WASHINGTON COUNTY BOOMS ONION MARKET

Growers Offered \$2.50 for Fifty Car Loads

BUT THE RAISERS WILL NOT SELL

Confederated Onion Growers' Association Meets

There is a big boom in the onion market, and Washington county growers virtually control the price of the product in the Northwest. The Confederated Onion Growers' Association met in Portland, last Saturday, and members of the Association realize that they control the market. Large dealers have offered \$2.50 per hundred for fifty carloads, but the offer was refused. A poll of the crop indicates that the 1907 crop is less than that of the preceding year, and it is figured that there will not be enough Oregon onions to go around. Movement of the new crop to date, was as follows: Sherwood, 10 cars; Cornelius, 1 car, and 3 for future delivery; Tualatin, 21 cars; Cedar Mill, 3 cars, and 350 sacks for future delivery. Open in some what divided as to the immediate future of the market, but all are united in the opinion that the late market will be a good one.

GOVERNOR'S PROCLAMATION

State of Oregon Executive Department, Salem, Oregon, Oct. 28.

Whereas, the banks of Oregon and of the West have large balances due them from banks in New York, Boston, Philadelphia, Baltimore, Chicago, St. Louis, St. Paul, Minneapolis, Omaha and other Eastern cities, and because of the strain of financial situation throughout the East the banks in said cities have refused to make shipments of coin or currency in payment of said balances due the banks of Oregon and other Western banks, and

Whereas, as a result of the action of said Eastern banks, it is impossible for the banks of Oregon to continue in the exercise of their functions without great injury to the industries of the state, and

Whereas, for the common good of the people of the whole state, it is necessary that a holiday be proclaimed in order that an opportunity may be afforded to the financial institutions of the state to procure from Eastern banks the balances due to them as hereinbefore stated.

Therefore, I, George E. Chamberlain, Governor of the State of Oregon, by virtue of the authority in me vested, do hereby proclaim the 29th, 30th and 31st days of October, and the 1st and 2nd days of November, 1907, legal holidays, to the end that time and opportunity may be given the banking institutions of this state to arrange for shipments of money due them from the banks in the Eastern cities hereinbefore named, without which every industry in the state must suffer and the growth and development thereof be greatly retarded.

In witness whereof I have hereunto signed my name and caused the great seal of the state to be affixed at the capital in the City of Salem this 28th day of October, A. D., 1907.

The barn of David Wenger, of Helvetia, was destroyed by fire last Friday night, at about 6:15 o'clock. Seventy-five bushels of barley and about 45 tons of hay were lost in the flames. The total insurance was \$300, and the loss will run to something like \$1200. The origin of the fire is shrouded in mystery, the only theory being that tramps may have started it while lighting

CEDAR MILL GIRL SHOT BY A ROBBER

While Driving to Portland on Cornell Road

SUSIE THOMPSON SHOT IN SHOULDER

Wounded Woman Taken to Good Samaritan Hospital

On Sunday evening, October 27, at about 6:30, Miss Susie Thompson, of Cedar Mill, and Miss Boettischer, of Portland, were returning to the latter place, after having spent the day with Miss Thompson's parents, Mr. and Mrs. Robt. Thompson, of this county, and while descending the Cornell road, a masked man appeared when with in three miles of Portland, and ordered the young ladies to halt and throw up their hands. Instead of complying, Miss Boettischer, who

was driving, applied the whip to the horse in an endeavor to escape. At this juncture the highwayman fired at the occupants, the bullet taking effect in Miss Thompson's shoulder, passing through the shoulder blade, and coming out at the back. Having escaped their murderous assailant, Miss Boettischer drove to Portland, where her companion was taken to the Good Samaritan Hospital for treatment.

The attending physician is of the opinion that Miss Thompson will recover unless blood poison sets in. She has been working as a domestic, in Portland, for some time, and does not know that she has an enemy in the world. The Portland police refused to act in the matter, when notified, and the Multnomah county authorities were slow in getting started on the case, so it is probable that the thug will escape.

