EX-RADIUM INSTITUTE LOSES ITS CLAIMS

Judge McBride Decides That Ausplund was Well Paid

SIX HUNDRED DOLLAR CASE LOST

His Honor Decides Against Exorbitant Surgical Fee

Judge McBride decided last Friday, after two days of hearing, that Dr. A. A. Ausplund, of the Portland Ex Radium Institute, was entitled to no more money than he had received—which was \$80—for services rendered Alex Diamond's wife at childbirth some months ago. The Portland physician sued for \$595, and two times he took voluntary non-suit, and would then commence over again. Later he filed again in Portland and then to clinch the complainant and keep him in court Diamond answered and claimed \$6,000 damages by reason of incompetent practice. Ausplund agreed to having the case tried here and a change of venue was secured. While the court decided Diamond was not entitled to damages he held that Ausplund was well paid for the nature and success of his surgical and obstetrical work and Diamond is \$595 ahead of what he would have been, save his lawyers' fees, had he paid without question.

J. M. Long, of Portland, and Bagley & Hare defended the case for Diamond. Mrs. Diamond's parents reside near Cedar Mill.

C. E. HARBAUGH

C. E. Harbaugh, of Scholls, and who was working for the Groner & Rowell Company, died Sunday morning, about 6 o'clock, from an attack of heart failure. Mr. Harbaugh and family were occupying a tent close to the Sebolla bridge, and early in the morning arose for a few minutes, and then returned to bed. His wife noticed that he breathed heavily, and receiving no response to a question, summoned neighbors. He died, however, before aid arrived. Harbaugh was 48 years of age, and founded the McMinnville News some years ago. The paper was later merged with the Reporter. His widow and seven children survive him. Corner Brown went to the Harbaugh home, accompanied by Dr. W. D. Wood, as physician. It was at first thought that Mr. Harbaugh might have taken poison, either by accident, mistaking it for medicine, or by design, but an examination by the physician dispelled any such theory.

Harbaugh had been with the Groner & Rowell people about two months, coming there from Portland. His family had been with him but a few weeks. For the past few years he had been in the real estate business in Spokane.

Geo. Darsty, of beyond Glencoe, was in town Saturday.

One hundred and fifty six from Forest Grove, Hillsboro, Cornelius, Dilley and Gaston, went to Carlton, Sunday, and watched the colts beat Carlton's crach-a-jack ball team, the score being 6 to 3. Up until the fourth inning it was horse collars, when the Carlton nine put three runs across the plate. Forest Grove continued to hang up doughnuts until the sixth and seventh, when they batted the ball for six scores. The colts did fine work with but two or three costly errors, and it was a great game. Copley batted, John Wirtz batted, Bettis batted, the two Schultz boys batted, Britton batted, Getter batted, Moore batted, and Davus batted—the whole bunch did great stick work at the last, and it was a game worth the candle. Bettis made one bad error but the way he saved the day was admirable. In one inning he only pitched 10 over the plate, and three men were retired at the nose of the catcher. It is estimated that Carlton lost 300 on the game, the Carlton boys betting the limit. Carlton is a pretty little mill town up in Yamhill, and the young fellows are a neat looking bunch of boys all the way through, and there was no rowdiness. The colts play McMinnville next Sunday, and it will be a great game. Each has won a game and the coming event decides which is the better team.

He has seen Washington County grow from four or five hundred acres of plow land to one of the richest counties in the state, and he expects to live to see Portland, which had but two or three business houses when he arrived, grow to a city of 400,000.

HOW TO GET COUNTY HIGH SCHOOL BUILT

Statute Covering Method of Determining to Construct

TAKES THE MAJORITY OF VOTERS

Teachers Must be of High Order, and Graduates of Institutions

Ament the agitation now going on for a High School in Washington County, the Argus has been requested to give the law governing the method of introducing such an institution. It simply requires a majority vote and after this has been canvassed the county board selects a site. It requires but a petition signed by one hundred or more qualified electors, who must be taxpayers, to get the matter to an election. The statute follows:

There may be established in any County in this State one or more County High Schools, provided that at any general or special election held in said County after the passage of this act a majority of all the votes cast at such election upon the proposition to establish a County High School shall be in favor of establishing and maintaining such County High School or schools at the expense of said County.

The County Court, at any general election to be held in any County after the passage of this act, upon the presentation of a petition signed by one hundred or more qualified electors, taxpayers of said County, must submit the question of establishing and maintaining a County High School to the electors thereof. The County Court, if they deem it expedient, may order a special election for such purpose. Such election shall be conducted in the manner provided by law for conducting elections. The ballots for such election shall contain the words "For County High School, Yes" and "For County High School, No" and the voter shall indicate his choice as provided in the Australian ballot law.

If the majority of all votes cast on the proposition to establish a County High School are in the affirmative it shall be the duty of the County Court, within thirty days after canvassing said vote, to locate the said school in some suitable and convenient place in said County.

The County Court shall also estimate the cost of purchasing a suitable lot, erecting a building and furnishing the same for the accommodation of such school, with the cost of conducting such school for the next twelve months; provided, that the County Court, or the High School Board, as herein constituted, may rent suitable rooms for the accommodation of the school.

All teachers employed must be graduates of Oregon State Normal, or graduates of some institution of collegiate or university grade, or holders of state certificates or diplomas, and the school is open to pupils who have passed the eighth grade finals.

In case the vote shall be favorable to a High School there will be no expense for a site, and conditions can easily be met that will furnish a splendid library for the use of the school.

She remarked: "Oh! see what a pretty cow over there, only there something the matter with her horns—they're crooked." The men soon had the cow transformed into a buck—of course it was a buck, for there are no does this time of the year—and had venison enough to give Judge Goodin a piece, as he happened along just as they were skinning the game.

CIRCUIT COURT ADJOURNED

Judge T. A. McBride closed circuit court last week and there will be no further business until the November jury term, except for a day or so, in specially set cases, perhaps. The final chapter of court follows:

Nora Hill vs Daniel Hill, divorce granted; Stefan Batke vs Anna Batke, divorce granted; Holland vs Rhoades, mechanic's lien, non-suit; Lillian Bond vs B. F. Wagley, and same versus Sheriff Connell, suits for \$10,000 from each defendant, dismissed; Chas A Wyman vs Caroline Ladd et als, default and decree; Green vs Green, decree of divorce.

The Fourth of July committee has paid all its bills except \$6, and this includes all the expenses for the celebration; all the work done on the grounds putting them into shape and getting them underbrushed; besides leaving \$140 worth of lumber on the grounds for future use at Shute Park. The city so far has not expended one dollar, and it went so far as to appropriate \$100 toward putting the grounds in shape, the money remaining undrawn. One hundred dollars of the work, however, put on the park, came from subscription money collected by Ed. Schulmerlich on the right of way, and not needed by the committee on that proposition.

The Milne warehouse has been leased by Geo. A. Brown, and he is ready to receive hay and grain for storage at reasonable prices. All storage business will receive prompt attention.—Geo. A. Brown, Lessee.
