rig and the auto driver, upon seeing the horses begin to back up made no attempt to slow up his machine, and neither did he stop to see if any damage was done. Fortunately neither Mr. Tompkins or wife was injured.