Chas. E. Fish, the cigar manufacturer of Mountaineer, was in the city Monday, and passed the time of day with the Argus. Mr. Fish manufactures the best grades of smokes, and he should be encouraged in his enterprise.

L. W. House has just finished putting in a fine oak counter at the sheriff's office, which is a creditable piece of work. The counter is 24 feet long, with a fine walnut top, and the sheriff and deputies are well pleased with it.

Most of the hay up on the line of the P. R. & N. has been shipped out to the Portland markets, and as a result, the parties who have contracted for delivery up that way are compelled to ship hay back to the front.

The Argus acknowledges a ticket to the Portland Horse Show, with thanks, but as our Prince Albert coat is a little passe, we probably will not attend the society horse trot, this load of poles. Sorry; but a country editor must draw the line somewhere.

Next Sabbath, at the Reedville Presbyterian church, the pastor will preach in the afternoon at 3:30 o'clock, instead of in the evening. The Christian Endeavor Society will meet at 2:30 instead of evening. These hours will continue until the fine weather and good roads of next summer.

The turnip in question weighed 20 pounds and 2 ounces, and its circumference was 2 feet and 10 inches; diameter 10 inches.

W. H. Wehrung returned Saturday from a trip in the interests of the Yukon-Seattle Fair, in South-eastern Oregon. He thinks that the Klamath country is a coming one. To hear him tell about the big crops under irrigation in that country, bears out his prediction of that country's future. He was one of a party of thirty who attended the big fair at Lakeview. While there he saw Dr. Geo. Merryman, who, he says, is doing well. Mr. Wehrung says that the Klamath country will one day be the great dairy and stock raising section of the coast.

The display of canned fruits was especially good. There was also a good display of apples and walnuts. Among the relics was a violin made from Oregon wood by D. P. Chambers and exhibited by J. H. Collier.

WASHINGTON COUNTY CAN LEAD ALL OTHERS

If Her Orchardists Will Spray Diligently

SOIL AND CLIMATE ARE RIGHT

County Fruit Inspector Tells How it May be Done

County Fruit Inspector W. R. Harris writes the Argus a letter which should be read by every farmer and fruit grower in this section. This county can raise finer apples, pears and prunes than any district in the Northwest. All it wants is care and work. Read the remarks of the fruit inspector:

"I wish to say through the columns of your valuable paper, that the late Fall and the early winter, are the best time for spraying for the San Jose scale, the Woolly Aphis, and the eggs of the green and black Aphis, the Anthracnose and brown or bitter rot, and other fungi. The last bred of the San Jose scale is now locating for winter quarters, and before the scale is fully matured, it is easily destroyed with the sulphur and lime solution. I advise everyone that has fruit trees, to spray as soon as possible. No fruit can be grown in this county, fit for the market, without spraying. Our laws do not permit wormy or scaly fruit to be sold in the markets, so it is up to every one of us to prune and spray our trees. My observations this season, confirms the statement that the San Jose scale can be controlled, and that we can keep from 90 to 95 percent of our apples free from the codling moth. The Fair at Hillsboro was a credit to the county, and shows what can be done, and when we get waked up to our best endeavors, we can make a showing in fruit, that will be a credit to the state. If every fruit man in this county, would take the same interest in his fruit, that stockmen take in eliminating scrub stock, and raising fine breeds, and grow premium fruit of all kinds, what they are doing at Hood River and Southern Oregon, can be done right here in Washington county, where both climate and soil are the best in the state. We have a lot of men in this county, who are going in to win, on the lines laid down, and the man who raises wormy or scaly fruit, or who takes rotten prunes to the dryer, will be left out in the cold. Clean packing, clean fruit and a clean conscience, are what every fruit raiser in this county should have. Then, and only then, will our county be able to lead in this important industry."

Chas. E. Fish, the cigar manufacturer of Mountaineer, was in the city Monday, and passed the time of day with the Argus. Mr. Fish manufactures the best grades of smokes, and he should be encouraged in his enterprise.
