A Square Deal

Is assured you when you buy Dr. Pierce's family medicine—for all the ingredients entering into them are printed on the bottle wrappers and their formulas are attested under oath as being complete and correct. You know just what you are paying for and that the ingredients are gathered from Nature's laboratory, being selected from the most valuable native medicinal roots found growing in our American forests and while potent to cure are perfectly harmless to the most delicate woman or child. Not a drop of alcohol enters into their composition.

A much better remedy than any other for coughing and sneezing, the medicinal principles being in the most refined and purest form. This agent possesses intrinsic medicinal properties of its own, being a most valuable antiseptic and antiferment, nutritive and soothing demulcent.

Glycerine plays an important part in Dr. Pierce's Golden Medical Discovery in the cure of indigestion, dyspepsia, and weak stomach, attended by sour risings, heart-burn, foul breath, coated tongue, poor appetite, gnawing feeling in stomach, biliousness and kindred derangements of the stomach, liver and bowels.

Besides curing all the above distressing ailments, the "Golden Medical Discovery" is a specific for the mucous membranes, as catarrh, whether of the nasal passages or of the stomach, bowels or pelvic organs. Even in its ulcerative stages it will yield to this sovereign remedy if it be persevered in. In chronic Catarrh of the Nasal passages, it is well, while taking the "Golden Medical Discovery" for the necessary constitutional treatment, to cleanse the passages freely two or three times a day with Dr. Sage's Catarrh Remedy. This thorough course of treatment generally cures the worst cases.

In coughs and hoarseness caused by bronchial, throat and lung affections, except consumption in its advanced stages, the "Golden Medical Discovery" is a most efficient remedy, especially in those obstinate, hanging coughs caused by irritation and congestion of the bronchial mucous membranes. The "Discovery" is not so good for acute coughs arising from sudden colds, nor mistle it be expected to cure consumption in its advanced stages—no medicine will do that—but for all the obstinate, chronic coughs, which, if neglected, or badly treated, lead up to consumption, it is the best medicine that can be taken.

Oregon has made many political mistakes, many of which bordered on criminal negligence, but if by hook-crook it should send him to the senate it will have earned a notoriety that will make it famous as a "don't-care-a-d---" state.

W. J. Bryan has started for home after a year of absence, travelling over the world. From the fears of the trust-ridden press he seems to a more formidable Bryan than heretofore.

FACTS THAT TALK. THIS space has been purchased by Pacific University. This same matter will appear in each issue until the expiration of the advertising contract. It is an advertisement that is intended to convey to Washington county citizens a few facts about an educational institution with which they are not unfamiliar. That they, as well as others, may become more familiar with Pacific's present standing, within and without Oregon, illustrated literature, fresh from the press, may be had for the asking. This literature is replete with facts that tell and figures which convince. The articles are written by alumni and students of Pacific. They are all well worth the reading. Those contributed by students set forth present conditions in the institution, and are convincing because they are true. Of special interest are the articles written by alumni, Hon. H. W. Scott, Editor-in-Chief of the Oregonian and Rev. Horace M. Ramsey, Rector of St. Stephen's Church, Portland. Pacific University has the largest endowment of all the private colleges in the Northwest. In buildings, laboratories and library it is the best equipped Christian college in Oregon. Not only does the amount of its productive funds very far exceed that of any of these institutions in the State, but it is greater than that of all combined. For this reason Pacific has always been able to secure superior instructors and has never had to depend upon the enrollment of students for its income. Pacific University in the past has been rather conservative in the matter of advertising. And it makes public these statements now, only because there are reasons why it seems advisable. Pacific still adheres to its policy of desiring students rather than numbers; of maintaining creditable scholarship rather than crowded enrollment. THE FALL TERM OPENS SEPTEMBER 19
