

LID WAS OFF FOR ALL DAY SUNDAY

Confectioners Sold Openly And Are Arrested

CASES TO BE TRIED TOMORROW

Ice Cream Dispensed in Violation of Order

The lid was off Sunday last in this city, and as a result two confectioners have been arrested. Lorne Palmateer and H. A. Walker were both summoned Monday to appear before Judge H. T. Bagley, Tuesday, and plead. They appeared and pleaded not guilty, and Mr. Palmateer will be tried Friday (tomorrow) and will demand a jury trial. Both confectioners were wide open Sunday, and after the 5:30 train arrived, with a cargo of ice cream, Palmateer's was the busiest place in the city. The place was crowded, for it was sultry, and ice cream was the solace sought. On Monday Deputy District Attorney Wall had many witnesses brought before him and late that evening complaints were sworn to by that officer.

Bagley & Hare will defend the case, and they will make a determined fight to protect their clients. There is a strong sentiment against closing these resorts on Sunday, and people generally think it savors too much of blue laws. The prosecuting officer, however, contends that the law must be enforced, and will convict if he can do so. Forest Grove and Beaverton confectioners, it is said, had agreed to remain open, but at the last moment they weakened, leaving it for the county seat parties to make a test of the law. The case is attracting much interest, and the affair is getting to be more or less personal.

THOS. KING DIES

Thomas King, a farmer residing about two miles east of Gaston, dropped dead while seeding in his field, Tuesday afternoon. Dr. Baker and Judge E. X. Harding went over to the ranch from Gaston, and it was decided that an inquest was not necessary as the fact was clearly established that he was subject to heart failure. Coroner E. C. Brown was notified but decided the expense of an investigation was unavailing. King was about fifty years of age, and leaves a wife and several children. The funeral took place today.

Farmers Take Notice

W. B. Cate & Son have a fine black Spanish Jack at the Hawthorne place, and he will be placed in the stud this season. Farmers who desire to raise mules that will be marketable should look this fellow over. They also have a fine young Clydesdale stallion that will be in the stud for a few select mares.

Jury service in justice court, where one gets but one dollar per day, is not much sought after these days, but Constable Redmond today rounded up six to try the case of State vs. Williams. Excuses were of no avail, and the following were sworn in: Ed. Schulmerich, E. L. Abbott, J. W. Hartkamp, R. H. Greer, August Tews and James H. Sewell.

Albert Ives, who some months ago was confined in the county jail in default of bail, and who was charged with having lived with a woman not his lawful wife, the other day had Chas. Williams, of near Gaston arrested. Ives claims that Williams assaulted him, but Williams, on the other hand claims that Ives was the aggressor. Anyway, Williams, who comes from a family that will fight some, gave Ives considerable of a physical poling and adorned his features to a fare-you-well. Ives then swore out a warrant, and the case is being tried by a jury in Judge Bagley's court, today. Williams is wedded to a step-daughter of the complaining witness.

I am now prepared to show you the Chas. The Forest Grove school nine came down last Saturday, and beat the local school nine from Dan to Bersheba. Last Saturday evening, some thirty-one of the Reedville people walked in on Mr. and Mrs. Jas. E. Borwick, and honored them with a party. Games and music were the order of the evening, after which a lunch was served.

A crowd of forty-one went to the O. O. W. Hall where room was plentiful, and everyone had a good time. The lunch consisted of ice cream and cake which was contributed by the party.

THE STATUTE ON CONTAGIOUS DISEASE

Families Will do Well to Read Rulings

CARE MUST ALWAYS BE USED

As Children's Diseases Are Prevalent, Read up

As the whooping cough, mumps, and diphtheria are prevalent here and there all over the county, although not dangerous, it might be well for families to read the following rules laid down by the board of health of the State of Oregon. The rules governing quarantine and action follows.

RULE XV. No person shall be admitted into any public, parochial, or private school, or college or Sunday school, from any house or building in which has recently occurred a case of dangerous communicable disease, without first presenting a certificate, signed by a reputable physician, that all danger of communicating such disease is past.

RULE XVII. No parent, guardian, or other person having charge or control of any child or children, shall allow or permit any child or children to go from any house or building in which a case of smallpox, diphtheria, membranous croup, scarlet fever, whooping cough, or other contagious disease has recently occurred until such house or building has been properly disinfected, and quarantine has been removed by the Health Officer.

It shall be the duty of every physician called to attend a person sick, or suspected of being sick, or in the absence of a physician, every household, wherein such sickness is found, to report in writing within twenty-four hours thereafter, giving the name and residence of all cases of cholera, yellow fever, smallpox, diphtheria, membranous croup, scarlet fever, typhus fever, typhoid fever, or bubonic plague, or any other contagious disease, to the County Health Officer, or other health officer who has jurisdiction in the territory.
