We have received a copy of the New Improved Hour Book, published by Lewellyn George, Astor, Oregan, Portland, Oregon. It contains much information about astronomy and astrology, price 50c. That Washington county can grow field and sweet corn abundantly, is evidenced by the fine crops of that cereal everywhere. Many, if not all the dairymen hereabouts raise it for ensilage. Under irrigation it could be grown more profitably than at present. The creek bottoms are especially well adapted for its growth. Twenty years ago, many people contended that corn could not be grown in Oregon.

Ed. J. Lyons, well known in this city, had the misfortune to fall in Portland, last Friday, while running to catch the Hillsboro train, and fractured two ribs. Verdict for Dr. Pierce

AGAINST THE Ladies' Home Journal.

Sending truth after a lie. It is an old maxim that "a lie will travel faster than truth" and no doubt hundreds of thousands of good people read the unwarranted and malicious attack upon Dr. K. V. Pierce and his "Favorite Prescription" published in the May 1894 number of the Ladies' Home Journal, with its great black display headlines, which never saw the humble, groveling retraction, with its inconspicuous heading, published two months later. It was boldly charged in the land-reviling and libelous article that Dr. Pierce's "Favorite Prescription" for the cure of woman's weaknesses and ailments, contained alcohol and other harmful ingredients. Dr. Pierce promptly brought suit against the publishers of the Ladies' Home Journal, for \$200,000 damages.

HELP YOUR SECTION On April 29th last the Oregonian published a special industrial edition devoted exclusively to the exploitation of Oregon. It probably contained more special and miscellaneous information about Oregon than any one publication that has ever been issued. It is peculiarly useful and valuable to the homeseeker, because it gives the latest and most reliable information about so many different subjects that the homeseeker is naturally interested in. Almost every department of industry is specialized, and both descriptive and statistical information of a highly valuable character is given extensively and in entertaining form.
