

CITY WILL DO MUCH STREET PLANKING

Work to Commence Within 30 or 40 Days From Date

COVERS HIGHWAY TO THE DEPOT Charter Requires Thirty Days' Notice. Passes Condenser

The city council has decided to plank First Street from below the condenser, North either to Milne's corner, and thence east to Second, or straight on up first to Baseline. This will give the city a planked street clear to the depot. Other planking will be done, but this is the most important as nearly all the hauling goes over this route. Thirty days advertising is required and then just as soon as the street committee can get the lumber the material will be laid.

A peculiar coincidence about this work is the fact that one of the city's papers made a great roar about the street's condition in last week's issue, while in another column was the advertisement to cure the affair.

The work in question will be borne by the city and property owners adjacent, the latter paying one quarter of the expense.

Geo. Washington and Grant Zumwalt leave Friday for Tillamook, where they go as witnesses in a "liquor without license" case. Geo. doesn't at all relish the trip, even if there is ten cents a mile in the journey. "Bricktop" is the lad who worked Washington into the trip, and he did it in fine shape. When Geo. started to come home from Tillamook, last Fall, he took a small flask along to cheer him up coming over the big hill. He paid for it, but, later, when "Brick" was gathering evidence as a deputy sheriff, and knowing Geo. had gotten the "help" over the hill, he found Washington in company with Grant Zumwalt, in this city. Brick said to Washington, "That fellow says you didn't pay him for those two flasks." "Sure, I did," said George, "and, besides, I loaned you money to buy a flask at the same time." Bricktop had the evidence that he wanted, admitted in the presence of a witness, and as a result the two make the trip over to aid Sheriff Crenshaw. Washington, however, thinks it a sort of a Greek gift, and doesn't appreciate it at all.
