A thoughtful thing on the part of the Fair Committee, during the Fair, was the seats provided on either side of Main street, for the accommodation of visitors. Some one has suggested that it would be a good move on the part of the business men of the town to provide permanent and comfortable seats, with the permission of the county court, under the trees, in the court yard. Such accommodation would be sure to be appreciated by tired country people, who are obliged to spend the entire day in the city.
