WHOLE ORCHARDS GET THE PRUNING KNIFE

Agitation is Doing Fruit Industry a Great Benefit

THOUSANDS OF TREES PRUNED

Along the line of the Southern Pacific Railway in this county there is great butchery of apple trees, and this is especially the case with old orchards. In many cases old orchards have been trimmed down to the trunks and a few limbs.

On the hill lands, notably above Forest Grove, Gales Creek, and up in the Mountindale highlands and the Vineland section, there is very little scale. This is because the farmers up there have generally set more store by their fruit trees than they have in the valley and for the further reason that the orchards are younger.

A Portland physician tells the public that the kissing habit spreads the "lagrippe." This is deplorable and several Hillsboro engagements have been broken off as a consequence. Just why young people should object to a little kissing continues under the circumstances is hard to understand. What woman wants to kiss a man who is running from his nose like a horse with "pinkeys," and what man wants to kiss a woman who has the "sniffles," anyway? Just as well cut it out until the apple blossoms come.

"Get the habit." Go and see Ed Anderson's big scenic production, "The Midnight Flyer," at the Crescent Theatre, Friday, Feb. 1, the most gorgeous production since the "Christian." See display ad. for prices.

Those old pioneers who last Fall told us that we were going to have a hard winter because the squirrels were laying in a good supply of nuts; because the bark on young trees were thick on the north and east; and for several other reasons, now have the laugh on the skeptics.
